Investigation Case Status	The classification of the case according to published Texas case definition criteria. The case status of Confirmed or Probable should conform to the case definitions in the Epi Case Criteria Guide. The case status of Not a Case	C N P S U	C Confirmed N Not a Case P Probable S Suspect U Unknown	At the end of each year, blanks, Unknown, and most Suspect cases should be closed as Confirmed, Probable, or Not a Case. Suspect indicates a case under investigation except for a few conditions for which

	indicates a case ruled out by evidence, a case without enough evidence to meet the case definition, or a duplicate investigation.			Suspect is defined as a final status.
Investigation Local ID	Unique identifier for a case investigation that is assigned by the system when the investigation is created.	CAS48#######TX01		The investigation ID is a stable identifier that will not change over time. It can be used to look up the case using Data Entry→Patient→Event Search→Event Type ID = Investigation ID→Event ID = CAS48#######TX01. It can be used to link the investigation data to attached lab report data.
Investigation Status	Code that indicates the investigation status of the case.	C O	C Closed – Investigation has been completed O Open – Investigation still in progress

MMWR Week	MMWR Week for which case information is counted for MMWR publication.	1–52 or 1–53 depending on MMWR Year calendar.		MMWR Week is assigned by the date the case was entered, but can be manually edited according to business rules. The default date is edited to the last week of the year if the MMWR Year has to be edited to reflect the year the case occurred.
MMWR Year	MMWR Year for which case information is counted for MMWR publication.	yyyy		MMWR Year is assigned by the date the case was entered, but can be manually edited according to business rules. As each year's data are closed out, the MMWR Year is edited as needed to reflect the year the case occurred. This can be used to filter for cases by year.
Notification Comments	Comments added by the person reviewing the notification that indicate why the notification was rejected	Free text		This field identifies any actions required before the notification can be approved.
