Data Dictionary Template Report:
Custom Report for Disease Counts by County

Field	Description	Field Values	Code Definitions	Utility
Age Category Code	Code indicating the category to which a person belongs			No data
Age Reported	The person's age at the time the record was entered	integer		In conjunction with Age Reported Unit Code this is the patient's age when the investigation is entered in NBS. It is automatically calculated from Birth Time to Phc Add Time and corresponds to the Reported Age on the Patient tab of the investigation.
Age Reported Time	Date/time the person's age was reported			No data
Age Reported Unit Code	Code indicating the age units (e.g., hours, days, weeks, months, years) for Age Reported	D H M N UNK W Y	D Days H Hours M Months N Minutes UNK Unknown W Weeks Y Years	Used with Age Reported to indicate patient's age at time investigation is entered in NBS.
Birth Gender Code	Code for the individual's sex at birth. Data originate from Patient tab of investigation	F M U	F Female M Male U Unknown	
Birth Order Number	May be defined by program as birth order among all	integer		Rarely filled in

Data Dictionary Template Report:
Custom Report for Disease Counts by County

Field	Description	Field Values	Code Definitions	Utility
	siblings, surviving siblings, or multiple birth siblings			
Birth Time	The date of the patient's birth. Data originate from Patient tab of investigation	mm/dd/yyyy 0:00		
Case Status	The classification of the case according to published Texas case definition criteria. The case status of Confirmed or Probable should conform to the case definitions in the Epi Case Criteria Guide. The case status of Not a Case indicates a case ruled out by evidence, a case without enough evidence to meet the case definition, or a duplicate investigation.	C N P S U	C Confirmed N Not a Case P Probable S Suspect U Unknown	At the end of each year, blanks, Unknown, and most Suspect cases should be closed as Confirmed, Probable, or Not a Case. Suspect indicates a case under investigation except for a few conditions for which Suspect is defined as a final status.
Case Type Code	Code that indicates whether the case report is an individual case (I) or a summary report (S)	I S	I Individual Case Report S Summary Case Report	Data not currently needed - summary reports not currently utilized.
City	Patient's city of residence. Data originate from Patient tab of investigation	free text city name		
Concatenated Race Category Code	Code indicating the person's race category. If more than one race is chosen, the codes are concatenated without spaces or punctuation (e.g., 2028-	1002-5 2028-9 2054-5 2076-8 2106-3 U	1002-5 American Indian or Alaskan Native 2028-9 Asian 2054-5 Black or African American 2076-8 Native Hawaiian or Other Pacific Islander 2106-3 White U Unknown	

Field	Description	Field Values	Code Definitions	Utility
	92106-3 for Asian and White). Data originate from Patient tab of investigation.			
Concatenated Race Description	Race of patient. If more than one race is chosen, the descriptions are concatenated without spaces or punctuation (e.g., American Indian or Alaskan NativeAsian). Data originate from Patient tab of investigation.	American Indian or Alaskan Native Asian Black or African American Native Hawaiian or Other Pacific Islander White Unknown

Country Code	The country code for the patient's postal location. (United States = 840)	840		
County	Name of patient's county followed by County. Data originate from Patient tab of investigation.	e.g., Anderson County	Note that DeWitt County = De Witt County in NBS data.	The patient county in the line list comes from the county entered on the Patient tab in the investigation. Entering a missing county on the Demographics tab in the patient record will not add it to line list data.
County Code	The FIPS code of the patient's county. Data originate from Patient tab of investigation.	Odd numbers 1–507		
Current Sex Code	A code indicating the person's current sex. Data	F M	F Female M Male	

Field	Description	Field Values	Code Definitions	Utility
	originate from Patient tab of investigation.	U	U Unknown	
Deceased Indicator Code	A code indicating that the subject died after onset of illness under investigation whether or not the death is attributable to the infection. Data originate from Patient tab of investigation.	N U Y		Data are from Patient tab question, "Is the patient deceased?" The death may or may not be attributable to the investigation condition.
Deceased Time	The date of the patient's death. Data originate from Patient tab of investigation.	mm/dd/yyyy 0:00		
Detection Method	Description of the method by which the case was identified	Other Patient self-referral Prenatal testing Prison entry screening Provider reported Routine Physical		
Detection Method Code	Code for the method by which the case was identified	OTH PR PS PT RP S	OTH Other PR Provider reported PS Prison entry screening PT Prenatal testing RP Routine Physical S Patient self-referral	
Diagnosis Date	The date the case was diagnosed	mm/dd/yyyy 0:00		
Disease Imported	Description of where the patient was infected relative to the patient's jurisdiction of residence	Indigenous, within jurisdiction Out of country Out of jurisdiction, from another jurisdiction Out of state		

Field	Description	Field Values	Code Definitions	Utility
		Unknown		
Disease Imported Code	Code corresponding to "Disease Imported" description	IND OOC OOJ OOS UNK	IND Indigenous, within jurisdiction OOC Out of country OOJ Out of jurisdiction, from another jurisdiction OOS Out of state UNK Unknown	
ELP From Time				No data
ELP To Time				No data
Education Level	Description of the patient's education level	1 or more years of college, no degree 10th grade 11th grade 12th grade, no diploma 1st, 2nd, 3rd, or 4th grade 5th or 6th grade 7th or 8th grade 9th grade Associate Degree, Academic Program Bachelor's Degree Doctoral Degree GED – General Education Diploma High School Graduate Kindergarten Master's Degree No schooling completed Nursery school Occupational/Vocational degree Pre-kindergarten		Rarely filled in

Field	Description	Field Values	Code Definitions	Utility
		Professional Degree Some college credit, but less than 1 year Some high school, degree status unknown		
Education Level Code	Code indicating the patient's education level	0 1 4 7 8 9 10 11 12 13 16 AD BD DD GD HD HS K MD OV PD PK	0 No schooling completed 1 Nursery school 4 1st, 2nd, 3rd, or 4th grade 7 5th or 6th grade 8 7th or 8th grade 9 9th grade 10 10th grade 11 11th grade 12 12th grade, no diploma 13 Some college credit, but less than 1 year 16 1 or more years of college, no degree AD Associate Degree, Academic Program BD Bachelor's Degree DD Doctoral Degree GD General Education Diploma HD High School Graduate HS Some high school, degree status unknown K Kindergarten MD Master's Degree OV Occupational/Vocational degree PD Professional Degree PK Pre-kindergarten	Rarely filled in
Ethnic Group	Ethnic description indicating if the patient is Hispanic or not	Hispanic or Latino Not Hispanic or Latino Unknown		
Ethnic Group Indicator	Code indicating if the patient is Hispanic or not	2135-2 2186-5	2135-2 Hispanic or Latino 2186-5 Not Hispanic or Latino	

Field	Description	Field Values	Code Definitions	Utility
		UNK	UNK Unknown	
Event Date	System assigned date of event	mm/dd/yyyy 0:00		Event date defaults to one of the following dates , in the order displayed: 1. Onset 2. Diagnosis 3. Report to County 4. Report to State 5. Phc Add Time (date investigation was created) Every investigation will be assigned an event date and onset date will be used if available. Specimen collection date is not utilized. For diseases which do not have a diagnosis date field, another date may be part of the event date calculation.
Event Type	Code indicating date used for event date. Event date hierarchy is Onset Date, Diagnosis Date, Report to County Time, Report to State Time, Phc Add Time (date investigation created).	C D O P S	C Report to County Date D Diagnosis Date O Onset Date P Phc Add Time S Report to State Date	Hierarchy order for Event Date assignment is O, D, C, S, P.

Field	Description	Field Values	Code Definitions	Utility
First Notification Date	The date and time the notification was created	mm/dd/yyyy hh:mm		A blank indicates no notification has been created. This can be used in conjunction with case status to find investigations for conditions reportable in Texas that need to have a notification created.
First Notification Sent Date	The date and time the notification was first sent to CDC	mm/dd/yyyy hh:mm		A blank indicates no notification has been approved. Records must have an approved notification to be included in the official case count.
First Notification Status	The status of the notification when it was created	APPROVED PEND_APPR	APPROVED – Notification approved PEND_APPR – Notification pending approval	If a person with approval rights creates the notification, the First Notification Status will be "APPROVED"; otherwise it will be "PEND_APPR". A blank indicates that a notification has not been created.
First Notification Submitted By	The system identification number of the user that added the record	integer		
Group Case Count	The number of records being reported in a	integer		The summary report feature is not currently

Field	Description	Field Values	Code Definitions	Utility
	summary report			utilized. This field is not useful.
Investigation ID	Unique identifier for a case investigation that populates an RDB (Reporting Data Base) table			This ID is not useful for looking up a person or investigation in the production database.
Investigation ID2	Unique identifier for a case investigation that is assigned by the system when the investigation is created	CAS48#######TX01		The investigation ID is a stable identifier that will not change over time. It can be used to look up the case using Data Entry→Patient→Event Search→Event Type ID = Investigation ID→Event ID = CAS48#######TX01. It can be used to link the investigation data to attached lab report data.
Investigation Start Date	Date investigation was started	mm/dd/yyyy 0:00		
Investigation Status Code	Code that indicates the investigation status of the case	C O	C Closed – Investigation has been completed O Open – Investigation still in progress	
Investigator Assigned Date	Date the case was assigned to a public health staff member for investigation	mm/dd/yyyy 0:00		
Investigator Name	The assigned investigator's last and first names as	free text investigator name		

Field	Description	Field Values	Code Definitions	Utility
	entered in the Provider data.			
Investigator Phone	The assigned investigator's phone number as entered in the Provider data.	###-###-####		
Jurisdiction	NBS name of the jurisdiction assigned to the investigation	Abilene-Taylor CO Health Dept Amarillo (City of) Dept of Health Andrews City-CO Health Dept Angelina CO & Cities Health Dist Atascosa CO Health Dept Austin HHS Division (City of) Beaumont Public Health Dept Bell CO PHealth Dist Brazoria CO Health Department Brazos CO Health Dist Brownwood-Brown CO Health Dept Calhoun CO Health Dept Cameron CO Health Dept Cass County Health Dept Chambers CO Health Dept Cherokee CO Health Dept Collin CO Health Care Servcs Comal CO Health Dept Corpus Christi-Nueces CO PH Dist Corsicana-Navarro PHealth Dist Cuero-DeWitt CO Health Dept Dallas CO Health & Human Servcs Denton CO Health Dept Ector CO Health Dept El Paso City-CO Hlth & Envirn Dist Fort Bend CO Health Dept (HHS)		The Custom Report for Disease Counts by County will only list investigations that the person running the report has permission to view, regardless of where the patient resides. Some data are available for the whole state in the Custom Report for Disease Counts by County – Without Jurisdiction Security; however, patient identifiers (e.g., name, address, patient ID number) are not included in this report.

Last Notification Date	The date and time the most recent notification was created	mm/dd/yyyy hh:mm		If only 1 notification has been created, this date will match the First Notification Created Date.
Last Notification	The date and time the	mm/dd/yyyy hh:mm		If only 1 notification

Field	Description	Field Values	Code Definitions	Utility
Sent Date	notification was first sent to CDC			has been approved, this date will match the First Notification Sent Date. It always matches the Notification Date.
Last Notification Submitted By	The system identification number of the user who added the record	integer		NBS User ID number assigned by the system. The Event Metrics report has both name and NBS ID number and can be used to find NBS User names from the ID numbers.
Latitude				No data
Longitude				No data
MMWR Week	MMWR Week for which case information is counted for MMWR publication	1–52 or 1–53 depending on MMWR Year calendar.		MMWR Week is assigned by the date the case was entered, but can be manually edited according to business rules. The default date is edited to the last week of the year if the MMWR Year has to be edited to reflect the year the case occurred.
MMWR Year	MMWR Year for which case	yyyy		MMWR Year is

Field	Description	Field Values	Code Definitions	Utility
	information is counted for MMWR publication			assigned by the date the case was entered, but can be manually edited according to business rules. As each year's data are closed out, the MMWR Year is edited as needed to reflect the year the case occurred. This can be used to filter for cases by year.
MPR Id	An identification number relating to the patient			Not useful; not searchable in NBS
Marital Status	Marital status description	Annulled Divorced Interlocutory Legally separated Married Polygamous Single, never married Unknown Widowed		
Marital Status Code	Code indicating the marital status	A D I L M P S	A Annulled D Divorced I Interlocutory L Legally separated M Married P Polygamous S Single, never married	

Field	Description	Field Values	Code Definitions	Utility
		U W	U Unknown W Widowed	
Notification Date	The most recent date an approved notification was sent to CDC	mm/dd/yyyy hh:mm		This date is the same as Last Notification Sent Date.
Number of Notification Created	The calculated record count of the number of notifications created	integer		blank – no notification created 0 – notification rejected and new notification not created ≥1 – 1 or more notifications created that are either pending or approved
Number of Notification Sent	The calculated record count of the number of notifications sent	integer		blank – no notification created 0 – notification pending approval or rejected ≥1 – 1 or more notifications approved
Occupation Code	A code in demographics indicating a person's occupation	11 21 22 23 42 51 52	11 - Agriculture, Forestry, Fishing and Hunting ## - Mining 22 - Utilities 23 - Construction 42 - Wholesale Trade 51 - Information 52 - Finance and Insurance	Rarely filled in. This information comes from the Demographics tab, not the investigation data.

Field	Description	Field Values	Code Definitions	Utility
		53 54 55 56 61 62 71 72 81 92	53 - Real Estate and Rental and Leasing 54 - Professional, Scientific, and Technical Services 55 - Management of Companies and Enterprises 56 - Administrative and Support and Waste Management 61 - Educational Services 62 - Health Care and Social Assistance 71 - Arts, Entertainment, and Recreation 72 - Accommodation and Food Services 81 - Other Services (except Public Administration) 92 - Public Administration	
Onset Date	Date of illness onset due to condition under investigation	mm/dd/yyyy 0:00		
Outbreak Indicator	Indicates whether this case is considered part of an outbreak or not	N UNK Y	N - No UNK - Unknown Y - Yes	
Outbreak Name	A name assigned to an individual outbreak	String up to 50 characters		If the outbreak name has been entered for all cases that are part of an outbreak, this can be used to pull out case data specific to that outbreak. The outbreak name can be used to find out the number and types of outbreaks that occurred in the time frame and geographic

Field	Description	Field Values	Code Definitions	Utility
				location(s) included in the data set.
Outcome Code	Code indicating whether or not the patient died from the illness	N UNK Y	N - No UNK - Unknown Y - Yes	This is the code for the response entered in the investigation question, “Did the patient die from this illness?” The exception is that this field is blank for pertussis, measles, and rubella cases.
PHC Status Code	The current status of the investigation in the system; choices are suspended, active, completed, cancelled, aborted. Only investigations with an active status are included in line list data.	A	A - Active	Not useful information
Participation Type Code		SubjOfPHC	SubjOfPHC - Subject of PHC	Not useful information
Patient Address As of Date	The date a patient was known to be associated with an address; default is date record is entered.	mm/dd/yyyy 0:00		Data originate from Patient tab of investigation
Patient Age At Onset	Manually entered number indicating patient’s age at condition onset	integer		Data originate from Condition tab of investigation. It is a manually entered field. It is very incomplete and subject to error. It is not available in all

Field	Description	Field Values	Code Definitions	Utility
				conditions. Age can be calculated from Birth Time to Event Date (equal to onset date if known).
Patient Age At Onset Unit Code	Unit of measure for the patient's age at onset	D M N UNK W Y	D - Days M - Months N - Minutes UNK - Unknown W - Weeks Y - Years	Data originate from Condition tab of investigation. It is manually entered, but has a default value of Y which could lead to data entry errors.
Person ID	Unique internal identifier for a person			Not useful; not searchable in production database
Person Local ID	The patient ID number with state-identifying prefix and suffix	PSN48######TX01		The unique digits between PSN48 and TX01 can be used to look up a patient record in NBS from the home page or Data Entry→Patient page. Note that this ID can change if the patient is merged with another patient record.
Phc Add Time	The date and time the investigation was added	mm/dd/yyyy hh:mm		
Physician Name	The physician's last and first names as entered in the Provider data or as			

Field	Description	Field Values	Code Definitions	Utility
	imported from ELR data.			
Physician Phone	The associated physician's phone number as entered in the Provider data or as imported from ELR data.	###-###-####		
Primary Language	Primary language spoken by patient	Text from pick list, e.g., English, Spanish, Undetermined, Vietnamese		Data originate from Demographics tab
Primary Language Code	Code for primary language spoken by patient	Abbreviation of primary language, e.g., ENG, SP, UND, VIE	Examples: ENG – English SP – Spanish UND – Undetermined VIE - Vietnamese	Data originate from Demographics tab
Program Area Code	A code indicating the program area for the case	HEP IDEAS IDEAS_FB IDEAS_HEP_OTH IDEAS_HEPC IDEAS_R IDEAS_WB IMM IMM_R TB ZCD ZCD_R	HEP Hepatitis IDEAS IDEAS – Infectious Disease IDEAS_FB IDEAS – Foodborne IDEAS_HEP_OTH IDEAS – Hepatitis A, D, E, Other IDEAS_HEPC IDEAS – Hepatitis C IDEAS_R IDEAS – Meningitis/ Invasive Respiratory IDEAS_WB IDEAS – Waterborne IMM Varicella IMM_R Immunizations TB Tuberculosis ZCD Rabies ZCD_R Zoonosis	
Record Load Time	Displays the date and time data in report were pulled from the Operational Data	mm/dd/yyyy hh:mm		Marker for when data were pulled. Changes made in production

Field	Description	Field Values	Code Definitions	Utility
	Store (ODS).			are loaded into the data store when the scheduled processing occurs that night. This marker allows a permanent stamp for the timing of the data set.
Record Status Code	Code indicating the processing status of the record	OPEN		Only records with value of OPEN are included in line list. Not a useful field.
Report Date	A system calculated date reported based on the following dates, in the order displayed: 1. Report to County Time 2. Report to State Time 3. PHC Add Time	mm/dd/yyyy 0:00 , or mm/dd/yyyy hh:mm depending on source date		Since this is a system assigned date, every record will have a date. However, the date assigned by this method will not always be the earliest date reported.
Report Form Completion Time	This date auto populates from the lab report date "Date Received by Public Health" when an investigation is created from that lab report. It may be manually edited to date of first report. The equivalent field from the Condition tab of the NBS investigation is "Date of Report."	mm/dd/yyyy 0:00		This date should be compared to "Report to County Time" and "Report to State Time" to determine date first reported to public health.

Field	Description	Field Values	Code Definitions	Utility
Report Source Code	The code corresponding to the Report Source Type for the reporting organization.	BB CF DD DF DT FA FP HO IH JT LA MC MI OT PC PH PO PP PS PT PV RE RU SC SL TF VS VT	BB - Blood Bank CF - Correctional Facilities DD - Dentist DF - Daycare Facility DT - Drug Treatment Facility FA - Other Federal Agencies FP - Family Planning Facility HO - Hospital IH - Indian Health Service JT - National Job Training Program LA - Laboratory MC - Managed Care/HMOs MI - Military OT - Other Treatment Center PC - Pharmacy PH - Public Health Clinic PO - Prenatal/Obstetrics Facility PP - Private Physician Office PS - Public Health Clinic - STD PT - Public Health Clinic - TB PV - Public Health Clinic - HIV RE - Data Registries RU - Rural Health Clinic SC - School Clinic SL - Other State and Local Agencies TF - Tribal Government VS - Vital Statistics VT - Veterinary Sources	
Report Source Name	Name of reporting organization as entered in the Organization data or as imported from ELR data.	Organization name		

Field	Description	Field Values	Code Definitions	Utility
Report Source Type	Type of reporting organization. Data come from the "Role" selected in the Organization record.	Blood Bank Correctional Facilities Data Registries Daycare Facility Dentist Drug Treatment Facility Family Planning Facility Hospital Indian Health Service Laboratory Managed Care/HMOs Military National Job Training Program Other Federal Agencies Other State and Local Agencies Other Treatment Center Pharmacy Prenatal/Obstetrics Facility Private Physician Office Public Health Clinic Public Health Clinic - HIV Public Health Clinic - STD Public Health Clinic - TB Rural Health Clinic School Clinic Tribal Government Veterinary Sources Vital Statistics		
Report to County Time	Date case was first reported to the county public health system	mm/dd/yyyy 0:00		This date should be compared to "Date First Reported" and

Field	Description	Field Values	Code Definitions	Utility
				"Report to State Time" to determine date first reported to public health.
Report to State Time	Date case was first reported to the state public health system	mm/dd/yyyy 0:00		This date should be compared to "Date First Reported" and "Report to County Time" to determine date first reported to public health.
Reporter Name	The selected reporting provider's last and first names as entered in the Provider data or as imported from ELR data.	free text reporter's name??		
Reporter Phone	The associated reporting provider's phone number as entered in the Provider data or as imported from ELR data.	###-###-####		
Shared Indicator	Indicates if the record may be viewed by persons with guest view permission for the jurisdiction. The guest view feature is not currently in use.	F T	False – The record is not shareable. True – The record may be shared.	Not useful information.
State	The patient's state of residence	Alabama Alaska Arizona Arkansas California		

Field	Description	Field Values	Code Definitions	Utility
		Colorado Connecticut Delaware District of Columbia Florida Georgia Hawaii Idaho Illinois Indiana Iowa Kansas Kentucky Louisiana Maine Maryland Massachusetts Michigan Minnesota Mississippi Missouri Montana Nebraska Nevada New Hampshire New Jersey New Mexico New York North Carolina North Dakota Ohio Oklahoma Oregon		

Field	Description	Field Values	Code Definitions	Utility
		Pennsylvania Rhode Island South Carolina South Dakota Tennessee Texas Utah Vermont Virginia Washington West Virginia Wisconsin Wyoming American Samoa Federated States of Micro Guam Marshall Islands Northern Mariana Islands Palau Puerto Rico US Virgin Islands		
State Case ID	Manually entered ID for case	integer		Rarely filled in
State Code	FIPS code for state	2 digit FIPS code for states or 2 letter code for US territory, e.g., 48 for Texas.		
Zip Code	Zip code of patient's address	#####-####
