## BACKGROUND

[The 2014-15 General Appropriations Act, S.B. 1, 83<sup>rd</sup> Texas Legislature, Regular Session, 2013 \(Article II, Department of State Health Services \[DSHS\], Rider 93\)](#) specified that DSHS shall collect hospital emergency department (ED) data as set forth in [Chapter 108, Texas Health and Safety Code \(THSC\)](#). DSHS currently collects inpatient and outpatient data from hospitals and ambulatory surgical centers. DSHS began collecting ED data from hospitals in January 1, 2015 per the rules established in [25 Texas Administrative Code \(TAC\), Sections 421.71-421.78](#), and in conjunction with the collection of inpatient and outpatient data.

Senate Bill (SB) 7 (82nd Texas Legislature First Called Special Session) SECTION 7.06 repealed the facility exemption sections in Chapter 108 effective September 1, 2014. Rules were adopted implementing the rural provider requirements to begin with January 1, 2015, data.

The Freestanding Emergency Medical Care Facilities (FEMCF) data collection began on October 1, 2020, under the amended rules in 25 TAC Sections 421.71 – 421.79.

## TEXAS EMERGENCY DEPARTMENT RESEARCH DATA FILES

[THSC Section 108.0135\(a\)](#) permits DSHS to disclose data collected under this chapter that is not included in the Texas ED Public Use Data Files (PUDF) if the disclosure is reviewed and approved by the DSHS Institutional Review Board (IRB) under [HSC Section 108.0135](#).

[THSC Section 108.013\(k\)](#) permits DSHS to disclose data collected under this chapter that is not included in the Texas ED Public Use Data Files to any department or commission program if the disclosure is reviewed and approved by the DSHS Institutional Review Board (IRB) under [THSC Section 108.0135](#). These data are provided as Research Data Files (RDF) containing protected patient-level information and shall be used only for the benefit of the public subject to specific limitations defined by [THSC Section 108.0135](#).

The ED RDF includes all the variables in the ED (PUDF) and the additional patient sensitive or confidential data variables only available to DSHS and HHSC programs under [THSC Section 108.013\(k\)](#). Only data elements approved by the DSHS IRB and DSHS Executive Steering Committee will be released to the requestor with their approved data elements in a custom-built RDF.

The ED RDF contains:

- Inpatient (IP) Base Data File – This file contains the required data elements as well as situationally required elements and some calculated fields. For example, codes regarding: Facility Identifier; Principal Diagnosis; Other Diagnoses; External Cause of Injury; Principal Procedure; Other Procedures; 3M™ All-Payer Refined Diagnosis Related Group and Centers for Medicare and Medicaid Services (CMS) Diagnosis Related Group; Type of Admission; Source of Admission; Length of Stay; Patient Ethnicity; Patient Race; Patient Residence City, County, ZIP code, Patient Status, Primary Payment Source and other data used for most research topics. Other elements in the Base Data file include Condition Code; Value Code; Occurrence Code, Occurrence Day, Charge amounts for Service Pay Groups; and other information that may be useful regarding the inpatient stay research.
- IP Charges File - This file contains charges data. This file can be linked with the other IP data files via the Record ID. This file contains information regarding the revenue codes, modifiers and specific charges for services or products.
- Outpatient (OP) Base Data File – This file contains the required data elements. For example, codes regarding: Facility Identifier; Diagnoses; External Cause of Injury; Procedures; Charge amounts for Service Pay Groups; Patient Ethnicity; Patient Race; Patient Residence City, County, ZIP code; Patient Status, Source of Admission; Primary Payment Source, and other data used for most research topics.
- OP Classification Data File – This file contains calculated data elements and classifiers assigned by THCIC; Clinical Classification Software codes; and Clinical Risk Group codes, status and severity.
- OP Charges File -This file contains charges data. This file can be linked with the other OP data files via the Record ID. This file contains information regarding the revenue codes, modifiers and specific charges for services or products. This file also contains 3M™ Enhanced Ambulatory Patient Grouping (EAPG) codes and Centers for Medicare and Medicaid Services (CMS) Ambulatory Payment Classification information.
- Facility Type Data File – This file contains the information about specialty units or specific types of services provided at the hospitals or FEMCFs.

The following supplementary information is provided along with the ED RDF:

- Inpatient Comments File – This PDF file contains any comments that hospitals, ASCs and FEMCFs included when they submitted and certified their inpatient data.
- Outpatient Facility Comments File – This PDF file contains any comments that the hospitals, ASCs and FEMCFs included when they reviewed and certified their outpatient data.
- Facility Reporting Status Document – This document provides information about whether the hospitals, ASCs or FEMCFs reported any data. It also indicates whether they reported low numbers and their identification was masked in the data, reported no discharges or if they closed or were out of compliance, and whether they submitted any comments about their data.

The ED RDF is available in fixed length format text files, tab-delimited format, or SAS format. The data must be imported into a software application. The ED RDF does not include software for analyzing the data. The data files have been tested with several software applications including Microsoft Access 2016 (Software limits may not allow all data to be loaded), Microsoft Excel 2016 (Software limits may not allow all data to be loaded), SAS 9.4, and IBM SPSS Statistics 24. Please note that files containing more than 1,048,576 records will not fit on a single Microsoft Excel 2016 worksheet.

Any questions about the data must be referred to DSHS only. DSHS does not assist with data analysis. The data are protected by United States copyright laws and international treaty provisions.

### **PATIENT/PHYSICIAN CONFIDENTIALITY**

The legislative intent behind the creation of the ED RDF was that the data and resulting information be used for the benefit of the public. This is specified in [THSC Section 108.013](#). [THSC Section 108.013\(c\)](#) stipulates that DSHS may not release, and a person or entity may not gain access to, any data that could reasonably be expected to reveal the identity of a patient or physician. Any effort to determine the identity of any person violates [THSC Section 108.013](#) and may incur penalties as stated in [THSC Sections 108.014](#) and [108.0141](#). In addition, under [THSC Sections 108.013\(e\) and \(f\)](#), patient and/or physician information in the ED RDF cannot be used for discovery, subpoena, or other means of legal compulsion or in any civil, administrative,

or criminal proceeding.

To protect physician identities, the [THSC Sections 108.009\(d\)](#) and [108.013\(h\)](#) requires creation of a uniform identification number for physicians in practice. Uniform physician identifiers are available except when the number of physicians represented in a 3M™ All-Payer Refined Diagnosis Related Group (DRG) code for a hospital, ASC or FEMCF is less than the minimum cell size of five.

It may be possible in rare instances, or through complex analysis and with outside information, to ascertain from the RDF the identity of individual patients of physicians or other health practitioners. Considerable harm could result if this were done. ED RDF users are required to sign and comply with the DSHS Data Use Agreement in the Application before shipment of the RDF. The Data Use Agreement prohibits attempts to identify individual patients or physicians. Any effort to determine the identity of any person or to use the information for any purpose other than for analysis and aggregate statistical reporting violates [HSC Chapter 108](#) and the Data Use Agreement. By virtue of the Agreement, the signer agrees that the data will not be used to identify an individual patient or physician. Because of these restrictions, under no circumstances will users of the data contact an individual patient, physician, hospital, ASC or FEMCF for the purpose of verifying information supplied in the DSHS ED RDF.

### **RESTRICTIONS ON DATA USE**

[THSC Section 108.010\(c\)](#) prohibits DSHS from releasing provider quality reports until one year of data is available. Users of the RDF are cautioned about using less than a year of data to make any hospital, ASC or FEMCF quality assumptions.

In the Data Use Agreement, the requestor and end-user of the data are referred to as the "licensee". To acquire the data, the licensee must give the following assurances with respect to the use of DSHS ED RDF:

- The licensee will not release nor permit others to release the individual patient records or any part of them to any person who is not a staff member of the organization that has acquired the data, except with the written approval of DSHS;
- The licensee will not attempt to link nor permit others to attempt to link the hospital, ASC or FEMCF stay records of patients in this data set with personally identifiable records from any other source;

## EMERGENCY DEPARTMENT RESEARCH DATA FILE

- The licensee will not release nor permit others to release any information that identifies persons, directly or indirectly;
- The licensee will not attempt to use nor permit others to use the data to learn the identity of any physician;
- The licensee will not nor permit others to copy, sell, rent, license, lease, loan, or otherwise grant access to the data covered by the approved IRB request and the Data Use Agreement to any other person or entity, unless approved in writing by DSHS;
- The licensee agrees to read the Data User Manual and to be cognizant of the limitations of the data;
- The licensee will use the following citation in any publication of information from this file:

*Texas Emergency Department Research Data Files*, [quarter and year of data]. Texas Department of State Health Services, Center for Health Statistics, Austin, Texas. [date of publication];

- The licensee will indemnify, defend, and hold the DSHS, its members, employees, and the Department's contract vendors harmless from any and all claims and losses accruing to any person as a result of violation of this agreement; and
- The licensee will make no statement nor permit others to make statements indicating or suggesting that interpretations drawn from these data are those of DSHS.

The licensee understands that these assurances are necessary for DSHS to assure compliance with its statutory confidentiality requirement. The signature on behalf of the licensee indicates the licensee's agreement to comply with the above-stated requirements and that the licensee has knowledge that under [THSC Sections 108.014](#) and [108.0141](#) civil and criminal penalties may be assessed should the licensee or others that knowingly or negligently access or release data in violation of this agreement is punishable by a fine of up to \$10,000 and an offense is a state jail felony. By signing the Data Use Agreement, the ED RDF user (i.e., the licensee) has been informed that the potential for both civil and criminal penalties exists.

Users of report generating software to access the RDF are required to purchase a license to use the data.

## DATA LIMITATIONS

**(Users are advised to become familiar with the data limitations.)**

- [THSC Section 108.009\(h\)](#) requires that a uniform submission format be used for reporting purposes. Beginning with 2005, all data are collected in the THCIC 837 format.
- Up to 25 diagnosis codes, up to 25 procedure codes, and up to 10 external cause of injury codes can be submitted. Sicker patients may not be accurately represented in the data. This may also result in total volume and percentage calculations for diagnoses and procedures not being complete.
- Race and ethnicity data are required by law and rule to be submitted for each patient. Generally, these data are not collected by facilities and may be subjectively captured.
- Inaccuracies in the data and incompleteness of the data are addressed in the hospital, ASC or FEMCFs' comments if submitted by the providing facilities.
- County of residence is not collected by provider facilities. County Federal Information Processing Standard (FIPS) codes are assigned by DSHS based on patient ZIP code.
- For hospital emergency department patient visits that are admitted to the hospital and included in the inpatient discharge data, DSHS assigns the Risk of Mortality and Severity of Illness scores using methodology designed by 3M™. These scores may be affected by the number of diagnoses and procedure codes collected by DSHS or by the facility's information system and may be understated.
- Diagnoses present on admission indicator codes (POA) are required for all hospitals submitting inpatient discharge data, except Critical Access Hospitals, inpatient rehabilitation hospitals, inpatient psychiatric hospitals, children's or pediatric hospitals, and long-term care hospitals. Some acute care hospitals that have special units like the hospitals exempted from reporting POA may not include POA codes for those patients. POA codes are not available for outpatient data.
- Comparability of length of stay (LOS) across hospitals is affected by factors such as case-mix and severity complexity, payer-mix, market areas and hospital ownership, affiliation or teaching status. Any analysis of LOS at the hospital level should consider the above factors.
- Any analysis of mortality should note that the data reflect only patients who died in the hospital and not those who died after discharge from the hospital.
- The data are a snapshot in time. Hospitals, ASC and FEMCFs must submit data no later than 60 days after the close of a calendar quarter.

Depending on hospital, ASC and FEMCFs' collection and billing cycles, not all discharges may have been billed or reported. This can affect the accuracy of source of payment data, particularly self-pay and charity that may later qualify for Medicaid or other payment sources.

- Updates to the ED RDF manual, if any, are available through the THCIC website, <http://www.dshs.texas.gov/thcic/>, which should be checked periodically as notifications of an update will not be sent.
- DSHS collects data from all hospitals, ASCs and FEMCFs in the state not specifically exempted. Some hospitals, ASCs, and FEMCFs may be exempted for certain situations (for example, natural or other disasters, or other unusual conditions) for limited time periods. This hospital, ASC and FEMCF mix should be considered when drawing conclusions about the data or making comparisons with other data.
- Any conclusions drawn from the data are subject to errors caused by the inability of the facility to communicate complete data due to form constraints, subjectivity in the assignment of codes, system mapping, and clerical error. The data are submitted by providers as their best effort to meet statutory requirements.

## **HOSPITAL COMMENTS FILE & OUTPATIENT FACILITY COMMENTS FILE**

**(Users are advised to consider hospital, and freestanding emergency medical care facilities (FEMCF) comments in any analysis of the data.)**

Included with the ED RDF are two separate files ("Hospital Comments File" and Outpatient Facility Comments File") containing the unedited comments (except for removal of individual identifying information) submitted by hospitals and FEMCFs at the time of data certification. Comments relating to individual data elements should be considered in any analysis of those data elements. These comments express the opinions of individual hospitals, and FEMCFs (or physicians or healthcare practitioners within those hospitals and FEMCFs) and are not necessarily the views of the DSHS. Hospitals and FEMCFs that submitted comments are identified in two separate files called the "Hospital Comments" (for inpatient data) and "Outpatient Facility Comments" (for outpatient data).

## EMERGENCY DEPARTMENT RESEARCH DATA FILE

### Emergency Department Data Dictionary

The purpose of this document is to provide the user with the necessary information to use and understand the data in the Hospital Emergency Department (ED) Research Data File (RDF).

The following information is provided:

---

<b>Field</b>	Unique, abbreviated name of the data element.
<b>Description</b>	Brief explanation of the data element. Descriptions of data elements are taken from specifications manuals
<b>Data Source</b>	Provided by the health care facility on the claim form (Claim) Provided to THCIC by the healthcare facility (Provider) Assigned by DSHS (Assigned) Calculated by DSHS (Calculated)  Note: For those data elements that have been temporarily suppressed, the quarter of data for which the data element will be released is noted following the Data Source.
<b>Type</b>	Alphanumeric or numeric
<b>Coding scheme</b>	Valid codes for a data field. Values taken from specifications manuals.

---

Note a change: Any code provided by a facility that has been determined to be invalid has been assigned the value ` (Backtick, Back quote, Grave accent mark).  
Any data element that is blank should be interpreted as 'missing', no data provided, unless otherwise noted.

### INPATIENT BASE DATA FILE

---

<b>Field 1:</b>	<b>RECORD_ID</b> Record Identification Number. Unique number to identify the record within the research data file. Does not match or link to PUDF (Public Use Data File) Record ID. Each claim associated with a patient's visit generates a unique Record ID. Does match with RECORD_ID in other Inpatient RDF files.				
<b>Length:</b>	12	<b>Type:</b>	Alphanumeric	<b>Data Source:</b>	Assigned
<b>Field 2:</b>	<b>PAT_UNIQUE_INDEX</b> (PUI) Unique identifier assigned to the patient by THCIC. A patient unique index is assigned for each uniquely identifiable patient in the data set. There can be multiple Record IDs associated with a one PUI (see Field # 1).				
<b>Length:</b>	10	<b>Type:</b>	Alphanumeric	<b>Data Source:</b>	Assigned
<b>Field 3:</b>	<b>THCIC_ID</b> Provider ID. Unique identifier assigned to the provider by THCIC.				
<b>Length:</b>	6	<b>Type:</b>	Alphanumeric	<b>Data Source:</b>	Assigned
<b>Field 4:</b>	<b>SPEC_UNIT_1</b> Specialty Unit in which most days stay occurred based on number of days by Type of Bill or Revenue Code.

**Field 7:**        **SPEC\_UNIT\_4**

Specialty Unit in which 4<sup>th</sup> most days stay occurred based on number of days by Type of Bill or Revenue Code.

**Coding Scheme:** Same as SPEC\_UNIT\_1.

**Length:** 1    **Type:** Alphanumeric    **Data Source:** Calculated

---

**Field 8:**        **SPEC\_UNIT\_5**

Specialty Unit in which 5<sup>th</sup> most days stay occurred based on number of days by Type of Bill or Revenue Code.

**Coding Scheme:** Same as SPEC\_UNIT\_1.

**Length:** 1    **Type:** Alphanumeric    **Data Source:** Calculated

---

**Field 9:**        **ENCOUNTER\_INDICATOR**

Indicates the number of claims used to create the encounter. The encounter refers to an electronic record that contains information on all services rendered for a patient episode of care (admission through discharge) by a provider in a patient care setting. Some non-acute care patients may have more than one claim that is consolidated for the record, such as patients in rehabilitation hospitals, long term care hospitals, or psychiatric hospitals.

**Length:** 2    **Type:** Alphanumeric    **Data Source:** Calculated

---

**Field 10:**       **SEX\_CODE**

Gender of the patient as recorded at date of admission or start of care.

**Coding Scheme:** M Male

F Female

U Unknown

**Length:** 1    **Type:** Alphanumeric    **Data Source:** Claim

Clinical Classifications Software Refined (CCSR) for Services and Procedures classification of PROC\_CODE\_25 (surgical or other procedure with the highest charge performed during the period covered by the bill) into a clinically meaningful procedure category.

**Length:** 3    **Type:** Alphanumeric    **Data Source:** Assigned

## OUTPATIENT CHARGES FILE

**Field 1:**    **RECORD\_ID**

Record Identification Number. Unique number to identify the record within the research data file. There will be a Record Identification Number for each claim associated with a patient's visit. Does not match or link to Public Use Data File PUDF Record ID. Does match with RECORD\_ID in other Inpatient and Outpatient Research Data Files RDF files.

**Length:** 12    **Type:** Alphanumeric    **Data Source:** Assigned

**Field 2:**    **REVENUE\_CODE**

Code corresponding to each specific accommodation, ancillary service or billing calculation related to the services being billed.
