

## CDC *Listeria* Initiative Case Report Form

Version 2.0

Please complete this questionnaire for all laboratory-confirmed listeriosis cases.

Instructions are available in a separate two-page document.

**Please remove this page before submitting form to CDC**

<b>State public health laboratory isolate ID:</b> _____	
<b>Patient's name:</b> _____	<b>Date of Birth:</b> ____/____/____
<b>Address:</b> _____	
<b>City:</b> _____ <b>State:</b> ____ <b>Zip:</b> _____	
<b>Phone numbers:</b> (h) _____ (w) _____ (m) _____	
<b>Hospital:</b> _____ <b>Hospital contact:</b> _____ <b>Phone:</b> _____	<b>Hospital:</b> _____ <i>(if &gt;1 hospital)</i> <b>Hospital contact:</b> _____ <b>Phone:</b> _____
<b>If surrogate interview:</b>	
<b>Interviewee name:</b> _____	
<b>Interviewee phone number(s):</b> _____	
<p>Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ASTSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia, 30329; ATTN: PRA (0920-0728).</p>	

Form Approved - OMB No. 0920-0728

### Log of Attempts to Call Patient or Surrogate (Optional)

# SUPPLEMENT

## CDC *Listeria* Initiative Case Classification Supplement

Is the *Listeria* case associated with pregnancy? (Illness in a pregnant woman, fetus, or infant ≤ 28 days old)

- Yes (go to Box 4 Supplement)     No (go to Box 3 Supplement)     Unknown

### Box 3 Supplement: Cases not associated with pregnancy. (Illness in non-pregnant adults and children > 28 days old)

State Epi Case ID: \_\_\_\_\_

#### Specimen Collection Information

Source (check all that apply)	Collection Date (mm/dd/yyyy)	Culture Result	CIDT Result	State public health lab isolate ID
<input type="checkbox"/> Blood	___/___/___	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	
<input type="checkbox"/> CSF	___/___/___	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	
<input type="checkbox"/> Other (specify) _____	___/___/___	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	
<input type="checkbox"/> Other (specify) _____	___/___/___	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	<input type="checkbox"/> Positive <input type="checkbox"/> Negative <input type="checkbox"/> Not done <input type="checkbox"/> Unknown	

#### Laboratory Criteria for Diagnosis

**Confirmatory\***: Isolation of *L. monocytogenes* from a normally sterile site reflective of an invasive infection (e.g. blood, cerebrospinal fluid, pleural, peritoneal, pericardial, hepatobiliary, or vitreous fluid; orthopedic site such as bone, bone marrow, or joint; or other sterile sites including organs such as spleen, liver, and heart, but not sources such as urine, stool, or external wound)

**Presumptive**: Detection of *L. monocytogenes* by culture-independent diagnostic test (CIDT) in a specimen collected from a normally sterile site e.g. blood, cerebrospinal fluid, pleural, peritoneal, pericardial, hepatobiliary, or vitreous fluid; orthopedic site such as bone, bone marrow, or joint; or other sterile sites including organs such as spleen, liver, and heart, but not sources such as urine, stool, or external wound)

**Supportive\***: Isolation of *L. monocytogenes* from a non-invasive clinical specimen (e.g. stool, urine, wound)

\*requires culture confirmation

Laboratory criteria met by case:     Confirmatory     Presumptive     Supportive

#### Case Classification

(To be used to determine eligibility for interview with the *Listeria* Initiative form. Official case classifications will be determined by CDC.)

**Confirmed\***: A person who meets confirmatory laboratory evidence

**Probable\***: A person who meets the presumptive laboratory evidence

**Suspect**: A person with supportive laboratory evidence

\* reportable to CDC

Case Classification:     Confirmed     Probable     Suspect

# SUPPLEMENT

## Box 4 Supplement: Cases associated with pregnancy. (Illness in a pregnant woman, fetus, or infant ≤ 28 days old)

Maternal State Epi Case ID: \_\_\_\_\_ Neonatal State Epi Case ID: \_\_\_\_\_

Important: If mother and neonate are counted as separate cases (see Case Classification, below), please provide the state id for both cases.

### Specimen Collection Information

Maternal Source (check all that apply)	Collection Date (mm/dd/yyyy)	Culture Result	CIDT Result	State public health lab isolate ID

# SUPPLEMENT

## Box 4 Supplement Continued

### Laboratory Criteria for Diagnosis

**Confirmatory\***: Isolation of *L. monocytogenes* from a normally sterile site reflective of an invasive infection (e.g. blood, cerebrospinal fluid, pleural, peritoneal, pericardial, hepatobiliary, or vitreous fluid; orthopedic site such as bone, bone marrow, or joint; or other sterile sites including organs such as spleen, liver, and heart, but not sources such as urine, stool, or external wound)

OR

**For MATERNAL isolates in the setting of pregnancy, pregnancy loss, intrauterine fetal demise, or birth**: Isolation of *L. monocytogenes* from products of conception (e.g. chorionic villi, placenta, fetal tissue, umbilical cord blood, amniotic fluid) collected at the time of delivery

OR

**For NEONATAL isolates in the setting of live birth**: Isolation of *L. monocytogenes* from a non-sterile neonatal specimen (e.g. meconium, tracheal aspirate, but not products of conception) collected within 48 hours of delivery

**Presumptive**: Detection of *L. monocytogenes* by culture-independent diagnostic test (CIDT) in a specimen collected from a normally sterile site e.g. blood, cerebrospinal fluid, pleural, peritoneal, pericardial, hepatobiliary, or vitreous fluid; orthopedic site such as bone, bone marrow, or joint; or other sterile sites including organs such as spleen, liver, and heart, but not sources such as urine, stool, or external wound)

OR

**For MATERNAL isolates in the setting of pregnancy, pregnancy loss, intrauterine fetal demise, or birth**: Detection of *L. monocytogenes* from products of conception (e.g. chorionic villi, placenta, fetal tissue, umbilical cord blood, amniotic fluid) collected at the time of delivery

OR

**For NEONATAL isolates in the setting of live birth**: Detection of *L. monocytogenes* from a non-sterile neonatal specimen (e.g. meconium, tracheal aspirate, but not products of conception) collected within 48 hours of delivery

**Supportive\***: Isolation of *L. monocytogenes* from a non-invasive clinical specimen (e.g. stool, urine, wound, other than those specified under maternal and neonatal specimens above)

\*requires culture confirmation

Laboratory criteria met by maternal case:  Confirmatory  Presumptive  Supportive  None

Laboratory criteria met by neonatal case:  Confirmatory  Presumptive  Supportive  None

### Case Classification

(To be used to determine eligibility for interview with the Listeria Initiative form. Official case classifications will be determined by CDC.) **Confirmed\***: A person who meets confirmatory laboratory evidence

**Probable\***: A person who meets the presumptive laboratory evidence

OR

A mother or neonate who meets epidemiologic linkage criteria but who does not have confirmatory laboratory evidence (See Epidemiologic Linkage, below)

**Suspect**: A person with supportive laboratory evidence

\* reportable to CDC

Notes:

Pregnancy loss and intrauterine fetal demise are considered maternal outcomes and would be counted as a single case in the mother.

A case in a neonate is counted if live-born.

If multiple criteria are met, the highest level of classification should be reported for each case.

# SUPPLEMENT

## Epidemiologic Linkage

**For PROBABLE MATERNAL cases:** A mother who does not meet the confirmed case criteria,  
BUT who gave birth to a neonate who meets the confirmatory or presumptive laboratory evidence for diagnosis,  
AND the neonatal specimen was collected  $\leq 28$  days after birth

**For PROBABLE NEONATAL cases:** A neonate who does not meet the confirmed case criteria  
AND whose mother meets confirmatory or presumptive laboratory evidence for diagnosis from products of conception  
OR a clinically compatible neonate whose mother meets confirmatory or presumptive laboratory evidence for diagnosis from a normally sterile site

Maternal Case Classification:  Confirmed  Probable  Suspect  Not a case

If Probable, does case have an epidemiologic link to a neonatal case?  Yes  No  Unknown

Neonatal Case Classification:  Confirmed  Probable  Suspect  Not a case  Not applicable (pregnancy loss or intrauterine fetal demise)

If Probable, does case have an epidemiologic link to a maternal case?  Yes  No  Unknown

If Confirmed or Probable:

Age of infant: \_\_\_\_\_  day(s)  month(s)      Sex of infant:  Male  Female  Unknown

**BOX 5: (Optional): Underlying conditions and treatments** (Check all that apply and specify when information available)

<input type="checkbox"/> <b>No underlying conditions, medications, or treatments (previously healthy)</b> <input type="checkbox"/> <b>Cancer/malignancy</b> <input type="checkbox"/> Leukemia <input type="checkbox"/> Lymphoma <input type="checkbox"/> Hodgkin's <input type="checkbox"/> Non-Hodgkin's <input type="checkbox"/> Multiple myeloma <input type="checkbox"/> Myeloproliferative disorder <input type="checkbox"/> Other cancer/malignancy ( <i>specify</i> ) _____  <input type="checkbox"/> <b>On kidney dialysis</b> <input type="checkbox"/> <b>Cirrhosis/advanced liver disease</b> <input type="checkbox"/> <b>Chronic obstructive pulmonary disease (COPD)</b> <input type="checkbox"/> <b>Heart disease</b> ( <i>specify</i> ) _____  <input type="checkbox"/> <b>Organ transplant</b> ( <i>specify</i> ) _____	<input type="checkbox"/> <b>Unknown</b> <input type="checkbox"/> <b>Other conditions</b> <input type="checkbox"/> Crohn's disease <input type="checkbox"/> Diabetes mellitus <input type="checkbox"/> Type 1 <input type="checkbox"/> Type 2 <input type="checkbox"/> Giant cell (temporal) arteritis <input type="checkbox"/> Hemochromatosis/iron overload <input type="checkbox"/> HIV/AIDS* <input type="checkbox"/> HIV (no AIDS) <input type="checkbox"/> AIDS <input type="checkbox"/> Lupus <input type="checkbox"/> Rheumatoid arthritis <input type="checkbox"/> Sarcoidosis <input type="checkbox"/> Sickle cell disease <input type="checkbox"/> Splenectomy/asplenia <input type="checkbox"/> Ulcerative colitis <input type="checkbox"/> Other condition ( <i>specify</i> ) _____	<input type="checkbox"/> <b>Pregnancy</b> <input type="checkbox"/> <b>Immunosuppressive medication</b> <input type="checkbox"/> Corticosteroids/steroids <input type="checkbox"/> Cancer chemotherapy <input type="checkbox"/> Other immunosuppressive therapy ( <i>specify</i> ) _____  <input type="checkbox"/> <b>Excessive alcohol use</b> <input type="checkbox"/> <b>Injection drug use, e.g., heroin</b> <input type="checkbox"/> <b>Medications that suppress stomach acid (e.g., Maalox, Zantac, Prilosec, Nexium)</b> ( <i>specify medications, if available</i> ): _____  <i>*Note that some regulations in some states do not permit reporting of HIV status</i>
---	--	---

**Was patient or surrogate able to be interviewed?**     Yes     No

**If no, why not?**     Refused     Unable to reach     Language barrier     Other (*specify*) \_\_\_\_\_

**If you are not able to interview the patient or surrogate and no food exposure information is available, please submit only pages 3–5 of this form to CDC.**  
 (Please also include page 6 if you are able to record symptoms associated with listeriosis)

**Please send completed forms to:**  
**Enteric Diseases Epidemiology Branch, Centers for Disease Control and Prevention**  
**Mailstop C-09**  
**Atlanta, GA 30329.**  
**Fax: (404) 639-2205; Email: Listeria@cdc.gov.**

<b>1. Patient Interview</b>			
Interviewer: In the question stems and interviewee instructions, the text "<case>" is used in place of "you/he/she," and "<case's>" is used in place of "your/his/her." For pregnancy-associated cases, the mother is the case-patient and she should be asked about her food history during the 4 weeks before delivery.			
<b>1. Date of interview</b> ____/____/____	<b>2. Respondent was</b> <input type="checkbox"/> Case-patient <input type="checkbox"/> Surrogate <input type="checkbox"/> Unknown <input type="checkbox"/> None available (chart review only) <i>If surrogate, relationship to patient:</i> <input type="checkbox"/> Parent <input type="checkbox"/> Child <input type="checkbox"/> Sibling <input type="checkbox"/> Spouse <input type="checkbox"/> Other, Specify _____		
<b>3. When did &lt;case's&gt; illness begin?</b> (Onset of illness) ____/____/____ <input type="checkbox"/> Not applicable (e.g. pregnant woman without clinical illness)			
<b>4. During the 4 weeks before &lt;case's&gt; illness/delivery date, was &lt;case&gt; admitted to a hospital</b> (i.e., stayed at least overnight)? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> DK <i>If yes, Hospital name</i> _____ <b>Admission date:</b> ____/____/____ <b>Discharge date:</b> ____/____/____ or <input type="checkbox"/> Still hospitalized		<b>5. During the 4 weeks before &lt;case's&gt; illness/delivery date, was &lt;case&gt; a resident in a nursing home or other long term care facility?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> DK <i>If yes, Facility name</i> _____ <b>Admission date:</b> ____/____/____ <b>Discharge date:</b> ____/____/____ or <input type="checkbox"/> Still residing in facility	
<b>6. During the 4 weeks before &lt;case's&gt; illness/delivery date, did &lt;case&gt; travel to a state outside of &lt;case's&gt; state of residence?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> DK <i>If yes, please list states visited</i> _____		<b>7.
