Emphasis will be on advanced event assessment, strategic planning, defusings and critical incident stress debriefings (CISD) in complex situations. This course is designed for EAP, human resources and public safety personnel, mental health professionals, chaplains, emergency medical services providers, firefighters, physicians, police officers, nurses, dispatchers, airline personnel and disaster workers who are already trained in the critical incident stress debriefing format. It will also be useful for those working extensively with traumatized victims for various walks of life. ICISF's "Group Crisis Intervention" should be viewed as a prerequisite.
