

## EDUCATION AND TRAINING

---

1. **Where is the best reference and training material for National Healthcare Safety Network (NHSN)?** There are a number of states providing information on NHSN training but the NHSN training site should be your first site <http://www.cdc.gov/nhsn/training.html>
2. **What is the Texas Department of State Health Services (DSHS) doing about prevention of Health Care-Associated Infections (HAI)?** DSHS is working with public and private health care providers to increase awareness, implement reporting, and prevention activities for HAIs. A large portion of the prevention efforts include internal and external collaboration between different health care facilities. DSHS has currently awarded a contract to work with multiple facilities around the state to determine the effectiveness of prevention collaborative efforts.
3. **How do I learn more about the Texas Health Care Safety Network (TxHNSN)?** Below are links to 4 training presentations that will help facility users navigate in TxHNSN.
