TEXAS RADIATION ADVISORY BOARD

Program Report for the Railroad Commission of Texas September 2014

1. Railroad Commission staff continues to work with the Department of State Health Services, Radiation Policy, Standards and Quality Assurance Group on its draft amendments to §289.259, relating to Exemptions, General Licenses, and Licensing of Naturally Occurring radioactive Material (NORM) and Technologically Enhanced Naturally Occurring Radioactive Material (TENORM). Amendments to Railroad Commission rules, and coordination with DSHS rulemaking, will be necessary.
