Re: Comments on the Department of State Health Services (DSHS)
Legislative Appropriations Request (LAR)

The Texas Radiation Advisory Board has made a recommendation to the State Classification Officer to create a Health Physicist Classification. Please see attached letter.

Because creation of this classification will impact funding for the Radiation Control operations within the Department of State Health Services (DSHS), on behalf of the board, I am submitting this for consideration in the Legislative Appropriation Request for DSHS.

Thank you for considering this recommendation. Please contact me if you need additional information regarding this recommendation.

Very truly yours,
