### INACTIVE LICENSE STATUS

\_\_\_\_\_ I am a License Professional Counselor and request to put my license on inactive status. I am enclosing a fee of \$50.00 and I understand this status must be renewed every other year. I also understand to go back on active status requires a fee of \$106.00 plus 24 hours of continuing education including 4 hours of ethics and the Jurisprudence exam.

If I am a board approved supervisor I understand that I will not be allowed to supervise while on inactive status. Also, board rule §681.125(g) states: A person previously approved as a supervisor whose supervisor status has expired for 2 or more years or been inactive for 2 or more years and who wishes to resume the supervisor status or active license status may become a supervisor by again completing a board approved 40 hour supervisor course or equivalent.

LPC-Interns will not be approved for inactive status.
