

December 9, 2010

Dear Ms. Guerrero,

On behalf of the Texas Trauma System Consultation Site Visit Team, I would like to acknowledge the error in the last paragraph on page 5 of the Special Report. The statement referring to the total of number of injuries requiring treatment in 2006 refers to national data rather than Texas statewide data. Please see the attached errata sheet, which is intended to replace the erroneous information provided in that paragraph. I apologize for this error and any inconvenience it may have caused.

Please let us know if you have any further questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Christoph R. Kaufmann".

Christoph R. Kaufmann, MD, MPH, FACS
