

General Continuing Medical Education Information

Accreditation Statement

The U.S. Army Medical Command is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The U.S. Army Medical Command designates this educational activity for a maximum of **7 AMA PRA Category 1 Credit(s)™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Statement of Need/Gap Analysis

The purpose of this CME activity is to address the identified gap(s):

* Need to enhance the knowledge and skills of those medical providers providing specialty care for the critically ill and injured patients in all settings whether rural, urban, or suburban.

Learning Objectives

1. Discuss latest Obstetrical care in the pre-hospital setting, to help minimize the complications that can occur.
2. Discuss the standard of care for blood product management in a battlefield resuscitation to help improve patient outcomes.
3. Discuss the latest information on pre-hospital fluid resuscitation in a trauma setting, to help improve patient outcomes.
4. Discuss the current trends in pediatric burn management, to help reduce morbidity and mortality in children.
5. Discuss the affects of trauma on obese patients and how it can affect their outcomes.
6. Discuss the pre-hospital and acute care management of stroke patients, to help minimize the complications and improve outcomes.
7. Discuss the standard of care in Bell County for STEMI management, to prevent complications and improve outcomes.
8. Discuss forensic cases of pediatric abuse patients, to help healthcare providers improve their assessment skills when treating non-accidental trauma patients.

Intended Audience

Surgeons, ER Physicians and residents, Anesthesiology, Radiology, Pathology, Orthopedic surgeons, Trauma Nursing staff and EMS providers.

proudly hosts the

Central Texas Regional Advisory Council **TRAUMA & ACUTE CARE SYMPOSIUM**

March 3, 2010

www.TSA-L.com

OVERVIEW

In every community across the nation there continues to be a need for the ability to provide emergency medical care to acutely injured and ill patients both in the pre-hospital and hospital setting. The principles of modern pre-hospital and hospital management for these patients have driven the need for healthcare providers to seek out additional education and training to take care of such patients.

As the Texas Trauma System continues to evolve, the focus has begun to shift away from a strictly trauma patient focus and has begun to include system development and management of all patients acutely injured and ill. This year's symposium is designed not only to discuss the hot topics in trauma care, but also incorporate the evolving need for Stroke and STEMI care for both the pre-hospital and hospital provider.

The symposium will provide an ideal mix of the traditional standard-of-care principles along with the most up to date treatments and practices taking place across the county.

When: March 3, 2010, 7:30 a.m. - 5:00 p.m.

Where: Club Hood
24th & Wainwright Dr. Bldg. 5764, Fort Hood 76544

Who: This course is valuable for Trauma surgeons and residents, ER physicians and residents, Anesthesiologist, Radiologist, Pathologist, Orthopedist, Trauma Nursing Staff, Emergency Medical Technicians and First Responders
