Past Presentations – Fall 2008

- Sept. 5, 2008 - HIV and Mental Health Issues
- Oct. 3, 2008 - Virtue Ethics in Health Care and Public Health: Who Should Be a Doctor Today?
- Oct. 10, 2008 - Maternal and Child Health on the Border: Findings from the Brownsville-Matamoros Sister City Project
- Oct. 24, 2008 - Emerging Issues in Immunizations
- Oct. 31, 2008 - The Value Added by Child Fatality Review
- Nov. 7, 2008- Where It All Starts: Breastfeeding Promotion in the Hospital Environment
- Nov. 14, 2008 - Gathering Data to Inform Action: The Implementation and Findings from Basic Screening Survey
- Nov. 21, 2008 - Integrated Care: A Body and Mind Approach to Health
- Dec. 5, 2008 - It Takes Two: Involving Males in Family Planning Services
- Dec. 12, 2008 - Data Linkage: A Model Process for Improving, Integrating, and Maximizing Public Health Data Collection and Use

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0502), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

Sept. 5, 2008 - HIV and Mental Health Issues

TRAIN Coursecode: 1014377

Presenters: Nick Curry, MD, MPH, and Emilie Becker, MD

Presentation Objectives:

- * Discuss psychiatric risks in individuals infected with HIV/AIDS.
- * Describe relationship between HIV/AIDS and depression.
- * Recognize signs of depression in a person infected with HIV.
- * Recognize signs of anxiety in a person infected with HIV.
- * Identify substances of abuse commonly found among individuals infected with HIV.
- * Recognize signs of methamphetamine use.
- * Describe MHSA treatment resources in Texas for those infected with HIV.
- * Identify a basic screening tool for identifying risk of mental illness and substance abuse in the HIV clinic.

Continuing Education: 1.5 Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0437), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

October 3, 2008 - Virtue Ethics in Health Care and Public Health: Who Should Be a Doctor Today?

TRAIN Coursecode: 1014709

Presenter: E. Ross Taylor, MD

Presentation Objectives:

- * Participants will be able to describe the Georgetown Model of Medical Ethics.
- * Participants will be able to use the Georgetown Model in discussions with colleagues about ethical issues in medical practice.
- * Participants will discuss the Virtues of a Physician (and other health care providers) as outlined by Edmund Pellegrino.

* Participants will be able to discuss how these virtues affect care.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0438), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

October 10, 2008 - Maternal and Child Health on the Border: Findings from the Brownsville-Matamoros Sister City Project

TRAIN Coursecode: 1014716

Presenters: Brian C. Castrucci, MA; Gita G. Mirchandani, PhD, MPH; Kayan Lewis, PhD; Margaret Vaaler, PhD

Presentation Objectives:

- * Describe a pilot surveillance system to collect binational data across the Texas/Mexico border.
- * Identify differences in adolescent health behaviors between Tamaulipas, Mexico and Cameron County, TX.
- * Identify differences in the use and effectiveness of family planning services and methods between Tamaulipas, Mexico and Cameron County, TX.
- * Identify differences in breastfeeding rates between Tamaulipas, Mexico and Cameron County, TX.
- * Describe differences in policies supporting breastfeeding between the U.S. and Mexico.
- * Describe prevalence and policy differences regarding prenatal HIV testing rates between Tamaulipas, Mexico and Cameron County, TX.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dietitians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0449), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

October 24, 2008 - Emerging Issues in Immunizations

TRAIN Coursecode: 1014985

Presenter: Jack Sims, BA and Sharon Slater, MBA

Presentation Objectives:

- * To discuss recently introduced and upcoming resources available in immunization, including an expanded hepatitis B initiative, new vaccines and recommendations, vaccines in the pipeline, adult safety net vaccine and the new adolescent and adult plan.
- * To discuss the results of a survey conducted in 2008 among Texas parents about the barriers they face to immunization, with special attention to DTaP, and to identify strategies with the potential to address these barriers.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dietitians pending.)

Presentation documents: To request a copy of the slides and handouts, contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *No DVD recording available.*

October 31, 2008 - The Value Added by Child Fatality Review

TRAIN Coursecode: 1015151

Presenters: Brian C. Castrucci, MA, and Susan Rodriguez, BA

Presentation Objectives:

- * Describe the child mortality review process.
- * Identify the value added by CFRT to data available through the death certificate.
- * Describe methods for moving data to action at the state level.
- * Describe the methods for moving data to action at the local level.
- * Identify how CFRT information can be used to prevent child deaths.

Continuing Education: 1.5 Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0460), contact the

DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

November 7, 2008 - Where It All Starts: Breastfeeding Promotion in the Hospital Environment

TRAIN Coursecode: 1014986

Presenters: Brian C. Castrucci, MA; Tracy Erickson

Presentation Objectives:

- * Identify breastfeeding practices of hospitals in most Texas counties.
- * Identify programs already in place to assist hospitals in improving maternity care practices involving breastfeeding support.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dietitians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0462), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

November 14, 2008 - Gathering Data to Inform Action: The Implementation and Findings from Basic Screening Survey

TRAIN Coursecode: 1014987

Presenters: Linda Altenhoff, DDS

Presentation Objectives:

- * Describe national indicators for measuring the oral health status of children.
- * Describe the Basic Screening Survey (BSS) and its implementation in Texas.
- * Describe results from the first two rounds of the Texas BSS.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dietitians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0463), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

November 21, 2008 - Integrated Care: A Body and Mind Approach to Health

TRAIN Coursecode: 1014988

Presenter: Vince Fonseca, MD, MPH

Presentation Objectives:

- * Describe the prevalence and impact of behavioral health issues in primary care.
- * Describe the quality of care provided for common mental health issues.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dietitians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0464), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

December 5, 2008 - It Takes Two: Involving Males in Family Planning Services

TRAIN Coursecode: 1014989

Presenter: Alex Fisher; Amanda Stukenberg

Presentation Objectives:

- * Discuss DSHS' role in implementing family planning services to males.
- * How providing services to males meets DSHS public health goals.
- * Recognize opportunities for collaboration.
- * Describe challenges and successes facing delegate agencies in implementing services.

Continuing Education: 1.5 CE Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance. Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dieticians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0472), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*

December 12, 2008 - Data Linkage: A Model Process for Improving, Integrating, and Maximizing Public Health Data Collection and Use

TRAIN Coursecode: 1014379

Presenter: Melanie Williams, PhD

Presentation Objectives:

- * Define what is meant by the term “data linkage.”
- * Describe common methods of data linkage.
- * Describe conceptually how and why data linkages improve and integrate existing public health data, as well as facilitate their use.
- * Describe specific examples of data linkage within DSHS that have led to improvement, integration, and better use of existing individual data sets.

Continuing Education: 1.5 Credits (CME, CNE, SW, CHES, RS, Certificate of Attendance) Approval for continuing education credits for licensed chemical dependency counselors, licensed professional counselors and registered dieticians pending.)

Presentation documents: To request a copy of the slides, handouts, and to receive a copy of a DVD recording (DV0473), contact the DSHS Audiovisual Library at avlibrary@dshs.state.tx.us. *CE credit is only available for those attending the live event, not the recording.*
