Hot Topics

Our Monday Night Discussion Group

Discusses topics that YGMSM are dealing with.

Addresses whole-man issues (more than sex, more than HIV, but includes how other issues might relate to risk behavior and testing).

Facilitated by CG & coordinators.

Rotating and recent topics include:

- ▶ Marriage Equality
- ▶ Standing up for gay rights in Dallas
- ▶ HIV / AIDS in Dallas and the South
- ▶ Spirituality, religion and homophobia

Safer Sex Materials

There's a message behind the mask.

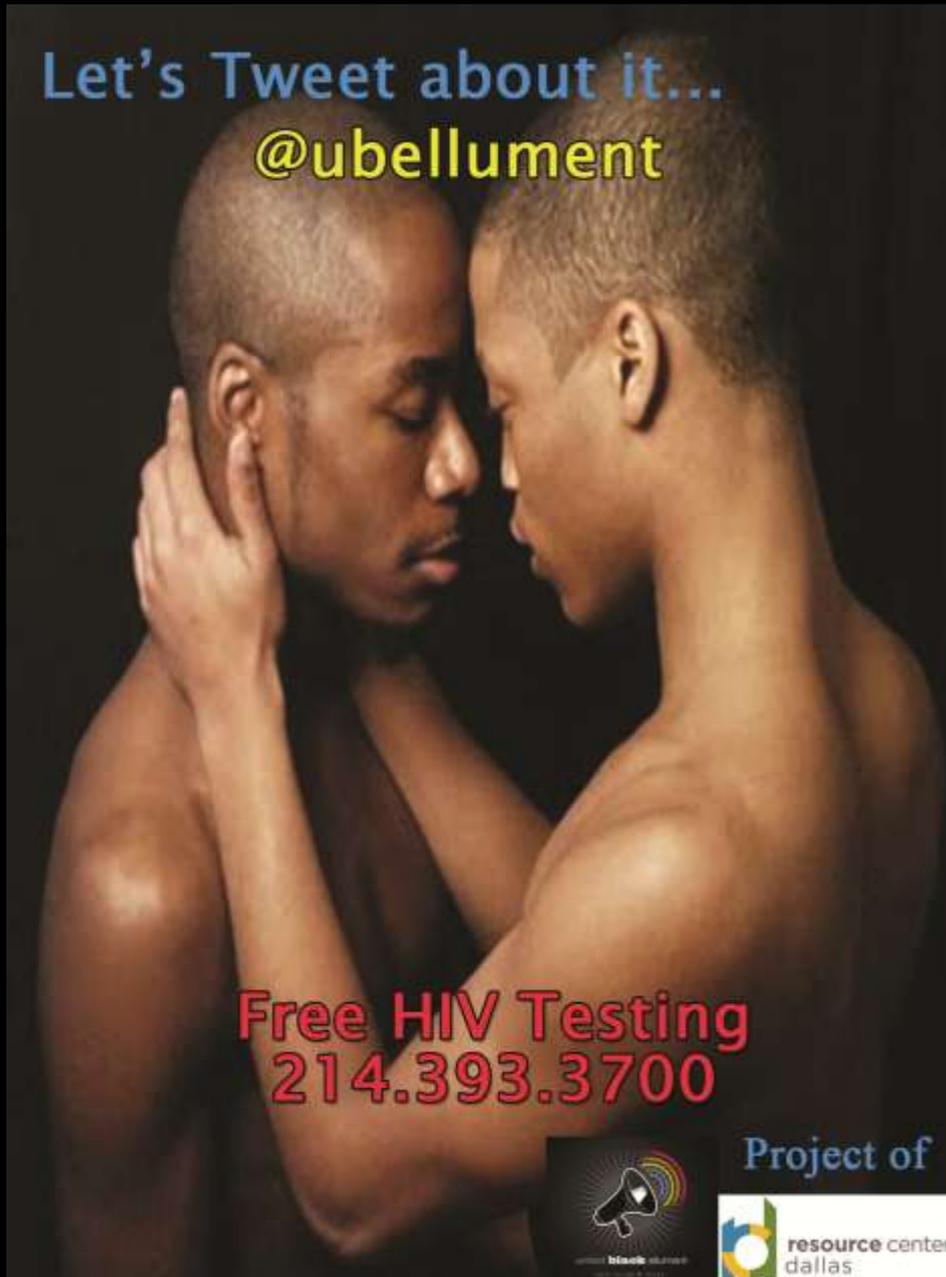

**Unwrap the gift of Knowledge...
Get tested for HIV every 6 months
to be sure you know your status.**

**If you are HIV+ there's many treatment
options that work,
but first you have to know
what's in the box!!**

No Glove, No Love...

Protect yourself...protect your lover...

Before you tap it, wrap it...

In order to defeat it, treat it...

There's a blessing in your testing...

Be the bomb, avoid his cum...

5 excuses for not using a condom

1. Better without condoms

2. It's some time to try out different types of condoms and see which ones feel the best for you. Remember to use the inside of the condom as well.

3. My sexual partner and I are both HIV-negative. How often does infection happen when meeting guys online or just by looking at someone that they're not? What if they don't tell you the truth? How do you know that they're HIV positive?

3. I don't know what else that is fun to do when I don't have a condom.

-There are other safe, hot, and sexy ways to have a good time with your partner without getting fucked or fucking raw.

Suck each other off, finger each other, use toys, eat ass, or even jack-off and nut on each other.

SAFE SEX IS THE BEST SEX!!
