A. Instructions: *Remember to complete the chart and questions that are listed below the chart.* Please specify which group-level evidence based intervention (EBI) you are reporting on and the corresponding priority populations. Enter the objective and goal information negotiated for this contract year into the chart. Use the quarterly report sent to you by DSHS to complete your chart. Include year to date (YTD) data. For example, if your organizations contract is on the calendar year (January-December) your mid-year report is to include data from January through June, and the year-end report is to include January through December data. To have the most current data for your report, ensure your data is updated and exported to DSHS by the 20th of each month. Data entered after this deadline will be considered late and will not be processed until the next quarters report. **DSHS Data is the official data on record**
