

Texas Department of State Health Services – Fight HIV Campaign
:60 Radio
“The Hardest Thing” (2008)

MAN: The hardest thing, sometimes, is just being the kind of man who does what’s right for himself. I’ve hooked up. So that’s why I know I gotta get tested for H-I-V. It’s really that simple. It’s also why I always keep some protection with me. Because I know where it starts. By taking precautions. By using a condom. And by being a strong man who respects himself. Because I know no matter how the test comes back, I’m gonna live a proud, healthy life. That’s me. I’m keeping my life on track and I’m doin’ it for myself. Because nobody else is gonna do it for me. Ya’ know what I mean?

DJ: If you’ve hooked up, you gotta get tested. Do it for your family, do it for your health. Do it for yourself. You can visit the web at H-I-V TEST dot org or call 2-1-1 toll-free to get all the confidential information about H-I-V testing you need to stay safe. Get the facts. Get tested. Fight H-I-V. This message brought to you by the Texas Department of State Health Services.
