

Immunize your baby at
2, 4, 6 and 12 months.

 These are the times
you'll always want to remember.

Two months, four months, six months and twelve months.
These are the times to immunize your child against dangerous
diseases. These are the times you *will* want to forget.

**IMMUNIZE YOUR LITTLE
TEXAS BY TWO**
PROGRAM

To be sure your child's immunizations are up-to-date, ask
your doctor. To find out where to get your baby's shots or to
learn more, call 1-800-252-9152.
