However, 4 doses meet the requirement if the 4 th dose was received on or after the 4 th birthday. For students aged 7 years and older, 3 doses meet the requirement if 1 dose was received on or after the 4 th birthday. For 7 th grade: 1 dose of Tdap is required if at least 5 years have passed since the last dose of tetanus-containing vaccine. For 8 th – 12 th grade: 1 dose of Tdap is required when 10 years have passed since the last dose of tetanus-containing vaccine. Td is acceptable in place of Tdap if a medical contraindication to pertussis exists.
Polio ¹	4 doses or 3 doses			For K – 12 th grade: 4 doses of polio; 1 dose must be received on or after the 4 th birthday. However, 3 doses meet the requirement if the 3 rd dose was received on or after the 4 th birthday.

² Serologic evidence of infection or serologic confirmation of immunity to measles, mumps, rubella, hepatitis B, hepatitis A, or varicella is acceptable in place of vaccine.

³ Previous illness may be documented with a written statement from a physician, school nurse, or the child's parent or guardian containing wording such as: "This is to verify that (name of student) had varicella disease (chickenpox) on or about (date) and does not need varicella vaccine."
