

2010 Texas Childcare Immunization Assessment Compliance Results:

This survey is conducted triennially to assess vaccination coverage levels of children attending a childcare facility and to monitor compliance with new and existing vaccine requirements at licensed child care centers (LCCC) and registered child care homes (RCCH) in Texas. A random sample of childcare facilities is selected for the survey every other year. Local health departments and DSHS staff review a random sample of immunization records from each selected childcare facility. Statewide and regional vaccination coverage levels are available for children ages 19 – 59 months of age attending childcare facilities in Texas.

Individual Vaccination Compliance Levels among Childcare Attendees Aged 19 – 59 Months, Texas and HSR, 2010

Area	DTaP‡	Polio§	MMR	Var††	HepB*	Hib¶	PCV§§	HepA**
Texas	89.9	96.2	94.5	94.2	93.7	82.6	89.0	89.8
