

HOSPITAL DATA DICTIONARY

**Texas Department of State Health Services
EMS/Trauma Registry**

March 1, 2010

TABLE OF CONTENTS

Definitions	ii
2002 Data File Formats	iii

Patient Demographics

Main Fields

(*Shaded fields are required or conditionally required. See page number referenced for clarification)

(Body Region) Injury Severity	18
(Body Region) Type of Injury	18
Abbreviated Injury Scale	17
Alcohol Level	8
Alcohol Level Tested	8
Billed Hospital Charges	20
Cause of Injury	4
City of Residence	30
Condition on Discharge	14
County of Injury	4
County of Residence	5
Date of Arrival	7
Date of Arrival to First Hospital	28
Date of Birth	3
Date of Departure from First Hospital	29
Date of Discharge or Death	15
Date of Injury	3
Diagnoses	17
Diastolic Blood Pressure	8
Eye Opening Response	11
Eye Opening Response at Scene	23
Facility Number	2
First Hospital Number	27
Glasgow Coma Score at Admission	11
Glasgow Coma Score at Scene	23
Glasgow Coma Score for Revised Trauma Score	12
ICU Length of Stay	16
Injury Severity Score	18
Length of Stay	16
Medical Record Number	2
Motor Response	10
Motor Response at Scene	22
Patient Discharged To	14
Patient Discharged to Facility Number	16
Patient's First Name	1
Patient's Last Name	1
Patient's Middle Initial	1
Patient's Social Security Number	1
Payor Category	19
Place of Injury	5
Pre-existing Conditions	17
Procedures	17
Protective Device	26
Pulse	9
Race	2
Respiration Rate	9

Respiratory Rate for Trauma Score	12
Revised Trauma Score	13
Sex	2
Software Identification	31
Systolic Blood Pressure	8
Systolic Blood Pressure at Scene	21
Systolic Blood Pressure for Trauma Score	12
TDH Firm Number (EMS ID#)	24
Time of Arrival	7
Time of Arrival to First Hospital	28
Time of Departure from First Hospital	29
Time of Discharge or Death	15
Time of Dispatch	24
Time of Injury	4
Time of Leaving The Scene	25
Time of Scene Arrival	25
Time of Trauma Team Activation	30
Total Reimbursement	20
Transfer Status (Is This a Transfer?)	27
Trauma Registry Number	1
Trauma Team Activation	30
Vehicle Extrication	26
Verbal Response	10
Verbal Response at Scene	22

Research Fields	32
------------------------	----

Desired Fields	33
-----------------------	----

Appendices

Appendix A -Hospitals – see ID Numbers	web
Appendix B - EMS Providers -see ID Numbers	web
Appendix C - County Code List.....	47
Appendix D - City/County Code List.....	48
Appendix E - Glasgow Coma Score Chart.....	60
Appendix F - Diagnosis 1-5 (ICD9CM Coding Scheme).....	61
Appendix G - Glossary.....	63
Appendix H - Data File Creation and Transfer Specifications.....	64
Appendix I - Software ID Codes	65

Definitions

Vendor Software Application

The Hospital Data Dictionary describes the format of files electronically transmitted to the Texas Department of State Health Services EMS/Trauma Registry. Trauma registry software does not have to list fields or values in the same order as presented in the data dictionary for the purpose of data entry, as long as the data file sent to the state is in the correct format.

Injury Website

The Injury website can be found by using an Internet browser to access <http://www.dshs.state.tx.us/injury>. The EMS/Trauma Registry hyperlink on this main page includes hospital/EMS/county/software codes, participations reports, hospital and EMS Trauma Registry Guidelines.

Data Field Number

The position of each field within the record. The order in which the field should appear within the record relative to other fields in the record contained in the data file to be transmitted to the EMS/Trauma Registry.

Data Field Name

The name of the field in the database.

Required/Optional

Defines whether or not entering/assigning a value to the field is required. “Required” means that a valid value MUST be entered/assigned. “Required – Conditional” means that a valid value MUST be entered/assigned if the defined conditions are true. “Optional” means data entry is at the discretion of each individual hospital. “Do Not Report” means that data should not be entered because the EMS/Trauma Registry no longer uses the data. If your software automatically inserts data into these fields, it will be ignored. The “Do Not Report” fields were left in the data dictionary so that no one would have to drastically alter their current data submission software. Any data fields not containing data must still be delimited with a tab (see **2002 Data File Formats**).

Max. Length of Field, Type of Field, and Value Range

These describe the formatting requirements of the field.

DEFN

The definition of the field.

Values

These are the acceptable values that can be electronically transmitted to the EMS/Trauma Registry. The typical format is:

[value or value range] = [definition of value or value range]

Definitions of values and terms are supplied where appropriate but should NOT be transmitted to the EMS/Trauma Registry.

File Format for Electronic Transmission

Before sending your data to the EMS/Trauma Registry, please make sure that the order of the fields for each record in your file is the same as the order described by the Data Field Number. The Texas EMS/Trauma Registry computer accepts only ASCII data delimited with TABS. There should be a TAB after each field, the only exception being the last field of a record. More information concerning file format can be found in the next section called **2002 Data File Formats**.

2002 Data File Formats

Due to recent legislation, and the Texas Department of Health TRAC-IT initiative, the Texas EMS/Trauma Registry (herein referred to as The Registry) will make some exciting changes. New hospital and EMS data sets will be effective starting January 2002. It will be more important than ever to send your data files containing the data sets in the correct format.

All data files that are sent to The Registry must be in ASCII tab-delimited format. A tab must follow every field except the last field of each record. Even if there is no data recorded for a particular field, or the field is optional, a tab must still be placed in that field's position. A new line feed and carriage return must follow every record, after the last field of each record, except for the last record of the file. The first line of the data file must contain the first record to be transmitted and the last line of the data file must contain the last record to be transmitted. The order of the records in the data file has no effect on how they are processed.

Warning: Opening and saving a data file with text editors (MS Word, WordPad, WordPerfect) can corrupt the data file with special codes inserted by the text editor.

There are three different record lengths that may be sent for each data set. These three lengths correspond to the major sections of the new data sets. The hospital and EMS data sets are both divided into three major sections: Main Fields, Research Fields, and Desired Fields.

Main Fields is not the formal name of the first section as presented in each data dictionary but that is how the first section of fields will be referred to in this explanation. The Main Fields section contains the minimum standard data set that everyone is required to send to The Registry. A file sent in the Main Format must contain all of the fields in the Main Fields section of the appropriate data set.

The Research Fields section contains fields that are all optional. A file sent in the Research Format must contain all of the fields in the Main Fields section of the appropriate data set as well as ALL nine fields of the Research Fields section.

The Desired Fields section contains fields that are all optional and include audit/QI filters typically used by hospitals and EMS. A file sent in the Desired Format must contain all of the fields in the Main Fields section of the appropriate data set, all nine fields of the Research Fields section, AND all of the fields of the Desired Fields section.

In simple English, if you only wish to meet State requirements, you must send a data file with all of the fields listed in the Main Fields section of each data set. If you wish to send data which includes any of the Research Fields, you must send all of the Main Fields and all of the Research Fields, even if you did not use all of them. If you send data which includes any of the Desired Fields, your data file must include all of the fields from all three sections. Following is a chart which diagrams the number of fields per record you must have in each line of the data file based on the format you are using.

	Main Format	Research Format	Desired Format
	Main Fields	Main + Research Fields	Main + Research + Desired Fields
Hospital	121	130	182
EMS	106	115	136

TRAUMA REGISTRY NUMBER

Data Field Number: 1
 Data Field Name: TRNO
 Required/Optional: **Required**
 Max. Length of Field: 7
 Type of Field: Numerical
 Value Range: 1 - 9999999

DEFN	Sequential unique number assigned by the registry software program or registrar.
-------------	---

PATIENT'S LAST NAME

Data Field Number: 2
 Data Field Name: LNAME
 Required/Optional: Optional
 Max. Length of Field: 20
 Type of Field: Character
 Value Range: None

DEFN	The patient's legal last name.
-------------	---------------------------------------

PATIENT'S FIRST NAME

Data Field Number: 3
 Data Field Name: FNAME
 Required/Optional: Optional
 Max. Length of Field: 20
 Type of Field: Character
 Value Range: None

DEFN	The patient's legal first name.
-------------	--

PATIENT'S MIDDLE INITIAL

Data Field Number: 4
 Data Field Name: MI
 Required/Optional: Optional
 Max. Length of Field: 1
 Type of Field: Character
 Value Range: None

DEFN	The initial of the patient's legal middle name.
-------------	--

PATIENT'S SOCIAL SECURITY NUMBER

Data Field Number: 5
 Data Field Name: SSN
 Required/Optional: Optional
 Max. Length of Field: 9
 Type of Field: Character
 Value Range: None

DEFN	The patient's social security number.
-------------	--

FACILITY NUMBER

Data Field Number: 6
 Data Field Name: FACILNO
 Required/Optional: **Required**
 Max. Length of Field: 7
 Type of Field: Numeric
 Value Range: 0010001 - 2559999

DEFN	The seven digit numeric code assigned to YOUR hospital.
Values	Facility numbers are assigned by the Texas Department of Health. The list of facility numbers can be found in Appendix A.

MEDICAL RECORD NUMBER

Data Field Number: 7
 Data Field Name: MEDREC
 Required/Optional: Optional
 Max. Length of Field: 15
 Type of Field: Character
 Value Range: None

DEFN	The medical record number of the patient or any number that uniquely identifies the patient.
Values	Can be any value as long as the length does not exceed 15 characters.

RACE

Data Field Number: 8
 Data Field Name: RACE
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-6

DEFN	The patient's race or ethnic group.
Values	1 = White, non-Hispanic 2 = Hispanic 3 = Black 4 = Asian 5 = Native American 6 = Other

SEX

Data Field Number: 9
 Data Field Name: SEX
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2

DEFN	The patient's gender at injury date. If patient is in middle of gender change, use original gender.
Values	1 = Male 2 = Female

DATE OF BIRTH

Data Field Number: 10, 11, 12
 Data Field Name: MMOB, DDOB, YYOB
 Required/Optional: **Required**
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [01-12], [0-31], [1880 – present year]

DEFN	The patient's date of birth. Estimate, if necessary.
Values	<p>Month of Birth (MMOB)</p> <p>01 = January 07 = July 02 = February 08 = August 03 = March 09 = September 04 = April 10 = October 05 = May 11 = November 06 = June 12 = December</p> <p>Day of Birth (DDOB)</p> <p>0 – 31</p> <p>Year of Birth (YYOB)</p> <p>Use four-digit year of birth. For example, if the patient was born in 1980, the value would be 1980.</p>

DATE OF INJURY

Data Field Number: 13, 14, 15
 Data Field Name: MMINJ, DDINJ, YYINJ
 Required/Optional: **Required**
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [01-12, 99], [01-31, 99], [2000-present year, 9999]

DEFN	The date the patient was injured.
Values	<p>Month of Injury (MMINJ)</p> <p>01 = January 07 = July 99 = Unknown 02 = February 08 = August 03 = March 09 = September 04 = April 10 = October 05 = May 11 = November 06 = June 12 = December</p> <p>Day of Injury (DDINJ)</p> <p>0 – 31 99 = Unknown</p> <p>Year of Injury (YYINJ) Use four-digit year of injury. For example, if the patient was injured in 2000, the value would be 2000.</p>

COUNTY OF INJURY

Data Field Number: 16
 Data Field Name: INJCNTY
 Required/Optional: **Required**
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 1-254, 801-858, 899, 999

DEFN	The county in which the patient was injured.
Values	Each county in Texas is assigned a number 1 through 254. A county code is also assigned for each state and some countries. Use 999 for unknown county. See Appendix C for county code list. See Appendix D for Texas city-county list.

CAUSE OF INJURY

Data Field Number: 17
 Data Field Name: INJCAUS
 Required/Optional: **Required**
 Max. Length of Field: 5
 Type of Field: Numeric
 Value Range: 800.0 - 999.9

DEFN	The ICD-9-CM external cause of injury code for the event or circumstance that was most responsible for the principal anatomic injury to the patient. Do not submit the E prefix.
Values	Any valid E-code.

TIME OF INJURY

Data Field Number: 18, 19
 Data Field Name: HRINJ, MININJ
 Required/Optional: **Required**
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23, 99], [00-59, 99]

DEFN	The time of injury to the patient. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Preferable to use EMS documented time. Record 99:99 if time of injury is unknown.
Values	<p>Hour of Injury (HRINJ) Use military time. For example, if the patient was injured at 12:00 a.m., the value would be 00. If the patient was injured at 1:00 p.m., the value would be 13. Record 99 for unknown.</p> <p>Minute of Injury (MININJ) Use military time. For example, if the patient was injured at 12:00 a.m., the value would be 00. If the patient was injured at 4:50 p.m., the value would be 50. Record 99 for unknown.</p>

COUNTY OF RESIDENCE

Data Field Number: 20
 Data Field Name: RESCNTY
 Required/Optional: **Required**
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 1-254, 801-858, 899, 999

DEFN	The county in which the patient resides.
Values	Each county in Texas is assigned a number 1 through 254. A county code is also assigned for each state and some countries. Use 999 for unknown county. See Appendix C for county code list. See Appendix D for Texas city-county list.

PLACE OF INJURY

Data Field Number: 21
 Data Field Name: INJPLCE
 Required/Optional: **Required**
 Max. Length of Field: 5
 Type of Field: Numeric
 Value Range: 849.0-849.9

DEFN	The type of place where the injury occurred. Use ICD-9-CM 849 codes. Do not submit the E prefix.
Values	<p>Use ICD-9-CM E849 place of occurrence codes. For Texas Trauma Registry purposes, additions have been made to some categories. “Retirement community” has been added to Home (849.0). “Any work site” has been added to Industrial place and premises (849.3). “Shelter, protective services, and nursing home” have been added to Residential institution (849.7).</p> <p>849.0 = Home <u>Includes:</u> apartment, boarding house, farm house, home premises, house (residential), non-institutional place of residence, private [driveway, garage, garden, home, walk], swimming pool in private house or garden, yard of home), retirement community <u>Excludes:</u> home under construction but not yet occupied (849.3), institutional place of residence (849.7)</p> <p>849.1 = Farm <u>Includes:</u> buildings, land under cultivation <u>Excludes:</u> farm house and home premises of farm (849.0)</p> <p>849.2 = Mine and quarry <u>Includes:</u> gravel pit, sand pit, tunnel under construction</p> <p>849.3 = Industrial place and premises <u>Includes:</u> building under construction, dockyard, dry dock, factory building or premises, garage (place of work), industrial yard, loading platform (factory or store), industrial plant, railway yard, shop (place of work), warehouse, workhouse, any work site</p> <p>849.4 = Place for recreation and sport <u>Includes:</u> amusement park, baseball field, basketball court, beach resort, cricket ground, fives court, football field, golf course, gymnasium, hockey field, holiday camp, ice palace, lake resort, mountain resort, playground (including school playground), public park, racecourse, resort NOS, riding school, rifle range, seashore resort, skating rink, sports ground, sports palace, stadium, swimming pool (public),</p>

tennis court, vacation resort

Excludes: that in private house or garden (849.0)

849.5 = Street and Highway

849.6 = Public Building

Includes: building (including adjacent grounds) used by the general public or by a particular group of the public, such as: airport, bank, cafe, casino, church, cinema, clubhouse, courthouse, dance hall, garage building (for car storage), hotel, market (grocery or other commodity), movie house, music hall, nightclub, office, office building, opera house, post office, public hall, radio broadcasting station, restaurant, school (state, public, private), shop - commercial, station (bus, railway), store, theater

Excludes: home garage (849.0), industrial building or workplace (849.3)

849.7 = Residential institution

Includes: children's home, dormitory, hospital, jail, old people's home, orphanage, prison, reform school, **shelter, protective services, nursing home**

849.8 = Other specified place

Includes: beach NOS, canal, caravan site NOS, derelict house, desert, dock, forest, harbor, hill, lake NOS, mountain, parking lot, parking place, pond or pool (natural), prairie, public place NOS, railway line, reservoir, river, sea, seashore NOS, stream, swamp, trailer court, woods

849.9 = Unspecified place

DATE OF ARRIVAL

Data Field Number: 22, 23, 24
 Data Field Name: MMARHOSP, DDARHOSP, YYARHOSP
 Required/Optional: **Required**
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [01-12], [01-31], [2000 – present year]

DEFN	The date in which the injured patient arrived at your hospital. Report information even if patient was a direct admission.												
Values	<p>Month of Arrival (MMARHOSP)</p> <table> <tr> <td>01 = January</td> <td>07 = July</td> </tr> <tr> <td>02 = February</td> <td>08 = August</td> </tr> <tr> <td>03 = March</td> <td>09 = September</td> </tr> <tr> <td>04 = April</td> <td>10 = October</td> </tr> <tr> <td>05 = May</td> <td>11 = November</td> </tr> <tr> <td>06 = June</td> <td>12 = December</td> </tr> </table> <p>Day of Arrival (DDARHOSP) 0 – 31</p> <p>Year of Arrival (YYARHOSP) Use four-digit year of arrival. For example, if the patient arrived at your hospital in 2000, the value would be 2000.</p>	01 = January	07 = July	02 = February	08 = August	03 = March	09 = September	04 = April	10 = October	05 = May	11 = November	06 = June	12 = December
01 = January	07 = July												
02 = February	08 = August												
03 = March	09 = September												
04 = April	10 = October												
05 = May	11 = November												
06 = June	12 = December												

TIME OF ARRIVAL

Data Field Number: 25, 26
 Data Field Name: HRARHOSP, MINARHOS
 Required/Optional: **Required**
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23], [00-59]

DEFN	The time of the day the patient arrived at your hospital. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Report information even if patient was a direct admission.
Values	<p>Hour of Arrival (HHARHOSP) 00-23</p> <p>Minute of Arrival (MINARHOS) 00-59</p>

ALCOHOL LEVEL TESTED

Data Field Number: 27
 Data Field Name: ALCTEST
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	ETOH test performed on the patient at YOUR hospital during the initial resuscitation period.
Values	1 = Yes 2 = No 9 = Unknown

ALCOHOL LEVEL (mg/dl)

Data Field Number: 28
 Data Field Name: ALCLEV
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 0-999

DEFN	The blood alcohol concentration (BAC) measured in mg/dl. The BAC should be obtained from ETOH test performed on the patient at YOUR hospital during the initial resuscitation period. If less than lab recognized minimal control, record 0.
	*This field is conditional. Complete only if your hospital performed an ETOH test on the patient during the initial resuscitation period (i.e., if field #27 Alcohol Level Tested is equal to 1- Yes). Leave blank if your hospital did not perform an ETOH test on patient during initial resuscitation period.

SYSTOLIC BLOOD PRESSURE

Data Field Number: 29
 Data Field Name: SBP
 Required/Optional: **Required**
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 000-350

DEFN	The measured systolic blood pressure initially documented upon arrival to your hospital. Report information even if patient was a direct admission.
-------------	--

DIASTOLIC BLOOD PRESSURE

Data Field Number: 30
 Data Field Name: DBP
 Required/Optional: **Do not report; however, for file structure purposes this field should still be delimited with a tab. This field will likely be deleted in the next hospital data set revision.**
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 000-350

RESPIRATION RATE

Data Field Number: 31
 Data Field Name: RR
 Required/Optional: **Required**
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 00-99

DEFN	The FIRST UNASSISTED patient respiratory rate expressed as number per minute assessed upon arrival to your hospital. If patient is apneic prior to intervention in ED, record as 0. Record 99 if unassisted rate is not measurable due to sedation, paralysis or assisted ventilation (including bag-valve-mask and EOA). Do not report ranges. Report information even if patient was a direct admission.
Values	00-98 99 = unassisted rate is not measurable due to sedation, paralysis or assisted ventilation

PULSE

Data Field Number: 32
 Data Field Name: PULS
 Required/Optional: **Required**
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 000-300

DEFN	Palpable pulse initially assessed upon arrival to your hospital. Report information even if patient was a direct admission.
-------------	--

MOTOR RESPONSE

Data Field Number: 33
 Data Field Name: MOTOR
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-6, 9

DEFN	Determines the patient's ability to follow commands. Enter the patient's initial best assessment upon arrival to your hospital. An appropriate response for a quadriplegic may be shrugging shoulders. This component cannot be assessed if the patient has received a muscle relaxant or paralytic agent. Refer to Appendix E for a detailed list of the Glasgow Coma Score's components. Report information even if patient was a direct admission.
Values	1 = No Response 2 = Extension (decerebrate) 3 = Flexion- abnormal (decorticate) 4 = Flexion- withdrawal 5 = Localizes Pain 6 = Obeys commands with appropriate motor response 9 = Not available / cannot be accurately assessed

VERBAL RESPONSE

Data Field Number: 34
 Data Field Name: VERBAL
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-5, 9

DEFN	Assesses verbal response. Enter the patient's initial best assessment upon arrival to your hospital. If the patient is intubated and comatose, enter 1 for None, because the patient had no verbal response at the time of intubation. If an intubated patient can respond appropriately, the practitioner may gauge the responses and assign a 1 (none) or 5 (oriented). If the practitioner cannot gauge the response, enter 9. Refer to Appendix E for a detailed list of the Glasgow Coma Score's components. Report information even if patient was a direct admission.
Values	1 = No Response 2 = Incomprehensible Sounds 3 = Inappropriate Words 4 = Disoriented and converses 5 = Oriented and converses 9 = Not available

EYE OPENING RESPONSE

Data Field Number: 35
 Data Field Name: EYE
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-4, 9

DEFN	Assesses eye opening response. Enter the patient's initial best assessment upon arrival to your hospital. Refer to Appendix E for a detailed list of the Glasgow Coma Score's components. Report information even if patient was a direct admission.
Values	1 = No response 2 = To pain 3 = To verbal command 4 = Spontaneously 9 = Not available

GLASGOW COMA SCORE AT ADMISSION

Data Field Number: 36
 Data Field Name: GCSADM
 Required/Optional: **Required**
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 3-15, 99

DEFN	The sum of the three scores of the patient's Glasgow Coma Scale components (MOTOR + VERBAL + EYE) upon arrival to your hospital. If any of these components are NOT available, use 99 to indicate that a complete assessment of all three areas was not available.
Values	3-15 99 = Not available

GLASGOW COMA SCORE FOR REVISED TRAUMA SCORE

Data Field Number: 37
 Data Field Name: GCSTS
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-4, 9

DEFN	Apply the Glasgow Coma Score to the following scale. For example, if the Glasgow Coma Score is 12, the value will be 3.
Values	0 = 0-3 1 = 4-5 2 = 6-8 3 = 9-12 4 = 13-15 9 = Unknown

RESPIRATORY RATE FOR TRAUMA SCORE

Data Field Number: 38
 Data Field Name: RRTS
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-4, 9

DEFN	Apply the respiration rate to the following scale. For example, if the respiration rate is 20, the value is 4.
Values	0 = 0 1 = 1-5 2 = 6-9 3 = >29 4 = 10-29 9 = Unknown

SYSTOLIC BLOOD PRESSURE FOR TRAUMA SCORE

Data Field Number: 39
 Data Field Name: SBPTS
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-4, 9

DEFN	Apply the systolic blood pressure value to the following scale. For example, if the systolic blood pressure is 100, the value is 4.
Values	0 = 0 1 = 1-49 2 = 50-75 3 = 76-89 4 = >89 9 = Unknown

REVISED TRAUMA SCORE

Data Field Number: 40
Data Field Name: REVTS
Required/Optional: **Required**
Max. Length of Field: 2
Type of Field: Numeric
Value Range: 00-12, 99

DEFN	Add the values for the GCSTS, RRTS, and SBPTS. Fill in 99 if any of the above scores was a 9.
-------------	--

PATIENT DISCHARGED TO

Data Field Number: 41
 Data Field Name: DISTIN
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-9

DEFN	The place to which the patient was released when discharged from YOUR hospital.
Values	<p>1 = Home Patient's own home or significant other's home. Can include apartment, boarding house, farm house, home premises, house (residential), non-institutional place of residence, or retirement community.</p> <p>2 = Acute care facility</p> <p>3 = Rehabilitation facility Transferred to a licensed rehabilitation facility</p> <p>4 = Nursing home / SNF / ICF Skilled nursing facility or intermediate care facility. (Includes transfer to a SNF for rehabilitation purposes).</p> <p>5 = Residential facility children's home, dormitory, hospice, jail, old people's home, orphanage, prison, reform school, shelter, protective services, psychiatric hospital, foster care</p> <p>6 = Left AMA/ Eloped (Left prior to medical discharge)</p> <p>7 = Other</p> <p>8 = Morgue/funeral home</p> <p>9 = Unknown destination</p>

CONDITION ON DISCHARGE

Data Field Number: 42
 Data Field Name: COND
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-5, 9

DEFN	The patient's overall condition on discharge from YOUR hospital. If patient is transferred to another acute care facility, code as a 9.
Values	<p>1 = Alive, Expected Full Recovery: Patient discharged with physical and mental capabilities intact, consistent with the pre-injury state.</p> <p>2 = Alive, Expected Moderate Recovery: Patient discharged with some degree of physical or mental disability that is the result of the injury event. The disability may be temporary.</p> <p>3 = Alive, Expected Severe Disability: Patient discharged with severe or incapacitating physical or mental impairment that was not present in the pre-injury state.</p> <p>4 = This code is no longer used</p> <p>5 = Dead</p> <p>9 = Transferred to another acute care facility</p>

DATE OF DISCHARGE OR DEATH

Data Field Number: 43, 44, 45
 Data Field Name: MMOD, DDOD, YYOD
 Required/Optional: **Required**
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [01-12], [01-31], [2000 – present year]

DEFN	The date the patient was either discharged from YOUR hospital or pronounced dead or brain-dead at YOUR hospital.
Values	<p>Month of Discharge or Death (MMOD) 01 = January 07 = July 02 = February 08 = August 03 = March 09 = September 04 = April 10 = October 05 = May 11 = November 06 = June 12 = December</p> <p>Day of Discharge or Death (DDOD) 01-31</p> <p>Year of Discharge or Death (YYOD) Use four-digit year of discharge or death. For example, if the patient was discharged or died in 2000, the value would be 2000.</p>

TIME OF DISCHARGE OR DEATH

Data Field Number: 46, 47
 Date Field Name: HROD, MINOD
 Required/Optional: **Required**
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23], [00-59]

DEFN	The time the patient was either discharged from YOUR hospital or pronounced dead or brain-dead at YOUR hospital. Obtain time from nurse's notes.
Values	<p>Hour of Discharge or Death (HHOD) Use military time. For example, if the patient was discharged or pronounced dead at 12:00 a.m., the value would be 00. If the patient was discharged or pronounced dead at 7:00 p.m., the value would be 19.</p> <p>Minute of Discharge or Death (MMOD) Use military time. For example, if the patient was discharged or pronounced dead at 4:50 p.m., the value would be 50.</p>

PATIENT DISCHARGED TO FACILITY NUMBER

Data Field Number: 48
 Data Field Name: DISFAC
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 7
 Type of Field: Numeric
 Value Range: 0010001-2549999, 8010000-8990000, 9999999

DEFN	The seven digit numeric code assigned to the facility to which your hospital transferred the patient.
Values	<p>Facility numbers are assigned by the Texas Department of Health. The list of facility numbers can be found in Appendix A.</p> <p>*This field is conditional. Complete only if patient was discharged to another acute care facility or a rehabilitation facility (i.e., if field #41 Patient Discharged To is equal to 2 – acute care facility or 3 – rehabilitation facility). Leave blank if patient was not discharged to another acute care facility or rehabilitation facility. Note: Some rehabilitation facilities do not have an assigned facility number at this time.</p>

LENGTH OF STAY

Data Field Number: 49
 Data Field Name: STAY
 Required/Optional: Optional
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 000-999

DEFN	The total number of days the patient spent in the hospital, calculated by subtracting the date of admission from the date of discharge. If a patient is admitted and discharged on the same date (including observation hours less than 24), the LOS is 1 day. If a patient is admitted one day and discharged the next day, the LOS is 1 day.
-------------	---

ICU LENGTH OF STAY

Data Field Number: 50
 Data Field Name: ICUSTAY
 Required/Optional: Optional
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 000-999

DEFN	The total number of days the patient spent in the ICU. Any part of a 24-hour period should be counted as 1 day. For patients with more than one ICU stay during a single hospital admission, enter the cumulative number of ICU days (e.g., a 1.5 day stay and 2.75 day stay count as 5 total ICU days).
-------------	---

DIAGNOSIS 1, DIAGNOSIS 2, DIAGNOSIS 3, DIAGNOSIS 4, DIAGNOSIS 5

Data Field Number: 51, 52, 53, 54, 55
 Data Field Name: DX1, DX2, DX3, DX4, DX5
 Required/Optional: **Required**
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 800.0-959.9

DEFN	The ICD-9 code for the MOST SEVERE (SECOND, THIRD, FOURTH, and FIFTH MOST SEVERE) injury diagnosis for the trauma patient. Severity is based on AIS scores. Exception for Diagnosis 4 and/or Diagnosis 5: if a traumatic brain injury and/or a spinal cord injury has occurred but is not considered one of the most five severe injuries, record these injuries in Diagnosis 4 and/or Diagnosis 5. See Appendix F for details.
-------------	--

ABBREVIATED INJURY SCALE FOR INJURY 1-5

Data Field Number: 56, 57, 58, 59, 60
 Data Field Name: AIS1, AIS2, AIS3, AIS4, AIS5
 Required/Optional: Optional
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-6, 9

DEFN	The Abbreviated Injury Score (AIS) numeric classification of the severity of the patient's injuries listed in DX1- DX5. Assign an AIS only for ICD 9 codes > 800 and <= 959.9. Use AIS90.
-------------	--

PROCEDURES 1-5

Data Field Number: 61, 62, 63, 64, 65
 Data Field Name: PROC1, PROC2, PROC3, PROC4, PROC5
 Required/Optional: Optional
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 01.00 – 99.99

DEFN	The ICD 9 procedure code listed in the ICD 9 CM coding manual for each procedure that your hospital performed on the patient.
-------------	--

PRE-EXISTING CONDITIONS 1-5

Data Field Number: 66, 67, 68, 69, 70
 Data Field Name: PREX1, PREX2, PREX3, PREX4, PREX5
 Required/Optional: Optional
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 800.0-959.9, V01.0-V82.9

DEFN	The pre-existing conditions the patient had prior to injury. Use ICD-9 codes (including V codes).
-------------	--

INJURY SEVERITY SCORE

Data Field Number: 71
 Data Field Name: ISS
 Required/Optional: **Required**
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 00-75, 99

DEFN	The sum of squares of the three highest AIS scores from the three most severely injured body regions.
Values	00-75 99 = Unknown

- **Note: The following 16 fields (INTRACRI through SKINS) are no longer required; however, for file structure purposes each of these fields should still be delimited with a tab. These fields will likely be deleted in the next hospital data set revision.**

(BODY REGION) INJURY SEVERITY

Data Field Number: 72, 73, 74, 75, 76, 77, 78, 79
 Data Field Name: INTRACRI, HDNKI, SPINEI, CHESTI, ABDOMI, PELVI, EXTRI, SKINI
 Required/Optional: **Do Not Report. See Note***
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-3, 9

(BODY REGION) TYPE OF SURGERY

Data Field Number: 80, 81, 82, 83, 84, 85, 86, 87
 Data Field Name: INTRACRS, HDNKS, SPINES, CHESTS, ABDOMS, PELVS, EXTRS, SKINS
 Required/Optional: **Do Not Report. See Note***
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 0-2, 9

PAYOR CATEGORY

Data Field Number: 88
 Data Field Name: PAYOR
 Required/Optional: **Required**
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 01-10, 99

DEFN	Indicates primary source of payment to this hospital for the visit.
Values	<p>01 = Medicaid Includes any trauma patient receiving federal/state funding of their inpatient medical bills under Title XIX of the Social Security Act. This will generally involve patients who are recipients of Aid to Families with Dependent Children or Social Security Income, pregnant women and children below the Federal poverty level (FPL), as well as certain aged, blind, disabled, and institutionalized persons below the FPL, and other medically needy persons. Dual eligibles, that is those patients who receive both Medicare and Medicaid support should be coded as Medicare since Medicaid contributions to the hospital bill for dual eligibles are most often supplementary to the primary payer, Medicare. Individuals covered under Medicaid 1115 or similar plans whose hospital care is paid for via public Medicaid funds yet overseen by a commercial managed care organization, should be coded as Medicaid and not managed care organization patients.</p> <p>02 = Medicare Includes any trauma patient receiving federal funding of their inpatient medical bills under Title XVIII of the Social Security Act. This will generally involve patients 65 or more years of age, patients entitled to disability benefits for 24 months or more, end-stage renal disease patients, and certain otherwise non-covered persons who elect to buy into the program. Dual eligibles, that is those patients who receive both Medicare and Medicaid support should be coded as Medicare since Medicaid contributions to the hospital bill for dual eligibles are most often supplementary to the primary payer, Medicare. Individuals covered under Medicare coordinated plans whose hospital care is paid for via public Medicare funds yet overseen by a commercial managed care organization, should be coded as Medicare and not managed care organization patients.</p> <p>03 = Blue Cross/ Blue Shield/Commercial Insurance Blue Cross/Blue Shield includes state or regional Blue Cross, Blue Shield, or Blue Cross/Blue Shield (BCBS) indemnity plans. These can fall under the guise of a state medical society, a prominent institution or a large regional employer and, as such, the BCBS indemnity plan may assume a hybrid title with the sponsoring institution. Other commercial plans include any commercial health insurance plan that does not enroll physicians as part of a network or require that its physicians obtain authorization prior to hospitalization of non-emergent patients. Such plans include fee-for-service coverage and managed indemnity organizations (these organizations may require that their physicians obtain authorization prior to hospitalization of non-emergent patients, although they are not classified as managed care organizations because they do not enroll physicians as part of a network).</p> <p>04 = Champus The civilian Health and Medical Program for the Uniformed Services is a federal health insurance program for dependents of active and retired members of the uniformed services. Individuals enrolled in a CHAMPUS Prime or similar plan whose hospital care is paid for by CHAMPUS yet overseen by a commercial managed care organization, should be coded as CHAMPUS and not managed care organization patients.</p> <p>05 = Government subsidized programs</p> <p>06 = HMO / PPO / POS Commercial health indemnity plans whose physicians are part of an integrated network and must obtain authorization prior to hospitalization of non-emergency patients. Such plans include health maintenance organizations, preferred provider</p>

	<p>organizations, point-of-service organizations, independent practice organizations, and exclusive provider organizations.</p> <p>07 = Worker’s Compensation Includes any primary source of hospital payment via a worker’s compensation program for individuals suffering on-the-job injuries.</p> <p>08 = Automobile Insurance Includes any reimbursement of hospital medical bills by a commercial automobile insurance program resulting from injuries suffered during a motor vehicle crash.</p> <p>09 = Self-pay Includes cases where the patient is listed as the primary source of payment for their own medical care. This classification applies whether or not payment was actually obtained by the billing institution or clinician.</p> <p>10 = Other This includes any other payment source not previously classified (Example: Shriners, Victims of Crime, etc.)</p> <p>99 = Unknown The principal payment source is not known.</p> <p>Source: National Trauma Data Bank Data Dictionary (American College of Surgeons)</p>
--	--

BILLED HOSPITAL CHARGES

Data Field Number: 89
 Data Field Name: BILL
 Required/Optional: **Required**
 Max. Length of Field: 7
 Type of Field: Numeric
 Value Range: 0000000-9999999

DEFN	The total hospital charges incurred by patient at the time of discharge, rounded to the nearest dollar.
-------------	--

TOTAL REIMBURSEMENT

Data Field Number: 90
 Data Field Name: REIMB
 Required/Optional: Optional
 Max. Length of Field: 7
 Type of Field: Numeric
 Value Range: 0000000-9999999

DEFN	The total amount, rounded to the nearest dollar, received by the hospital for services from any payor source up to no more than six months post-discharge.
-------------	---

RESPIRATORY RATE AT SCENE

Data Field Number: 91
 Data Field Name: SCNRR
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 0-99

DEFN	The FIRST UNASSISTED patient respiratory rate expressed as number per minute initially documented by EMS providers. If patient is apneic prior to intervention, record as 0. Record 99 if unassisted rate is not measurable due to sedation, paralysis or assisted ventilation (including bag-valve-mask and EOA). Do not report ranges.
Values	00-98 99 = unassisted rate is not measurable due to sedation, paralysis or assisted ventilation *This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment. (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.

SYSTOLIC BLOOD PRESSURE AT SCENE

Data Field Number: 92
 Data Field Name: SCNSBP
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 3
 Type of Field: Numeric
 Value Range: 0-350, 999

DEFN	The measured systolic blood pressure initially documented by EMS providers.
Values	0-350 999 = Unknown *This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.

MOTOR RESPONSE AT SCENE

Data Field Number: 93
 Data Field Name: MOTOR1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-6, 9

DEFN	Determines the patient’s ability to follow commands. Enter the patient’s initial best assessment initially documented by EMS providers. An appropriate response for a quadriplegic may be shrugging shoulders. This component cannot be assessed if the patient has received a muscle relaxant or paralytic agent. Refer to Appendix E for a detailed list of the Glasgow Coma Score’s components.
Values	<p>1 = No Response 2 = Extension (decerebrate) 3 = Flexion- abnormal (decorticate) 4 = Flexion- withdrawal 5 = Localizes Pain 6 = Obeys commands with appropriate motor response 9 = Not available / cannot be accurately assessed</p> <p>*This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

VERBAL RESPONSE AT SCENE

Data Field Number: 94
 Data Field Name: VERBAL1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-5, 9

DEFN	Assesses verbal response. Enter the patient’s initial best assessment initially documented by EMS providers. If the patient is intubated and deeply comatose, enter 1 for None, because the patient had no verbal response at the time of intubation. If an intubated patient can respond appropriately, the EMS provider may gauge the responses and assign a 1 (none) or 5 (oriented). If the EMS provider cannot gauge the response, enter 9. Refer to Appendix E for a detailed list of the Glasgow Coma Score’s components.
Values	<p>1 = No Response 2 = Incomprehensible Sounds 3 = Inappropriate Words 4 = Disoriented and converses 5 = Oriented and converses 9 = Not available</p> <p>*This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

EYE OPENING RESPONSE AT SCENE

Data Field Number: 95
 Data Field Name: EYE1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-4, 9

DEFN	Assesses eye opening response. Enter the patient's initial best assessment initially documented by EMS providers. Refer to Appendix E for a detailed list of the Glasgow Coma Score's components.
Values	<p>1 = No response 2 = To pain 3 = To verbal command 4 = Spontaneously 9 = Not available</p> <p>*This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

GLASGOW COMA SCORE AT SCENE

Data Field Number: 96
 Data Field Name: GCS1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 3-15, 99

DEFN	The sum of the three scores of the patient's Glasgow Coma Scale components (MOTOR + VERBAL + EYE) at scene. If any of these components are NOT available, use 99 to indicate that a complete assessment of all three areas was not available. Use initial documentation from EMS providers.
Values	<p>3-15 99 = Not available</p> <p>*This field is conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

TDH FIRM NUMBER

Data Field Number: 97
 Data Field Name: FIRMNO
 Required/Optional: **Required**
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 001001-254999, 300000-300999, 801000-899000, 999998, 999999

DEFN	The six-digit numeric code for the EMS agency that transported the patient from the initial scene of injury to the first facility in which the patient received treatment. Record 999998 if patient was not transported by EMS. Record 999999 if patient was transported by EMS but EMS provider is unknown.
Values	EMS firm numbers are assigned by the Texas Department of Health. The list of EMS firm numbers can be found in Appendix B. (001001-799999) = Texas EMS providers (801000-899000) = Other state EMS providers 999998 = Not transported by EMS 999999 = Transported by EMS but provider unknown

TIME OF DISPATCH

Data Field Number: 98, 99
 Data Field Name: HRDISP, MINDISP
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23, 99], [00-59, 99]

DEFN	Time initial EMS was dispatched to the initial scene of injury. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Record 99:99 if time of dispatch is unknown.
Values	Hour of Dispatch (HRDISP) 00-23 99 = Unknown Minute of Dispatch (MINDISP) 00-59 99 = Unknown *These fields are conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.

TIME OF SCENE ARRIVAL

Data Field Number: 100, 101
 Data Field Name: HRARSCN, MINARSCN
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23], [00-59]

DEFN	Time initial EMS arrived to the initial scene of injury. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Record 99:99 if time of scene arrival is unknown.
Values	<p>Hour of Scene Arrival (HRARSCN) 00-23 99 = Unknown</p> <p>Minute of Scene Arrival (MINARSCN) 00-59 99 = Unknown</p> <p>*These fields are conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

TIME OF LEAVING THE SCENE

Data Field Number: 102, 103
 Data Field Name: HRDEP, MINDEP
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23], [00-59]

DEFN	Time initial EMS departed the scene of the initial injury. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Record 99:99 if time of departure is unknown.
Values	<p>Hour of Scene Departure (HRDEP) 00-23 99 = Unknown</p> <p>Minute of Scene Departure (MINDEP) 00-59 99 = Unknown</p> <p>*These fields are conditional. Complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

VEHICLE EXTRICATION

Data Field Number: 104
 Data Field Name: EXTRIC
 Required/Optional: Optional – Conditional*
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Requirement of specific equipment and/or procedures above normal procedures to remove patient.
Values	<p>1 = Yes 2 = No 9 = Unknown</p> <p>*This field is conditional. You may complete only if EMS transported patient to the first facility in which the patient received treatment (i.e., if field #97 TDH Firm Number does not equal 999998). Leave blank if EMS did not transport patient to the first facility.</p>

PROTECTIVE DEVICE

Data Field Number: 105
 Data Field Name: PROTECT
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-9

DEFN	Enter the most relevant protective device used by the patient at the time of the injury. Enter a particular device only if it was used appropriately. Assume the device was properly used unless it is explicitly mentioned somewhere in the patient's chart that proper use is questioned or the device was used improperly. If the device was used improperly or if a shoulder belt was used and not a lap belt, enter "none".
Values	<p>1 = None No protective devices used.</p> <p>2 = Safety belt/harness Belt restraint systems located in the vehicle. Can include three-point systems and lap belts only.</p> <p>3 = Air bag & safety belt Patient secured with belt restraints, as well as airbag deployment at time of impact.</p> <p>4 = Air bag only No use of belt restraints but deployment of automatic driver-side or passenger-side airbag during collision.</p> <p>5 = Infant /child seat Child passenger restraint seat such as infant seat, convertible seat or booster seat. Can also include child safety seats that are built into car's frame.</p> <p>6 = Protective helmet Protective helmet used with bicycling, motorcycles, ATV's, skateboards, sports.</p> <p>7 = Padding/protective clothing Padding and/or protective clothing (e.g., gloves, boots, sports padding, impermeable garment).</p> <p>8 = Other protective device Any other protective devices not listed above. Examples include eye shields, hard hat, or floatation device (e.g., life preserver or cushion).</p> <p>9 = Unknown Unknown if protective device was used or not.</p>

IS THIS A TRANSFER?

Data Field Number: 106
 Data Field Name: TRANSF
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2

DEFN	Hospital transfer applies to patients who are transferred from an initial acute care facility to your facility. A patient sent to your facility from a private doctor's office, clinic, or stand-alone ambulatory surgery center is not a transfer.
Values	1 = Yes 2 = No

FIRST HOSPITAL NUMBER

Data Field Number: 107
 Data Field Name: HOSP1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 7
 Type of Field: Numeric
 Value Range: 0010001-2549999, 8010000-8990000, 9999999

DEFN	The seven digit numeric code assigned to the facility, which transferred the patient to your hospital.
Values	Facility numbers are assigned by the Texas Department of Health. The list of facility numbers can be found in Appendix A. *This field is conditional. Complete only if the patient was transferred from another hospital to your hospital (i.e., if field #106 Is this a Transfer? is equal to 1- Yes). Leave blank if patient was not transferred from another hospital to your hospital.

DATE OF ARRIVAL TO FIRST HOSPITAL

Data Field Number: 108, 109, 110
 Data Field Name: MMARR1, DDARR1, YYARR1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [01-12, 99], [01-31, 99], [2000 – present year, 9999]

DEFN	The date the patient arrived at the referring hospital. This field is applicable to ALL patients transferred from another hospital.
Values	<p>Month of Arrival to First Hospital (MMARR1) 01 = January 07 = July 99 = Unknown 02 = February 08 = August 03 = March 09 = September 04 = April 10 = October 05 = May 11 = November 06 = June 12 = December</p> <p>Day of Arrival to First Hospital (DDARR1) 01-31 99 = Unknown</p> <p>Year of Arrival to First Hospital (YYARR1) Use the four-digit year of arrival. For example, if the patient arrived at the referring hospital in 2000, the value would be 2000. Record 9999 for unknown.</p> <p>*These fields are conditional. Complete only if the patient was transferred from another hospital to your hospital (i.e., if field #106 Is this a Transfer? is equal to 1- Yes). Leave blank if patient was not transferred from another hospital to your hospital.</p>

TIME OF ARRIVAL TO FIRST HOSPITAL

Data Field Number: 111, 112
 Data Field Name: HRARR1, MRARR1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23, 99], [00-59, 99]

DEFN	The time the patient arrived at the referring hospital. This field is applicable to ALL patients transferred from another hospital. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so.
Values	<p>Hour of Arrival to First Hospital (HHARR1) 00-23 99 = Unknown</p> <p>Minute of Arrival to First Hospital (MMARR1) 00-59 99 = Unknown</p> <p>*These fields are conditional. Complete only if the patient was transferred from another hospital to your hospital (i.e., if field #106 Is this a Transfer? is equal to 1- Yes). Leave blank if patient was not transferred from another hospital to your hospital.</p>

DATE OF DEPARTURE FROM FIRST HOSPITAL

Data Field Number: 113, 114, 115
 Data Field Name: MMDEP1, DDDEP1, YYDEP1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2, 4
 Type of Field: Numeric
 Value Range: [00-12, 99], [01-31, 99], [2000 – present year, 9999]

DEFN	The date the patient physically left the referring hospital on the way to your hospital. This field is applicable to ALL patients transferred from another hospital.
Values	<p>Month of Departure from First Hospital (MMDEP1) 01 = January 07 = July 99 = Unknown 02 = February 08 = August 03 = March 09 = September 04 = April 10 = October 05 = May 11 = November 06 = June 12 = December</p> <p>Day of Departure from First Hospital (DDDEP1) 01-31 99 = Unknown</p> <p>Year of Departure from First Hospital (YYDEP1) Use four-digit year of departure. For example, if the patient left the referring hospital in 2000, the value would be 2000. Record 9999 for unknown.</p> <p>*These fields are conditional. Complete only if the patient was transferred from another hospital to your hospital (i.e., if field #106 Is this a Transfer? is equal to 1- Yes). Leave blank if patient was not transferred from another hospital to your hospital.</p>

TIME OF DEPARTURE FROM FIRST HOSPITAL

Data Field Number: 116, 117
 Data Field Name: HRDEP1, MRDEP1
 Required/Optional: **Required – Conditional***
 Max. Length of Field: 2, 2
 Type of Field: Numeric
 Value Range: [00-23, 99], [00-59, 99]

DEFN	The time the patient physically left the referring hospital on the way to your hospital. This field is applicable to ALL patients transferred from another hospital. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so.
Values	<p>Hour of Departure from First Hospital (HHDEP1) 00-23 99 = Unknown</p> <p>Minute of Departure from First Hospital (MMDEP1) 00-59 99 = Unknown</p> <p>*These fields are conditional. Complete only if the patient was transferred from another hospital to your hospital (i.e., if field #106 Is this a Transfer? is equal to 1- Yes). Leave blank if patient was not transferred from another hospital to your hospital.</p>

CITY OF RESIDENCE

Data Field Number: 118
 Data Field Name: RESCITY
 Required/Optional: **Required**
 Max. Length of Field: 20
 Type of Field: Character
 Value Range: None

DEFN	The city in which the patient currently resides. Enter the number 9 for unknown. Do not abbreviate.
Values	The name of any city. 9 = Unknown.

TRAUMA TEAM ACTIVATION

Data Field Number: 119
 Data Field Name: ACTIV
 Required/Optional: **Required**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2,7,9

DEFN	<p>Trauma team – “A group of health care professionals organized to provide care to the trauma patient in a coordinated and timely fashion.” (Resources for the Optimal care of the Injured patient).</p> <p>Trauma team activation – Announcement of incoming trauma patient via communication system to assemble all members of the trauma team in the ED resuscitation area.</p> <p>Did trauma team activation occur for patient meeting trauma team activation criteria?</p>
Values	<p>1 = Yes 2 = No 7 = Not applicable (patient did not meet trauma team activation criteria) 9 = Unknown</p>

TIME OF TRAUMA TEAM ACTIVATION

Data Field Number: 120
 Data Field Name: ACTTIME
 Required/Optional: **Optional***
 Max. Length of Field: 5
 Type of Field: Character
 Value Range: 00:00 – 23:59, 99:99

DEFN	The time of day that the trauma team was activated. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Enter 99:99 if you do not know the time.
Values	<p>00:00 – 23:59 Military time 99:99 = Unknown</p> <p>* Not required, but we request that you complete this field if trauma team activation occurred.</p>

SOFTWARE IDENTIFICATION

Data Field Number: 121
 Data Field Name: SOFTWARE
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Character
 Value Range: [001-999][none]

DEFN	Identifies the computer software used to create the data file for transmission to the Texas EMS/Trauma Registry. The first 3 digits refer to the TDH-assigned software ID code. The last 7 digits are assigned by the software to identify version.
Values	<p>Software ID codes (3 digits) are assigned by the Texas Department of Health EMS/Trauma Registry. The list of Software ID codes can be found on the injury website and in Appendix I. Software version codes (7 characters) are assigned at the discretion of each software company/designer.</p> <p>001XXXXXXXX – 998XXXXXXXX = Software identification where XXXXXXXX is the software version 9999999999 = Unknown (call TDH EMS/Trauma Registry to have software ID code assigned)</p> <p>Example: 003v2.0.b (Software ID code 003 for version 2.0.b of their software)</p>

HOSPITAL RESEARCH FIELDS

Data Field Number: 122, 123, 124
 Data Field Name: HOSPRES1, HOSPRES2, HOSPRES3
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Character
 Value Range: [none]

DEFN	May be used to track information defined by the hospital for any purpose.
Values	Any string of up to 10 characters.

RAC RESEARCH FIELDS

Data Field Number: 125, 126, 127
 Data Field Name: RACRES1, RACRES2, RACRES3
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Character
 Value Range: [none]

DEFN	May be used to track information defined by the RAC for any purpose.
Values	Any string of up to 10 characters.

MISCELLANEOUS RESEARCH FIELDS

Data Field Number: 128, 129, 130
 Data Field Name: MISCRES1, MISCRES2, MISCRES3
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Character
 Value Range: [none]

DEFN	May be used to track information defined by the RAC or hospital for any purpose.
Values	Any string of up to 10 characters.

BLUNT INJURY

Data Field Number: 131
 Data Field Name: BLUNT
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Did the patient sustain a blunt injury?
Values	1 = Yes 2 = No 9 = Unknown

BURN INJURY

Data Field Number: 132
 Data Field Name: BURN
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Did the patient sustain a burn injury?
Values	1 = Yes 2 = No 9 = Unknown

PENETRATING INJURY

Data Field Number: 133
 Data Field Name: PENETRTR
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Did the patient sustain a penetrating injury?
Values	1 = Yes 2 = No 9 = Unknown

DIRECT ADMIT

Data Field Number: 134
 Data Field Name: DIRECT
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was the patient a direct admit to a room/ICU as opposed to being admitted after emergency department treatment?
Values	1 = Yes 7 = Not applicable (patient was not admitted i.e. transferred) 2 = No 9 = Unknown

EMERGENCY DEPARTMENT DISCHARGE DATE

Data Field Number: 135
 Data Field Name: EDDIDATE
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Date
 Value Range: [1990 – current year, 9999] [01 – 12, 99][01 – 31, 99]

DEFN	Date that patient was discharged from the emergency department.
Values	Format: YYYY/MM/DD YYYY = Year; 9999 = Unknown MM = Month; leading zero required; 99 = Unknown DD = Day; leading zero required; 99 = Unknown

EMERGENCY DEPARTMENT DISCHARGE TIME

Data Field Number: 136
 Data Field Name: EDDITIME
 Required/Optional: **Optional**
 Max. Length of Field: 5
 Type of Field: Time
 Value Range: 00:00 – 23:59, 99:99

DEFN	Time that patient was discharged from the emergency department.
Values	00:00 – 23:59 = Military time 99:99 = Unknown

EMERGENCY DEPARTMENT DISPOSITION

Data Field Number: 137
 Data Field Name: EDD
 Required/Optional: **Optional**
 Max. Length of Field: 2
 Type of Field: Numeric
 Value Range: 01-08, 77, 88, 99

DEFN	Disposition of the patient in the emergency department.
Values	01 = Emergency department observation 07 = Telemetry 02 = Dead on arrival 08 = Transfer 03 = Died in emergency room 04 = Floor 77 = Not applicable (patient did not visit ED) 05 = ICU 88 = Other 06 = OR / Surgery 99 = Unknown

EMERGENCY DEPARTMENT STAY OVER 2 HOURS

Data Field Number: 138
 Data Field Name: ED2HOURS
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-4, 7-9

DEFN	Reason why the patient remained in the emergency department over 2 hours.	
Values	1 = No ICU beds 2 = Surgeon unavailable 3 = Staffing 4 = Receiving facility on divert	7 = Not applicable (patient did not stay in ED over 2 hours) 8 = Other 9 = Unknown

TRANSFER TO LOWER LEVEL FACILITY

Data Field Number: 139
 Data Field Name: TRLWLEVL
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was the patient transferred to a non-designated or lower level designated facility?	
Values	1 = Yes 2 = No	7 = Not applicable (patient not transferred) 9 = Unknown

CPR PERFORMED

Data Field Number: 140
 Data Field Name: CPR
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Was CPR performed in the emergency department?	
Values	1 = Yes 2 = No	9 = Unknown

AIRWAY MANAGEMENT TYPE

Data Field Number: 141
 Data Field Name: AIRWAY
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-9

DEFN	Airway management type.	
Values	1 = Assisted ventilation 2 = Cricothyrotomy 3 = Nasal endotracheal tube 4 = Oral airway 5 = Oral endotracheal tube	6 = Tracheostomy 7 = Not applicable (no airway management) 8 = Other 9 = Unknown

EMS RUN REPORT

Data Field Number: 142
 Data Field Name: EMSREP
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is an EMS run report present in the patient care record?	
Values	1 = Yes	7 = Not applicable (patient was not transported by EMS)
	2 = No	9 = Unknown

PREHOSPITAL ESSENTIAL DATA

Data Field Number: 143
 Data Field Name: PREESSN
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Are the prehospital essential data items completed on the EMS run report?	
Values	1 = Yes	7 = Not applicable (patient not transported by EMS or report not present)
	2 = No	9 = Unknown

DOCUMENTATION OF TRAUMA TEAM ACTIVATION

Data Field Number: 144
 Data Field Name: TTACTDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is documentation of trauma team activation present for severe or major trauma patient?	
Values	1 = Yes	7 = Not applicable (trauma team was not activated)
	2 = No	9 = Unknown

TRAUMA TEAM RESPONSE TIME OVER 10 MINUTES – IN HOUSE

Data Field Number: 145
 Data Field Name: TTRGT10
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Were trauma team member response times greater than 10 minutes for those in-house?	
Values	1 = Yes	7 = Not applicable (trauma team was not activated)
	2 = No	9 = Unknown

TRAUMA TEAM RESPONSE TIME OVER 30 MINUTES – ON CALL

Data Field Number: 146
 Data Field Name: TTRGT30
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Were trauma team member response times greater than 30 minutes for those off-site?	
Values	1 = Yes	7 = Not applicable (trauma team was not activated or members not off-site)
	2 = No	9 = Unknown

DOCUMENTATION OF TRAUMA TEAM RESPONSE TIMES

Data Field Number: 147
 Data Field Name: TTRESDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is documentation of trauma team response times present?	
Values	1 = Yes	7 = Not applicable (trauma team was not activated)
	2 = No	9 = Unknown

TRAUMA FLOW SHEET

Data Field Number: 148
 Data Field Name: FLOWSHT
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Is a trauma flow sheet utilized?	
Values	1 = Yes	
	2 = No	9 = Unknown

MECHANISM OF INJURY

Data Field Number: 149
 Data Field Name: MINJDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Is documentation of mechanism of injury present?	
Values	1 = Yes	
	2 = No	9 = Unknown

ASSESSMENTS

Data Field Number: 150
 Data Field Name: ASSDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Is documentation of assessments present?
Values	1 = Yes 2 = No 9 = Unknown

INTERVENTIONS

Data Field Number: 151
 Data Field Name: INTRVDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Is documentation of interventions present?
Values	1 = Yes 2 = No 9 = Unknown

RESPONSES TO INTERVENTIONS

Data Field Number: 152
 Data Field Name: INRSDOC
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Is documentation of responses to interventions present?
Values	1 = Yes 2 = No 9 = Unknown

HOURLY RECORDING OF VITAL SIGNS

Data Field Number: 153
 Data Field Name: HOURVS
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is documentation present for at least hourly sequential recording of vital signs (blood pressure, pulse, respirations, and temperature) for the patient beginning with arrival in the emergency department, including time spent in radiology, up to the time of admission, death, or transfer?
Values	1 = Yes 2 = No 7 = Not applicable (i.e. patient expired in less than an hour) 9 = Unknown

HOURLY RECORDING OF GLASGOW COMA SCORE

Data Field Number: 154
 Data Field Name: HOURGCS
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is documentation present for at least hourly determination and recording of Glasgow Coma Score (GCS) for the patient beginning with arrival in the emergency department, including time spent in radiology, up to the time of admission, death, or transfer?	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. patient expired in less than an hour) 9 = Unknown

HOURLY RECORDING OF INTAKE & OUTPUT

Data Field Number: 155
 Data Field Name: HOURIO
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Is documentation present for at least hourly determination and recording of intake and output for the patient beginning with arrival in the emergency department, including time spent in radiology, up to the time of admission, death, or transfer?	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. patient expired in less than an hour) 9 = Unknown

RESUSCITATION PROTOCOLS

Data Field Number: 156
 Data Field Name: RESPRFOL
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Were resuscitation protocols followed?	
Values	1 = Yes 2 = No	9 = Unknown

TREATMENT PROTOCOLS

Data Field Number: 157
 Data Field Name: TRPRFOL
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Were treatment protocols followed?	
Values	1 = Yes 2 = No	9 = Unknown

STANDARDS OF CARE

Data Field Number: 158
 Data Field Name: SOCFOL
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Were standards of care followed?
Values	1 = Yes 2 = No 9 = Unknown

REQUIRED EQUIPMENT AVAILABLE

Data Field Number: 159
 Data Field Name: REQPAVA
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was required equipment, which is shared with other departments, immediately available when requested?
Values	1 = Yes 2 = No 7 = Not applicable (i.e. required equipment not requested) 9 = Unknown

PHYSICIAN NOTES

Data Field Number: 160
 Data Field Name: PHYSNOTE
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 9

DEFN	Are physician notes present in the patient care record?
Values	1 = Yes 2 = No 9 = Unknown

CT OF HEAD RECEIVED

Data Field Number: 161
 Data Field Name: CTRECD
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Did the patient with a GCS less than 14 receive a CT of the head? Only desired from hospitals designated level III.
Values	1 = Yes 2 = No 7 = Not applicable (i.e. GCS >13) 9 = Unknown

COMATOSE PATIENT AIRWAY ESTABLISHED

Data Field Number: 162
 Data Field Name: CAIREST
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was a definitive airway established for a comatose patient (GSC < 9) before leaving the emergency department? Only desired from hospitals designated level III.	
Values	1 = Yes	7 = Not applicable (i.e. patient not comatose)
	2 = No	9 = Unknown

ADMITTED UNDER CARE OF NON-SURGEON

Data Field Number: 163
 Data Field Name: ADPHNSUR
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was the patient admitted to the hospital under the care of an admitting or attending physician who was NOT a surgeon? Only desired from hospitals designated level III.	
Values	1 = Yes	7 = Not applicable
	2 = No	9 = Unknown

GUNSHOT MANAGED NON-OPERATIVELY

Data Field Number: 164
 Data Field Name: GUNNONOP
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was a patient sustaining a gunshot wound to the abdomen managed non-operatively? Only desired from hospitals designated level III.	
Values	1 = Yes	7 = Not applicable (i.e. did not receive a gunshot wound to the abdomen)
	2 = No	9 = Unknown

LAPAROTOMY OVER 1 HOUR

Data Field Number: 165
 Data Field Name: LAPR1HR
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Did a patient with abdominal injuries and hypotension (systolic BP < 90) NOT undergo laparotomy within 1 hour of arrival in the emergency department? Only desired from hospitals designated level III.	
Values	1 = Yes	7 = Not applicable (i.e. no abdominal injuries and hypotension)
	2 = No	9 = Unknown

LAPAROTOMY OVER 4 HOURS

Data Field Number: 166
 Data Field Name: LAPR4HR
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Did the patient undergo a laparotomy over 4 hours after arrival in the emergency department? Only desired from hospitals designated level III.
Values	1 = Yes 2 = No 7 = Not applicable (i.e. no laparotomy performed) 9 = Unknown

CRANIOTOMY OVER 4 HOURS

Data Field Number: 167
 Data Field Name: CRAN4HR
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Did a patient with epidural or subdural brain hematoma receive a craniotomy over 4 hours after arrival in the emergency department, excluding those performed for ICP monitoring? Only desired from hospitals designated level III.
Values	1 = Yes 2 = No 7 = Not applicable (i.e. no craniotomy performed) 9 = Unknown

DEBRIDEMENT OVER 8 HOURS

Data Field Number: 168
 Data Field Name: DEBR8HR
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was there an interval of more than 8 hours between arrival and the initiation of debridement of an open tibial fracture, excluding a low velocity gunshot wound? Only desired from hospitals designated level III.
Values	1 = Yes 2 = No 7 = Not applicable (i.e. no debridement of an open tibial fracture) 9 = Unknown

ABDOMINAL SURGERY OVER 24 HOURS

Data Field Number: 169
 Data Field Name: ADSUR24H
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was abdominal surgery performed over 24 hours after arrival? Only desired from hospitals designated level III.
Values	1 = Yes 2 = No 7 = Not applicable (i.e. no abdominal surgery performed) 9 = Unknown

THORACIC SURGERY OVER 24 HOURS

Data Field Number: 170
 Data Field Name: TRSUR24H
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was thoracic surgery performed over 24 hours after arrival? Only desired from hospitals designated level III.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. no thoracic surgery performed) 9 = Unknown

VASCULAR SURGERY OVER 24 HOURS

Data Field Number: 171
 Data Field Name: VASUR24H
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was vascular surgery performed over 24 hours after arrival? Only desired from hospitals designated level III.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. no vascular surgery performed) 9 = Unknown

CRANIAL SURGERY OVER 24 HOURS

Data Field Number: 172
 Data Field Name: CRSUR24H
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was cranial surgery performed over 24 hours after arrival? Only desired from hospitals designated level III.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. no cranial surgery performed) 9 = Unknown

NON-FIXATION OF FEMORAL DIAPHYSEAL FRACTURE

Data Field Number: 173
 Data Field Name: NFXFDIAP
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was there non-fixation of a femoral diaphyseal fracture in an adult trauma patient? Only desired from hospitals designated level III.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. no femoral diaphyseal fracture or not adult patient) 9 = Unknown

RE-INTUBATION WITHIN 48 HOURS

Data Field Number: 174
 Data Field Name: REINT48H
 Required/Optional: **Optional – Level III**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Did the patient require re-intubation of the airway within 48 hours of extubation? Only desired from hospitals designated level III.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. no extubation) 9 = Unknown

DELAYS IN INJURY ID

Data Field Number: 175
 Data Field Name: DELINJID
 Required/Optional: **Optional**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Were there delays in identification of injuries?	
Values	1 = Yes 2 = No	7 = Not applicable 9 = Unknown

ADMITTED WITHOUT PHYSICIAN

Data Field Number: 176
 Data Field Name: ADMNOPHY
 Required/Optional: **Optional – Level IV**
 Max. Length of Field: 1
 Type of Field: Numeric
 Value Range: 1-2, 7, 9

DEFN	Was the patient admitted without being examined by a physician? Only required of hospitals designated level IV.	
Values	1 = Yes 2 = No	7 = Not applicable (i.e. patient not admitted/was transferred) 9 = Unknown

TRANSFERING EMS PROVIDER NUMBER

Data Field Number: 177
 Data Field Name: TRANFIRM
 Required/Optional: **Optional**
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 001001 – 999998, 000911, [blank]

DEFN	The six-digit numeric code for the EMS agency that transported the patient from another acute care facility to your facility. Record 000911 if patient was transported by EMS but EMS provider is unknown. Leave blank if not applicable.	
Values	EMS firm numbers are assigned by the Texas Department of Health. The list of EMS firm numbers can be found in Appendix B. 001001-999998 = EMS provider code 000911 = Transported by EMS but provider unknown	

AIR EMS ACTIVATION DATE

Data Field Number: 178
 Data Field Name: AIRDATE
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Date
 Value Range: [1990 – current year, 9999] [01 – 12, 99][01 – 31, 99], [blank]

DEFN	Date of air EMS activation if transferring patient out. Leave blank if not applicable.
Values	Format: YYYY/MM/DD YYYY = Year; 9999 = Unknown MM = Month; leading zero required; 99 = Unknown DD = Day; leading zero required; 99 = Unknown

AIR EMS ACTIVATION TIME

Data Field Number: 179
 Data Field Name: AIRTIME
 Required/Optional: **Optional**
 Max. Length of Field: 5
 Type of Field: Character
 Value Range: 00:00 – 23:59, 99:99, [blank]

DEFN	The time of day of air EMS activation if transferring patient out. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Enter 99:99 if you do not know the time. Leave blank if not applicable.
Values	00:00 – 23:59 Military time 99:99 = Unknown

AIR EMS ARRIVAL DATE

Data Field Number: 180
 Data Field Name: AIRADATE
 Required/Optional: **Optional**
 Max. Length of Field: 10
 Type of Field: Date
 Value Range: [1990 – current year, 9999] [01 – 12, 99][01 – 31, 99], [blank]

DEFN	Date of air EMS arrival at your hospital if transferring patient out. Leave blank if not applicable.
Values	Format: YYYY/MM/DD YYYY = Year; 9999 = Unknown MM = Month; leading zero required; 99 = Unknown DD = Day; leading zero required; 99 = Unknown

AIR EMS ARRIVAL TIME

Data Field Number: 181
 Data Field Name: AIRATIME
 Required/Optional: **Optional**
 Max. Length of Field: 5
 Type of Field: Character
 Value Range: 00:00 – 23:59, 99:99, [blank]

DEFN	The time of day of air EMS arrival at your hospital if transferring patient out. Use military time, 00:00 to 23:59. Convert time to the time zone in which your facility is located, if not already done so. Enter 99:99 if you do not know the time. Leave blank if not applicable.
Values	00:00 – 23:59 Military time 99:99 = Unknown

AIR EMS PROVIDER NUMBER

Data Field Number: 182
 Data Field Name: AIRFIRM
 Required/Optional: **Optional**
 Max. Length of Field: 6
 Type of Field: Numeric
 Value Range: 001001 – 999998, 000911, [blank]

DEFN	The six-digit numeric code for the air EMS agency that transported the patient out from your facility. Record 000911 if patient was transported out by air EMS but air EMS provider is unknown. Leave blank if not applicable.
Values	EMS firm numbers are assigned by the Texas Department of Health. The list of EMS firm numbers can be found in Appendix B. 001001-999998 = EMS provider code 000911 = Transported by EMS but provider unknown

APPENDIX C

COUNTY CODES

Texas Counties	47 Comanche	94 Guadalupe	141 Lampasas	188 Potter	235 Victoria	826 Missouri

Total 1+2+3=				3-15

APPENDIX F

DIAGNOSIS 1-5 (ICD-9-CM) CODING SCHEME

Definitions:

SCI - Spinal Cord Injury as defined by the following ICD-9-CM codes: 806.0-806.9 and 952.0-952.9

TBI - Traumatic Brain Injury as defined by the following ICD-9-CM codes: 800.0-801.99, 803.0-804.99 and 850.0-854.19

For all tying AIS scores:

- If AIS scores are tied for TBIs or SCIs, use first listed (order entered into software) injury to report to registry

- If AIS scores are tied (no TBI or SCI), use first listed (order entered into software) injury to report to trauma registry

For DX1-DX5

1. If there are **no TBIs or SCIs**, code the five most severe injuries according to the AIS.

Example:

If the patient has these injuries entered in your registry in this order, send the Trauma Registry the marked codes (DX1-DX5)

	<u>ICD9</u>	<u>Injury</u>	<u>AIS</u>
DX1	807.6	Fracture 4 ribs	3
DX2	820.09	Fracture Neck of Femur	3
DX5	802.0	Fracture Nose	1
DX4	949.1	Burn, 1 st Degree	2
	826.0	Fracture Toe	1
DX3	864.09	Injury to Liver	3

2. If there is **a TBI** and no SCI: a) code the five most severe injuries according to the AIS if the TBI is included in those injuries, or b) code the four most severe injuries according to the AIS and include the most severe TBI as the 5th injury

Example for part b:

If the patient has these injuries entered in your registry in this order, send the Trauma Registry the marked codes (DX1-DX5)

	<u>ICD9</u>	<u>Injury</u>	<u>AIS</u>
DX1	807.6	Fracture 4 ribs	3
DX2	820.09	Fracture Neck of Femur	3
DX3	861.22	Injury to Lung	3
	949.1	Burn, 1 st Degree	2
DX4	887.0	Amputation of Arm	3
	864.09	Injury to Liver	3
DX5	800.02	Fracture of Skull	2

3. If there is **an SCI** and no TBI: a) code the five most severe injuries according to the AIS if the SCI is included in those injuries, or b) code the four most severe injuries according to the AIS and include the most severe SCI as the 5th injury

Example for part b:

If the patient has these injuries entered in your registry in this order, send the Trauma Registry the marked codes (DX1-DX5)

	<u>ICD9</u>	<u>Injury</u>	<u>AIS</u>
DX1	807.6	Fracture 4 ribs	3
DX2	820.09	Fracture Neck of Femur	3
	816.00	Fracture Finger	1
DX4	949.1	Burn, 1 st Degree	2
	802.8	Fracture Facial Bones	2
DX3	864.09	Injury to Liver	3
DX5	806.20	Fracture of Spine	2

4. If there is **a TBI and an SCI**: a) code the five most severe injuries according to the AIS if the TBI and SCI are included in those injuries, or b) code the three most severe injuries according to the AIS and include the most severe TBI as the 4th injury and the most severe SCI as the 5th injury

Example for part b:

If the patient has these injuries entered in your registry in this order, send the Trauma Registry the marked codes (DX1-DX5)

	<u>ICD9</u>	<u>Injury</u>	<u>AIS</u>
DX1	807.6	Fracture 4 ribs	3
DX2	820.09	Fracture Neck of Femur	3
	802.0	Fracture Nose	1
	949.1	Burn, 1 st Degree	2
	826.0	Fracture Toe	1
DX3	864.09	Injury to Liver	3
DX4	800.02	Fracture of Skull	2
DX5	806.20	Fracture of Spine	2

APPENDIX G

GLOSSARY

AIS - The Abbreviated Injury Scale (1990 Revision) is available from the Association for the Advancement of Automotive Medicine (voice: 847-390-8927) (fax: 847-390-9962) (email: AAAMI@aol.com) (website: www.carcrash.org)

Conditional Field - The completion of this field is dependent upon the completion of a certain value for another field. For example, the alcohol level of a patient should be reported only if an alcohol test was administered on patient.

ICD-9-CM - International Classification of Diseases 9th Revision Clinical Modification

Optional Field - The completion of this field is optional.

Required Field - The completion of this field is required.

SCI - Spinal Cord Injury as defined by the following ICD-9-CM codes: 806.0 – 806.9 and 952.0-952.9

TBI - Traumatic Brain Injury as defined by the following ICD-9-CM codes: 800.0-801.9, 803.0-804.9 and 850.0-854.1.

Texas Trauma Registry - A statewide database which documents and integrates medical and system information related to the provision of trauma care by health care entities.

Trauma - An injury or wound to a living body caused by the application of an external force or violence, including burn injuries. Poisonings, near-drownings and suffocations, other than those due to external forces are to be excluded from this definition.

APPENDIX H

DATA FILE CREATION AND TRANSFER SPECIFICATIONS

There is no single software package being promoted by the Texas Trauma Registry for use by Texas hospitals to fulfill their trauma reporting requirements. Hospitals may use any software as long as they are able to collect and electronically transmit the Texas Hospital Standard Data Set as defined in this document.

Before sending your data to the TDH file server, please make sure that the order of the fields for each record in your file is the same as the order described in this document. TDH file server accepts only ASCII data delimited with TABS. There should be a TAB after each field (required and optional), the only exception being the last field of a record. The total number of TABS for each record should be 116 or if there is a TAB after the last field, the record will contain 117 TABS.

One single file may contain records for more than one hospital provided that the appropriate hospital facility number is accurately completed in the sixth field (FACILNO) for each record.

For data transfer, the following specifications are required:

File name, 8 digit and extension as follows: H $\frac{\quad}{1}$ $\frac{\quad}{2}$ $\frac{\quad}{3}$ $\frac{\quad}{4}$ $\frac{\quad}{5}$ $\frac{\quad}{6}$ $\frac{\quad}{7}$ $\frac{\quad}{8}$. $\frac{\quad}{\text{dec}}$

First digit is the letter "H"

2nd – 8th digits = your hospital code obtained from the list of hospital codes provided to you by the Trauma Registry

The **three decimal places** = the day number of the year obtained from a calendar

Example: Parkland Hospital in Dallas is ready to transmit a file on January 15, 2000. The filename should be "H0570935.015"

The file should be transferred using the **KERMIT protocol**:

9600 – 56,000 bps

8 bit, no parity, 1 stop bit

Full duplex

File server phone number is 1-800-242-3562. Upon connection to the file server, transfer file. The file server is available for receiving files 24 hours a day and 7 days a week.

For instructions on how to transfer a file using Windows 3.1 Terminal or Windows95/98 Hyperterminal, please contact the Texas Trauma Registry or visit our web site at www.tdh.state.tx.us/injury/. Instructions are located in the Transmission Handbook.

If this is your first time transferring a file, please notify the Texas Trauma Registry so that the file may be checked for correct data file format. Testing may consist of several test file submissions. The number of test file submissions depends on the percentage and severity of errors. General requirements for a test file submission are: (1) minimum of five patient records and (2) valid and complete patient data.

If you have questions, please call the Texas Trauma Registry at 512/458-7266.

APPENDIX I: SOFTWARE CODE LIST

Software

<i>ID Code</i>	<i>Entity</i>	<i>Software Name</i>	<i>Software Company</i>
001	Hospital	NATIONAL TRACS®	American College of Surgeons
