

Selecting Correct Specimen Type on Clinical Chemistry Submission Forms

When ordering tests, please mark correct specimen type on the specimen submission form.

- For Lipid panel, Cholesterol, or Glucose tests on the G-THSTEPS or G-1B form:
 - Mark either Serum or Plasma.
 - Not necessary to mark Blood: Venous in addition to Serum or Plasma.
- For Gonorrhea/Chlamydia on the G-THSTEPS form:
 - Mark the correct source – endocervical, urethral, vaginal, or urine.

For questions, contact Specimen Logistics by e-mail at ClinicalChemistry@dshs.state.tx.us.
