

SIMRAN TIWANA, MBA

Simran Tiwana, MBA, joined the Texas Newborn Screening Performance Measures Project (TNSPMP) team in May 2008 serving as a research specialist. Ms. Tiwana is a doctoral candidate at The University of Texas at Austin. Her dissertation focuses on estimating the cost-effectiveness of the expanded newborn screening program in Texas.

During her graduate work at The University of Texas at Austin, Ms. Tiwana has received extensive training in health economics, research design and statistics. Her areas of interest include finance, economic evaluation of health care services (especially as it relates to genetic testing), outcomes research, and program evaluation. She has been involved in research pertaining to vulnerable populations such as infants and the elderly.

Prior to attending The University of Texas, Ms. Tiwana earned her MBA with a concentration in finance from the University of Delaware. She also has an MS in biology from Panjab University, India.
