

### Medicaid Rates and Rate Setting Methodology

Rates are developed based on encounter data in the NorthSTAR data warehouse, and methodology for calculation of rates is certified by HHSC's contracted actuarial firm. Use of the rates is dependent on CMS approval. Below are two tables for rates:

	<b>Medicaid</b>				
	<b>SSI</b>			<b>TANF and Related</b>	
<b>Description</b>	<b>Children &lt;21</b>	<b>Adults 21-64</b>	<b>Aged 65+</b>	<b>Children &lt;21</b>	<b>Adults 21+</b>
Premiums by Risk Group*	36.70	53.07	3.53	6.78	12.17

\*Proposed rates that must be approved by CMS.
