Communicable Diseases: Preventing Pandemic Pandemonium

*Lubbock Memorial Civic Center
1501 Mac Davis Lane
Lubbock, Texas 79401*

August 16th & 17th, 2007

The critical function of public health and health care in general, is to ensure the safety and wellness of citizens across the nation. In the push to plan for future influenza pandemics, it is imperative to learn from previous disease experiences. Hospital Officials, Emergency Management Coordinators, Infectious Disease Reporters, and many others all play vital roles in this effort. Join us for two days of informative education to increase public health preparedness. Notable public health officials will be sharing first hand experiences dealing with disease. Learn the steps we can all take to avoid potential epidemics.

- Lunch included with Registration Fee
- Continuing Education credits will be offered
- **Pre-Registration Deadline is August 1, 2007!!**
