All sites combined includes all malignant cancers and in-situ bladder cancer.

New cases estimated by applying age-, sex-, and race/ethnic-specific incidence rates for Texas 2002-2006, to the Texas 2010 population. Melanoma, breast and prostate cancer expected cases were estimated by applying California 2002-2006 age-, sex-, and race/ethnic-specific incidence rates to the Texas 2010 population. California rates were used for these sites due to additional case-ascertainment methods used in California, and similar race and ethnic populations.

Expected deaths estimated by applying age-, sex-, and race/ethnic-specific mortality rates for Texas, 2005-2006, to the Texas 2010 population.

Totals may not sum due to rounding.
