**#11-106**

**TO:** WIC Regional Directors  
WIC Local Agency Directors

**FROM:** Linda Brumble, Unit Manager  
Nutrition Education/Clinic Services Unit  
Nutrition Services Section

**DATE:** August 11, 2011

**SUBJECT:** Enfagrow Product Change Update

---

---

### **Enfagrow Reclassification**

In memo # 11-053 you were informed that the Enfagrow products would not be authorized by Texas WIC after July 31, 2011. Formula codes 406, 457 and 408 will be removed from the TWIN F2 pick list in early August.

The affected products are:

**Enfagrow Premium PWD 24 oz (formula code 406)**

**Enfagrow Premium RTU 32 oz (formula code 457)**

**Enfagrow Soy PWD 24 oz (formula code 408)**

The associated UPCs for these formulas will be end-dated from the grocer computer system beginning August 1, 2011. If participants attempt to purchase these formulas after July 31, they will be turned away and told to return to the clinic.

In summary:

- 1) Formula exchanges may be made as long as the old codes appear in the F2 pick list (until approximately August 4, 2011).
- 2) If these codes do not appear in the F2 pick list, contact the Help Desk for assistance with the formula exchange.
- 3) Similac Go and Grow Milk (formula code 471) and Soy (formula code 472) are the only equivalent toddler formula options currently available. If these are not tolerated, other options include: Enfamil Premium or ProSobee. Contact the healthcare provider (HCP) to request an alternate formula option.
