Returned Formula Logs

- Revised based on input from local agencies
- Use of state developed form required
- Three versions available
- Monitoring of new forms will begin April 2013
- Features:
 - Include contract formula changes
 - Include new reason codes

Returned Formula Logs

- WIC 52-Returned Formula Log for Contract Formulas
- F-13-06-13968-Returned Formula Log for tracking other non contract formulas
- F-13-06-13969 –Returned Formula Log- Alternative version, list contract formulas and has additional space to add other formulas on one sheet.

Formula Logs Reason Codes

1. Exchange
2. Issued in lieu of benefits on card
3. Formula sent to /received from another site or LA
4. Participant no longer using
5. Exception with state approval
6. Damaged
7. Expired

Returned Formula Logs

- Use the reverse side of the returned formula logs for documentation:
 - Description of complete exchange transaction that includes formula returned or issued from stock
 - Special State approval and problem number
 - Participant information
- Example: Returned drop shipment formula that can't be accounted for by completing FEX

Basic Infant Formula Module

- Recommended that all applicable employees retake the revised module
- Error in the workbook see memo #12-120
- Annual revisions to workbook

Formula Contract Change

- Dealing with resistance to change
 - Handouts: Changing to New Formula (Powder, Concentrate)
- Revised Prescription Form

Formula Contract Change

- Concerns
 - Spot availability problems especially of soy concentrate
 - Concentrate packaging reminder
 - Participant shopping problems
 - Vendor/HCP confusion about the contract change
 - Make sure it is clear that Similac milk-based formulas are still authorized
 - How is it going?

Future Formula Trainings

- Coming in 2013
 - FD 15.0 – Issuance of Ready-to-Use Formula
 - Formula Approval IDL Series – DVD replay on demand
 - Thinking Outside the Box for the WIC RD - next topic – “Post Discharge Formulas”

Question and Answer Session
