Opening Remarks: The Public Health System Framework and the CPC

Peggy Wittie, PhD
Manager
Tuberculosis and Hansen’s Disease Group
“Public Health in America”

1. The Public Health System as a framework for the Corrections Planning Committee (CPC)

2. Describe the three public health core functions and 10 essential public health services

3. Demonstrate the benefits of partnering with a purpose
Public health systems are commonly defined as “all public, private, and voluntary entities that contribute to the delivery of essential public health services within a jurisdiction.”
The Public Health System

- The public health system includes
  - Public health agencies at state and local levels
  - Healthcare providers
  - Public safety agencies
  - Human service and charity organizations
  - Education and youth development organizations
  - Recreation and arts-related organizations
  - Economic and philanthropic organizations
  - Environmental agencies and organizations
Core Functions of Public Health
Steering Committee:

“Public Health in America”

- Core Functions of Public Health:
