In 2017, 161 correctional facilities met the Texas Health & Safety Code Chapter 89 criteria and were required to report their TB screening activities in the form of a Monthly Correctional TB Report. This annual report highlights TB screening activities in your jail and compares results to all designated Texas Health & Safety Code Chapter 89 correctional facilities.

| Table 2: TB Screening Results January 1– December 31, 2017 |
|-----------------|-----------------|-----------------|-----------------|-----------------|
|                  | Comal County Jail | Total at this Facility | % at this Facility | All Facilities (Chapter 89) | % All Facilities |
| **INMATES**      |                 |                       |                  |                              |                  |
| Number of Skin Test Administered | 1,513 |                       |                  | 472,392                     |                  |
| Number of Skin Test Read | 1,223 | 80.8%                  |                  | 361,267                     | 76%              |
| Number of Positive Tuberculin Skin Test | 24  | 2%                     |                  | 20,863                      | 5.8%             |
| Number of Chest X-rays Performed | 35  |                       |                  | 37,581                      |                  |
| Number of Conversions | 0  |                       |                  | 1,498                       |                  |
| Number of TB Suspects Reported | 0  |                       |                  | 117                         |                  |
| Number of Active TB Cases Reported | 0  |                       |                  | 35                          |                  |
| Number of TB Cases Transferred In | 0  |                       |                  | 2                           |                  |
| **EMPLOYEES**    |                 |                       |                  |                              |                  |
| Number of Skin Test Administered | 97  |                       |                  | 14,335                      |                  |
| Number of Skin Test Read | 97  | 100%                   |                  | 13,918                      | 97%              |
| Number of Positive TST | 0  | 0%                     |                  | 86                          | 0.6%             |
| Number of CXRs Performed | 0  |                       |                  | 272                         |                  |
| Number of Conversions | 0  |                       |                  | 16                          |                  |
| Number of TB Suspects Reported | 0  |                       |                  | 0                           |                  |
| Number of Active TB Cases Reported | 0  |                       |                  | 0                           |                  |
In 2017, there were 1,513 inmate tuberculin skin tests administered and read at Comal County Jail. Of that number, 24 (2\%) had a measurement of 10 mm or greater.

There were 97 employee tuberculin skin tests administered. Of that number, 0 (0\%) had a measurement of 10 mm or greater.

There were no suspects and no cases reported in 2017 at Comal County Jail.

All Monthly Correctional TB Reports were submitted for 2017 - 100\%.
