Memorandum

#21-025

TO: WIC Regional Directors
    WIC Local Agency Directors

FROM: Amanda Hovis, Director
      Nutrition Education/Clinic Services Unit
      Nutrition Services Section

DATE: April 5, 2021

SUBJECT: New staff training about human trafficking is available in the LMS

In cooperation with the Texas Human Trafficking Center, a new self-paced training called “HEART Training”, is now available to view in the WIC LMS.

Healthcare and social services professionals have a unique and important opportunity to recognize, report, and even prevent human trafficking. This training is designed to help you do that through core competencies that involve HEART – Hearing, Evaluating, Activating, Resourcing and Training.

This training is tagged as a Core training in the LMS and will replace the older “Human Trafficking” training. Completing this training will meet the WIC Core Tool requirement for staff to complete annual training on human trafficking. Staff can take this new training when their annual requirement is due.

Register in the Texas WIC Training Catalog:
HEART Training

If you have additional questions please contact Angela Gil, WIC Training Strategist, at Angela.Gil@hhs.texas.gov.

This institution is an equal opportunity provider.
