

Appendix E: Research Using Data from the Texas Birth Defects Registry and Related Projects

Below are citations for research using data contained in the Texas Birth Defects Registry and other projects related to the registry or birth defects published since this Appendix was last produced. With respect to National Birth Defects Prevention Study (NBDPS) publications, we have listed studies by Texas researchers. Many other NBDPS projects have included Texas data; a list is available upon request (please call 512-776-7232 or send an e-mail to birthdefects@dshs.texas.gov). In addition, publications are listed in the Texas Birth Defects Monitor, the research and data update of the Texas Birth Defects Epidemiology and Surveillance Branch. Past issues of the Monitor are available on our website at www.dshs.texas.gov/birthdefects.

Published Research Articles from the Texas Birth Defects Registry and the Texas Center for Birth Defects Research and Prevention

Agopian AJ, Kim J, Langlois PH, Lee L, Whitehead LW, Symanski E, Herdt ML, Delclos GL. Maternal occupational physical activity and risk for orofacial clefts. *Am J Indus Med.* 2017;60(7): 627-634.
