II. Community Benefits Projects/Activities:

Provide information on name, brief description (3 lines), target population or purpose (3 lines) for each of the community benefits projects/activities CURRENTLY being undertaken by your hospital (example: diabetes awareness).

Collaborative efforts are continually in process with area schools and other community agencies to provide health screenings with emphasis on hypertension, diabetes and heart disease for a healthier community and focusing on a proven need in the community. High school athletic physicals are provided to detect medical conditions that may be aggravated or inappropriate for athletic activities in order to avoid the increased risk of injury. Also, a seminar is held to educate area coaches on sports wellness and injuries. An annual Rehabilitation Conference is held to educate rehabilitation service providers and to increase awareness of the growing rehabilitation needs of our population. All community benefit projects and activities are created to increase awareness of the local and surrounding area residents while focusing on providing services to the under-served and under-insured.

Additional Information:

Use this space if more space is required for comments or to elaborate on any of the information supplied on this form. Please refer to the response by question and item number.
