

Psychiatrists

2014

Psychiatrist Growth Trends

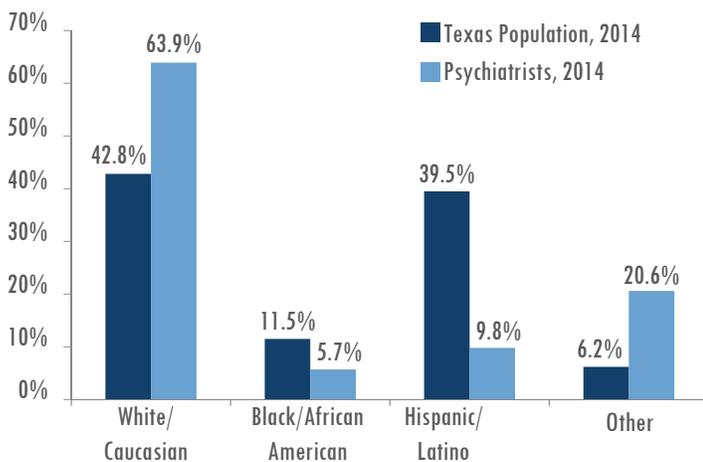

In 2014, there were 1,971 actively licensed psychiatrists providing direct patient care in Texas.

- This number represented a 20.6% increase since 2009 and a 33.6% increase since 2004.
- Relative to population growth, the size of the psychiatrist workforce has improved by 10.5% over the past ten years.

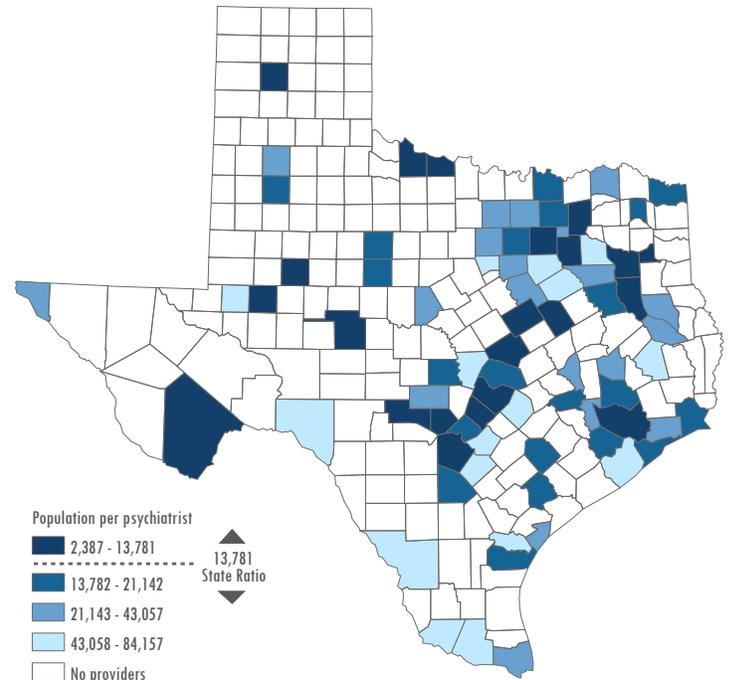

Despite these improvements, Texas still had fewer psychiatrists than the national average and the majority of the state was federally-designated as a mental health Health Professional Shortage Area.

Race/Ethnicity of Psychiatrists

The racial/ethnic distribution of Texas psychiatrists differed greatly from that of the Texas population.

Ratio of Texas Population to Psychiatrist, by County

Geographic Designation	Ratio of Population to Psychiatrist
Metropolitan	12,740
Non-metropolitan	36,867
Border	33,239
Non-border	12,904
Texas	13,781

Psychiatrists were not evenly distributed throughout the state.

- There was a 97.3% difference between the number of psychiatrists in metropolitan and non-metropolitan areas even after controlling for population differences.
- Between border and non-border areas the percent difference was 88.1%.

Gender of Psychiatrists

- In 2014, 40.3% of psychiatrists were female and 59.7% were male.
- In 2004, 33.0% were female and 67.0% were male.
- Among psychiatrists aged 40 years or younger in 2014, 58.6% were female and 41.4% were male.

Age Distribution of Psychiatrists, by Gender

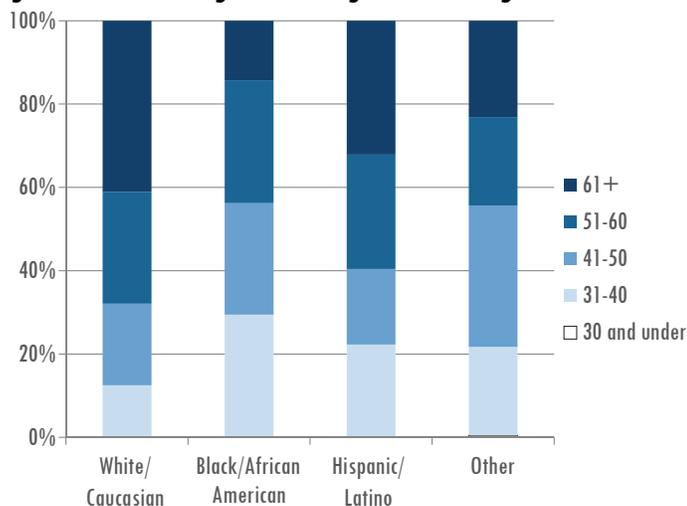

Age Group	Female	Male	Total
26-30	2	1	3
31-35	67	47	114
36-40	119	85	204
41-45	105	106	211
46-50	110	128	238
51-55	110	124	234
56-60	108	168	276
61-65	90	157	247
>65	83	360	443
Total	794	1,176	1,970¹

Within ten years, 49.0% of the current Texas psychiatric workforce will be at or past retirement age.

- 22.5% of active psychiatrists in Texas were older than 65 years of age in 2014.
- 26.5% were between the ages of 56 and 65.
- Among psychiatrists over 55 years of age, males comprised 70.9% of the psychiatric workforce.

¹ Gender data were available for only 1,970 of the state's 1,971 psychiatrists.

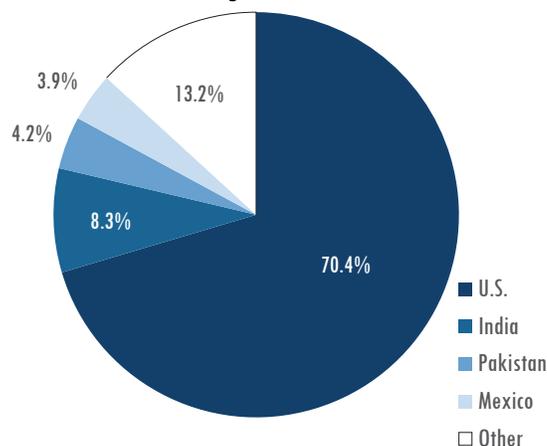

Age Distribution of Psychiatrists, by Race/Ethnicity

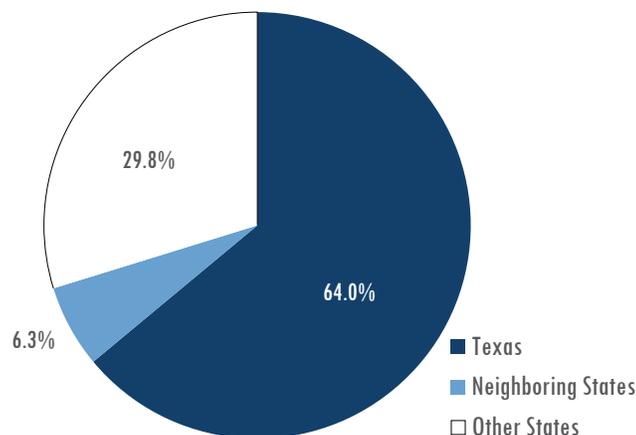

- Among whites/Caucasians, 40.1% of psychiatrists were 61 years of age or older. Just 12.5% were aged 40 or younger.
- 29.5% of black/African American psychiatrists were 40 or younger. Another 26.8% were between 41 and 50 years of age.
- 22.3% of Hispanic/Latinos were between 31 and 40 years old and 59.6% were 51 years of age or older.
