OCT	National Health Literacy Month
OCT 23/25	Texas Immunization Conference
NOV 14-15	NCI-Designated Cancer Centers HPV Vaccination Meeting

2018-19 Flu Season Coverage Rates Released

There's some good news for Texas in the fight against the flu. The most recent estimates showed a ten percent increase in flu vaccination coverage among Texans six months of age and older in 2018-2019, compared to the previous flu season.

Teal Pumpkin Project Helps Kids With Allergies

Most kids love Halloween. But for children who suffer from food allergies or other health conditions, Trick or Treating can be a difficult time.

Getting the flu is easy. Getting the flu shot is even easier.

The single best thing you can do to protect yourself and your family this flu season? Get the flu shot now. Want to know why? See our latest TV spot to learn about a lot of good reasons.

October 13-19, 2019

Infection Prevention is Everybody's Business

Each of us—patients, families, and healthcare personnel—play an important role in keeping patients safe from infection. First and foremost, know the basics of infection prevention. Do your part—and hand hygiene is key! Whether you're in a healthcare facility or in the community, there are things healthcare professionals, patients, and family members can do to stay safe from infections.
