

# Getting the COVID-19 Vaccine

## Why should I get the COVID-19 vaccine?

-  Keep you and your family safe.
-  Prevent more illness and death.
-  Help get Texas back to normal.

## How can I sign up for the vaccine?

There are many tools to help you find a vaccine in Texas.

Go to [COVIDvaccine.texas.gov](https://COVIDvaccine.texas.gov) or dial (833) 832-7067 for extra assistance and to speak in Spanish.

Remember: Don't show up for a vaccine without first checking the vaccine provider's instructions.

Go to the provider's website - call only if the website doesn't answer your questions.

## Requires Two Doses:

## Requires One Dose:

Full protection begins 1-2 weeks after your second dose. Please try to get both doses from the same vaccine provider.

## Who can get the vaccine now?

All people 12 and older.

More people may become eligible, stay updated by visiting [COVIDvaccine.texas.gov](https://COVIDvaccine.texas.gov) or dial 2-1-1.

## What else should I know?

- The vaccines protect you from COVID-19's worst and lowers your risk of spreading the virus.
- Over a hundred million Americans of diverse races, ethnicities and ages have been safely fully vaccinated.
- Mild side effects are normal signs your body is building protection, and usually go away after a few days.
- Protect yourself and others by getting vaccinated or by wearing a mask, staying 6 feet apart, and washing hands often.

The vaccine is very safe and can save your life!
