DSHS Newborn Screening Web Application
Search Tips for Accessing Newborn Screening Result Reports

If searching for results for specimens that were collected by your facility:

- "Submitted Samples Only" must be checked.
- Perform a search by entering as few search fields as possible (e.g. Birth Date or Date Collected).

Ex. of "Access Result Reports" page in Web Application

Form Serial #	-	Medical Record #	
Baby Last Name		NBS ID #	
Baby First Name		Submitter Name	
Mother Last Name		Physician Name	
Mother First Name		Mother's Maiden Name	
Birth Date	/ /	Mother's SSN	- -
Date Collected	/ /	DSHS Lab #	
Medicaid #		Mother Phone #	( ) -

☑ Submitted Samples Only

[Perform Search] [Clear Criteria]

If searching for results for specimens that were collected by another facility:

- "Submitted Samples Only" must be **un-**checked.
- The most efficient required search combinations to use are:
  - ✓ *Form Serial Number & Mother First Name*
  - ✓ *Mother First Name & Mother SSN*

The following search combinations may also be used. *Please note that these are the only allowed search combinations when searching for specimens collected under a different facility.* **Any other combinations will not return results.**

Acceptable search combinations:

First, start with this:	…then, enter ONE of these:	…and ONE of these:
Baby Date of Birth	Mother First Name	Mother SSN
	Mother Last Name	Medicaid #
	Baby First Name	
	Baby Last Name	Mother Phone #

OR, start with this:	…then, enter ONE of these:
Form Serial Number	Baby Last Name
	Mother Last Name
	Medicaid #
	Medical Record #
	Mother SSN
	Mother Phone #
