

S U S A N A . B E R R Y , M D

Susan A. Berry, MD is Professor of Pediatrics and Genetics, Cell Biology and Development at the University of Minnesota. She is the Director of the Division of Genetics and Metabolism in the Department of Pediatrics and the Institute of Human Genetics. She received a BA in Biochemistry (Rice University 1975) and MD (Kansas University, 1978). She did her Residency in Pediatrics (1978-1981) and Fellowship in Medical Genetics (1981-1984) at the University of Minnesota and has been on the faculty there since 1984. She is the co-leader of the Region 4 Genetics Collaborative's Priority 2 (long-term follow-up) Project implementing the Inborn Errors of Metabolism Information System. She has cared for children with inborn errors of metabolism throughout her medical career and has a longstanding interest in improvement in their care through early diagnosis and treatment.
