

# WE WANT TO HEAR FROM YOU!

The Texas Department of State Health Services Maternal and Child Health Section is asking families to take part in a survey to find out more about services for children with special health care needs in Texas. The information you share will give us an idea of what needs to be done to better serve children and youth with special health care needs.

## CSHCN Needs Assessment Survey

Participation in this survey is voluntary. You do not have to answer any question that you do not want to, and you can stop your participation at any time. Your responses are completely anonymous.
