

Data Submission Specifications

For specifications on how providers should submit data, the contractor shall obtain the CMBHS Document Access Role and make this information available to the provider network. Details for accessing the role can be found in Appendix 20 (B).

Providers who are batching data to CMBHS should be able to send data electronically using the format specifications available in the Adult Uniform Assessment folder, the Child Assessment folder, the Client Profile folder, the Diagnosis folder, and the Financial Eligibility folder.

Providers who are batching data to CMBHS should be able to process the CMBHS Batch Reports following the specifications in the CMBHS Data Dump Files folder.

Specifications for additional required reporting elements can be found in the NorthSTAR Contract FY2016-17, Appendices (20C), (20D), (20E), (20F), (20G), (20H) and (20I).
