

**Health Service Region 8 Monthly Update of Disease Reports  
Atascosa County, October 2012**

This report shows case counts of  
notifiable disease for the reporting period

10/1/2012 to 10/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case  
(Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

\* Denotes data unavailable

Outbreaks of Significance  
NONE

This report shows case counts of notifiable disease for the reporting period

10/1/2012 to 10/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

This report shows case counts of notifiable disease for the reporting period

10/1/2012 to 10/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

This report shows case counts of notifiable disease for the reporting period

10/1/2012 to 10/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report. \* Denotes data unavailable

Outbreaks of significance:  
NONE
