

# Measles is spreading.

## SYMPTOMS

Cough  
Runny nose  
Fever  
Pink eye  
Rash

## What to know to protect your family.

Measles is an airborne, highly contagious disease

Measles can frequently lead to hospitalization

Measles can be deadly, especially for babies and young children

The measles vaccine has been protecting Texans for generations

**Don't wait. Contact your doctor to schedule a measles vaccine.** If you're infected, 90% of those around you who are not protected will also become infected.

*For a vaccine near you, visit [dshs.texas.gov/measles](https://dshs.texas.gov/measles).*
