

Directions for How to Fill Out the Prescription Drug Price Disclosure Program's Annual WAC Report

Drug Manufacturers can either enter each product individually on the annual report page in the reporting system (step 7 in the user guide) **OR** use the attached DSHS approved Annual WAC Report template on the attachments page (step 8 in the user guide).

Please do not manually enter products into the reporting system AND attach the template with the same products or this will result in duplicate entries in the system. Please choose one method to report the required information.

For the Annual WAC Report, the following information is required:

- Manufacturer name,
- Drug trade name,
- Drug generic name,
- NDC #,
- Drug type (Generic or Trade),
- Price,
- Price increase (yes or no)
 - Only report yes if there has been a prescription drug price increase of 15% or more in the preceding calendar year **or** 40% or more increase in the preceding three calendar years then additional information is required.
 - If there is a price increase meeting the above criteria, the following additional information is required:
 - i. Drug FDA approved in the last three years (yes or no)
 - ii. Drug lost patent exclusivity in the last three years (yes or no),
 - iii. Price increase percentage (15% Increase in preceding calendar year or 40% increase in the preceding three calendar years)
 - iv. Price increase related to research and development costs (yes or no)
 - v. Reason for the price increase (if there is no price increase, please put **N/A**)

For additional information regarding statutory requirements for Annual WAC Reporting, please visit the program's website at www.texasrx.org.
