| If you have had a school closure please complete table below:  School Closures  Date Closed  | #f Absences due to ILI necessitating closure Total number of students Date Re-Opened  |  |  |  |  |  |  |  |  |  |  |
|  |   |  |  |  |  |  |  |  |  |  |  |
|  |   |  |  |  |  |  |  |  |  |  |  |
| [  |   |  |  |  |  |  |  |  |  |  |  |
| Please fax report to the 24/7 reporting line: 1-888-847-6892 (no cover sheet needed). You may call 432-4 being made. Thank you!  | 71-4110 with questions or comments. You may also email the report (if faxing isn't an option) to latonya.cabiness@dshs.state.tx.us If sending additional information for a previously su  | bmitted report, please highlight the changes |  |  |  |  |  |  |  |  |  |
|  |   |  |  |  |  |  |  |  |  |  |  |

### Benefits to old way of reporting:

 Allowed me the opportunity to communicate with the reporters.

# limitations with previous reporting method:

- Reports coming from different directions the weekly flu reports were coming to the
  regional coordinator either through the CD reporting line or directly by email. This made
  it very difficult for the backup to report accurately at times, because they didn't have
  access to my email.
- All the data for the entire season was separated, so there was no real way to analysis the data.
- Incomplete records
- Keeping up with all the many flu reports became a problem- I had used quite a bit of space on my computer/email box storing the weekly reports.

## New way of reporting

#### Summer Influenza Reporting

Summary

Design Survey

Collect Responses

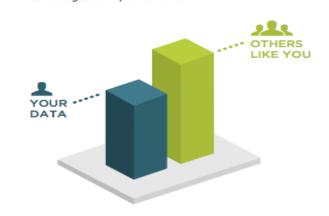

**Analyze Results** 

# SEE HOW YOUR RESULTS STACK UP Use benchmarks to see how your results compare to

industry leaders and get the context you need to:

- Assess performance metrics more accurately
- Set realistic goals
- Make targeted improvements

| RESPONSE SUMMARY          |              | ♠ SURVEY ALERTS: ON  |                     |  |  |  |  |  |

#### Benefits of using Survey Monkey for reporting

- A much more seamless process!
- The providers find it much simpler to report
- We can send a reminder email every week that includes the link to survey, and all they had
  to do was put in the password.
- We have a better way to track and analyze our data
- · We can customize our reports to ask pertinent questions we need

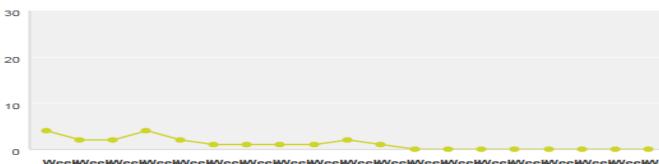

### Why did we start using survey monkey?

- Very user friendly
- Easy to set up
- Can be assessed from any computer

### I can easily find out how many of my reporters submitted their report for each week

## Select the week of patient care that you are reporting:

### I can customize my report

❖ Flu reporting in our region is very unique in the sense, our immunization's department handles the flu reporting.
