

Year 1: Right Size Surveillance Project

Questions asked by potential reporters

1. What's in it for me?
2. What are you (the Health Department) going to do with the information?
3. Who else is reporting this since it is not one of the notifiable conditions?
4. If it's not one of the notifiable conditions why should I report?

Packet Sent To Providers Will Contain:

Letter from NET Health

Letter from DSHS

Reporting Information

Information on the available transport media

Information on Rapid Flu Tests (while available)

List of Providers will include:

County Medical Societies
Freestanding ER's
Pediatric Offices
Etc.

At this time NET Health has no Providers other than the local hospitals reporting.
Our hope is to at least get 8 providers reporting weekly.

Questions???
