Please **check your Spam** folder for emails from **noreply@salesforce.com** as needed. You may also receive emails from **CDCCustomerService@McKesson.com**.

If possible, flag these addresses as safe-senders to avoid emails being sent to Spam.

Regardless of the number facilities you are associated with, you will have **one set of login credentials**.

Getting Started Navigating to Reports in the VAOS Provider Portal

Navigate to the VAOS Provider Portal

Log into your VAOS Provider Portal and navigate to the **Reports** section. Click **View All** to view a list of all available reports.

Viewing All Reports in VAOS

After clicking **View All**, you will find 12 reports to choose from.

The rest of the job aid details the purpose of each report, and how to view and export them.

1: Monthly Biological Report (job aid)

Monthly Biological Report

The Monthly Biological is a job aid that contains current vaccine inventory information, including vaccine, lot number, and expiration date. This job aid can be printed and used to track beginning inventory, doses transferred, doses administered, doses wasted, and ending inventory.

Monthly Biological Report

After clicking on the Monthly Biological Report tile, select your facility from the drop-down menu to view the report.

2. Physical and Tally Report (job aid)

Physical and Tally Report

The Physical and Tally Sheet report is a job aid that contains current vaccine inventory information for a facility. It can be printed and used to "tally" doses administered, physical count, and to add any provider comments.

Physical and Tally Report

After clicking on the Physical and Tally Report tile, select your facility from the drop-down menu to view the report.
