

DSHS Nirsevimab Update

Texas Vaccines for Children (TVFC) Providers,

TVFC providers can request Nirsevimab (Beyfortus™) in VAOS now through the end of Wednesday, November 1, 2023.

DSHS expects to receive notice of allocation from CDC on Wednesday. The level of the allocation will dictate DSHS's ability to fill orders from providers. When filling orders, DSHS intends to prioritize providers who serve the eligible population of newborns and babies under 1 year and high-risk children under 24 months.

Providers who receive an allocation will receive email confirmation. Providers who do not receive an allocation will receive an email and be asked to reorder later, based on the future timing of CDC allocations to the states.

For any questions, contact [TXVaccineOrders@dshs.texas.gov](mailto:TXVaccineOrders@dshs.texas.gov).

Thank you for your continued partnership.
