

## 2023-2024 Influenza Open Ordering

Texas Vaccines for Children (TVFC) program providers,

On Monday, October 30, 2023, all remaining pediatric influenza vaccines move to Open Order in the Vaccine Allocation and Ordering System. TVFC program providers must complete their required reporting in VAOS before placing an order for vaccines. Pediatric influenza presentations available for ordering:

<b>Vaccine Brand</b>	<b>Manufacturer</b>	<b>NDC</b>	<b>Formulation</b>	<b>Age Indication</b>
Flulaval	GSK	19515-0814-52	0.5 mL PFS	six months +
Fluarix	GSK	58160-0890-52	0.5 mL PFS	six months +
Fluzone	Sanofi	49281-0423-50	0.5 mL PFS	six months +
Flucelvax	Seqirus USA, Inc.	70461-0323-03	0.5 mL PFS	six months +
FluMist	AstraZeneca	66019-0310-10	0.2 mL sprayer	2 years+

Multi-dose vial (MDV) presentations are available upon request, and once specific brands are depleted, an equivalent vaccine will be substituted if available.

All pending pediatric influenza allocations must be acknowledged in VAOS by 5 p.m. CST on Friday, October 27, 2023. Any allocations not acknowledged will be released and made available for general ordering.

Thank you for participating in the TVFC program. Please contact your Responsible Entity (RE) with questions.
