Temperature Recording Form for Refrigerator – Fahrenheit

Monitor temperatures closely!

- 1. Note the time in "Exact Time".
- 2. Record refrigerator temps twice each workday, including exact decimals.
- 3. If temps are out-of-range (outside **36.0°F to 46.0°F**), see instructions to the right.
- 4. Record the min/max temps once each workday preferably in the morning.
- 5. Write your initials under "Staff Initials."
- 6. After each month has ended, save each month's log for five years.
- 7. Enter the data logger expiration dates:

Data Logger Exp. Date: _____

Backup Data Logger Exp. Date: _____

Facility Name _____

TVFC/ASN Coordinator _____

Danger! Take action immediately if temp is out of rangetoo warm (above 46.0°F) or too cold (below 36.0°F).

- 1. Label exposed vaccine "do not use," and store it under proper conditions as quickly as possible. Do not discard vaccines unless directed to by your state/local health department and/or the manufacturer(s).
- 2. Record the out-of-range temps and the room temp with decimals in the "Action" area of this log.
- 3. Notify your vaccine coordinator or call the Texas immunization program or your local health department for guidance.
- 4. Document the action taken on the "Vaccine Storage Troubleshooting Record" on page four.

Vaccine Storage Troubleshooting Record

Refrigerator

Use this form to document any unacceptable vaccine storage event, such as exposure of refrigerated vaccines to temperatures that are outside the manufacturers' recommended storage ranges.

Date & Time of event If multiple related events	Storage unit te at the time the p		Room temperature at the time the problem	Person completing report									
occurred, see "Description of event" below.	discovered		was discovered										
Date:	Temp:		Temp: Name:										
Time:	Min temp:	Comment:	Title:	Date:									
Description of event If multiple, related events occurred, list each date, time and length of time out of storage.													
General description <i>i.e., wh</i>	nat happened? Incl	ude any other inform	ation you feel might be releve	ant to understan	ding the event.								
Estimated length of time b (36.0°to 46.0°F [2.0° to 8.0			eading of storage temperat 0.0° to -15.0°C] for freezer	ure in acceptab	le range:								
Inventory of affected vacci Use separate sheet if need			chased with public or privanis troubleshooting record.	te funds.									
At the time of the event, w	At the time of the event, what else was in the storage unit? For example, were there water bottles in the refrigerator?												
Prior to this event, have th	ere been any stor	age problems with t	this unit and/or with the aff	ected vaccine?									
Action taken Document thoroughly. This	s information is cr	itical to determining	whether the vaccine might	still be viable!									
When were the affected vaccines placed in proper storage conditions? Note: Do not discard the vaccine. Store exposed vaccine in proper conditions and label it "do not use" until after you can discuss with your state/local health department and/or the manufacturer[s].													
Who was contacted regarding the incident? For example, supervisor, state/local health department, manufacturer—list all.													
IMPORTANT: What did you do to prevent a similar problem from occurring in the future?
