

# TVFC Flu Dashboard Variable Definitions

Time period the report covers

Useful websites with flu statistics and resources

Sum of flu doses administered in your clinic, divided by the number of your TVFC-eligible children

Number of TVFC-eligible children in your practice, as reported in your TVFC-patient profile

Number of flu doses that you pre-booked

Number of flu doses that have been shipped and transferred to you, removing doses that you transferred to other facilities

Your rank of all TVFC sites in your county

Coverage and utilization rates for the county and the state, based on the most recent DSHS Population Estimate Survey

The # of Influenza-like Illness (ILI) Outbreaks and Pediatric Influenza deaths, as of the last day of the previous month

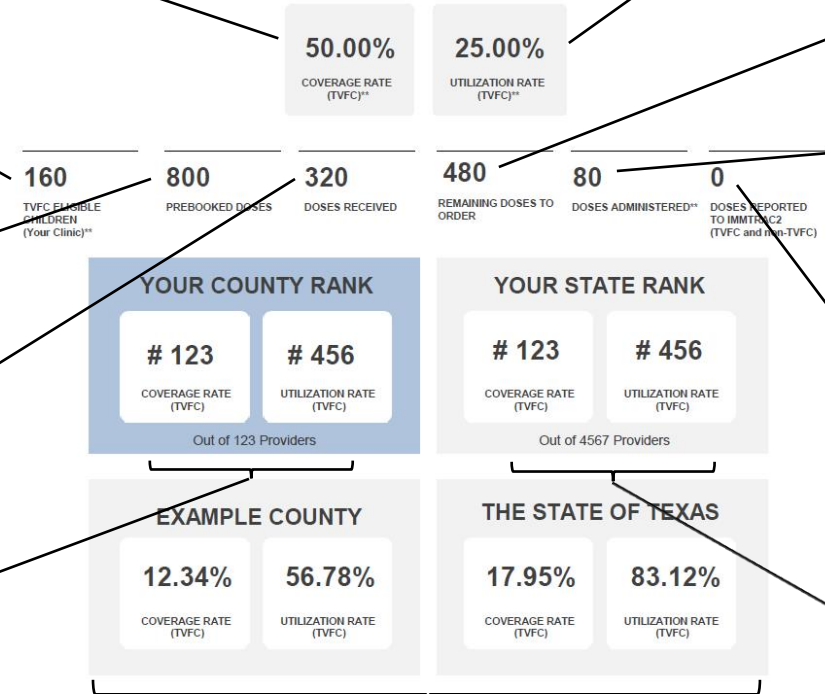

Sum of flu doses administered in your clinic, divided by the number of flu doses your facility has received

Remaining number of doses your facility is expected to order based on your pre-book doses and doses shipped (ignoring transfers)

Number of flu doses administered at your clinic since report date, as reported in VAOS

Total number of TVFC and private flu doses you reported to ImmTrac2 since the beginning of the flu season, for clients under 19 years of age with child or adult consent for inclusion into the registry

Your rank of all TVFC-enrolled sites in the state

\* Influenza-like illness (ILI)  
\*\* Provider-reported population estimate is from the 2024 Re-Enrollment Survey. Doses administered is based on your doses reported to DSHS as of 11/8/2025. If rates exceed 100%, the provider may be under-reporting their TVFC-eligible population or over-reporting doses administered.
