## Summary

The Reminder/Recall Report generates client notices, which include letters, cards, mailing labels, and client listings. Reminder and recall notices can be generated for each client if the following conditions in the client record are met:

- The client status is “Active” in the Client Information section for your organization.
- The “Allow Reminder and Recall Contact?” indicator in the Client Information section is “Yes.”
- The client has complete address information listed in the Address Information section.

## Generate Reminder/Recall Report Steps 1-2

See Figure 1: Generate Reminder/Recall Report Steps 1-2.

To generate the Reminder/Recall Report, follow the steps below.

1. Click the **Generate Report** option from the menu panel.
2. Select the **Reminder/Recall Report**.

Clients manage client enter new client edit consent information	Reports Available

## Generate Reminder/Recall Report Steps 3-6

See Figure 2: Generate Reminder/Recall Report Steps 3-6.

3. **Set the Request Criteria:** The Create New List Section gives users the option of selecting saved reminder recall request criteria or creating a new reminder recall request.
  - **Enter new Reminder Recall Request Criteria:** Selecting the radio button and supplying a list name will generate a new reminder recall request report that can be generated as a report or saved as a template and later generated as a report.
  - **Use a previous Reminder Recall Request Criteria:** Selecting the "Use a previous Reminder Recall Request Criteria" radio button and selecting a list name displays that template's criteria. Once the criteria displays, users can edit the criteria from the previous list before generating the report.
4. **Indicate the Tracking Schedule:** Choose which set of recommended immunizations and corresponding dates will be compared to each client's immunization history.

- Select the Vaccine Group to Report on:** Choose which vaccines will be included in the report by selecting a vaccine and clicking the Add button. Also select which vaccines to include, vaccines that are Due Now, Past Due, or Both.
- Selecting Subpotent Recall:** This filter will show the clients with Sub-potent vaccinations recorded.

The screenshot shows the 'Reminder/Recall Request' form with the following sections highlighted by red boxes and numbered:

- Step 3:** 'Create New List ...' button.
- Step 4:** 'Indicate the Tracking Schedule ...' section, including radio buttons for 'Use Tracking Schedule Associated with Each Client' and 'Use Tracking Schedule Selected for All Clients', and a dropdown menu.
- Step 5:** 'Select the Vaccine Group To Report on ...' section, including radio buttons for 'Use All Vaccine Groups', 'Use Vaccine Groups Selected', 'Vaccines Due Now', 'Vaccines Past Due', and 'Both'. It also features a list of vaccines (Adeno, Amantadine) with 'Add' and 'Remove' buttons.
- Step 6:** 'Select Subpotent Recall ...' section, including a checkbox for 'Use Subpotent Vaccinations'.

Figure 2: Generate Reminder/Recall Report Steps 3-6

## Generate Reminder/Recall Report Steps 7-12

See Figure 3: Generate Reminder/Recall Report Steps 7-12.

- Selecting a School or Primary Care Provider:** This filters the clients who have been assigned to the selected school or physician.
- Enter Additional Demographic Information:** Entering and/or selecting these options allows filtering of clients whose records match specific demographic information.
- Enter the Date criteria:** Select a Date Range to filter clients.
  - Target Date – Entering a target date range will return clients who are due now, are past due, or will be due for the selected vaccine within the specified date range.

- Birth Date - Entering a birth date range will return clients who have a birth date that falls between the dates entered.
- Age Range - Entering an age range will return clients whose age falls between the dates entered.

10. **Select Vaccine Groups to Display:** Selecting Vaccine Groups to display will filter for the vaccine groups that display on the report as being recommended. By default, all vaccine groups that are due now or past due display on the report.

11. **Specify How to Sort the Report Data:** Allows a choice of sorting options. The default is last name in ascending order, then first name in ascending order.

12. Click the **Save & Generate**  button to save the request criteria and to generate the report.

- If previous Reminder Recall Request Criteria was selected, this will save any changes made to template.
- Click the **Generate**  button to generate the report and not save as a template or save changes to the criteria list.
- Click the **Cancel**  button to return to the Generate Reports screen.

## Reminder Request Status Screen

See Figure 4: Status Screen.

Once the reports are generated the **Reminder Request Status** screen displays. This screen will only retain one report at a time, and as new reports are generated the previous report will no longer be accessible. The status indicates the percentage of completion for the report. Periodically click on **Refresh** to update the completion percentage information. The time it will take for the report to generate will depend upon the number of clients associated with the provider organization.

This screen will also display all the reminder output options that were generated for the specific report.

1. When redirected to the Reminder Request Status screen, click the Refresh button until the status is 100%.
2. When the report is ready, click on the blue hyperlink to go to the Reminder Request Process Summary screen.

Figure 4: Status Screen

**Note:** The report will run in the background similar to other reports, allowing users to exit ImmTrac2 or work on other ImmTrac2 tasks until it completes. To go to the Reminder Request Status screen, click on “generate report” on the menu panel and click the “Status” link next to the Reminder/Recall Report link.

## Reminder Request Process Summary Screen

The Summary screen is broken up into three sections: Reminder Request Criteria, Reminder Request Output Options, and Last Notice Date Options. From the Summary screen, users can create various reminder output options.

**Reminder Request Criteria:** This section lists the number of clients involved in the search and the criteria used to define the search. The *Total Number of Clients Eligible for Reminder* at the bottom of the screen is dependent upon the search criteria and is narrowed down by each criteria step. See *Figure 5: Reminder Request Criteria*.

Reminder Request Process Summary

**Reminder Request Output Options:** This section lists the various reminder output options available, including both standard outputs and custom outputs. See below and see also *Figure 6: Reminder Request Output Options*.

- **Output** – This column displays the types of reports that can be produced. These reports are described in detail in the table below. **Clicking the Hyperlink in the Output column will generate the report that was selected.**
- **Description** - This column provides a brief description of the output option.
- **Additional Input** - This column displays options for including additional information on the output report and defining a report:
  - **Report Name:** Enter the Name to describe the output report.
  - **Free text:** Enter in text that will appear on the report.
  - **Phone#:** Enter in the phone number that will appear on the output report.

## Reminder Letter

The letter output option allows users to generate a standard form letter to the parent/guardian for each client returned on the query. The letter allows room at the top for the organization's letterhead. The body of the letter includes the client's immunization history, recommended immunizations, and due dates. There are up to two lines for free text and/or a telephone number.

To generate Reminder Letter, follow the steps below (see *Figure 7: Generate Reminder Letter Steps 1-2*):

- Under the *Additional Input* column, there are options to enter the following:
  - Duplex printing** – printing on both sides.
  - Report Name** - if a Report Name is not indicated, the report will simply be named Reminder Letter on the Reminder Report Status screen with the date it was generated. Enter up to 20 characters in this field.
  - Free Text** - include a maximum of 400 characters in this field. This information will be displayed as the closing for each letter.
  - Phone** - the telephone number is presented in the closing for each letter.
- Click the **Reminder Letter** hyperlink.

## Reminder Card

The Reminder Card output option allows users to generate a standard reminder card for the parent/guardian for each client returned on the query. The card allows room at the top for a greeting. The body of the card includes the client's recommended immunizations and due dates. There are up to two lines for free text and/or a telephone number.

To generate Reminder Cards, follow the steps below (see *Figure 10: Generate Reminder Card Steps 1-2* and *Figure 11: Generate Reminder Card Steps 3-4*).

1. Under the *Additional Input* column, users have the option of entering:
  - a. **Report Name** - If a Report Name is not indicated, the report will simply be named "Reminder Card" on the Reminder Report Status screen with the date it was generated. Enter up to 20 characters in this field.

- b. **Free Text** - Includes a maximum of 400 characters in this field. This information will be displayed as the closing for each card.
  - c. **Phone** - The telephone number is presented in the closing for each of the card.
2. Click the **Reminder Letter** hyperlink.

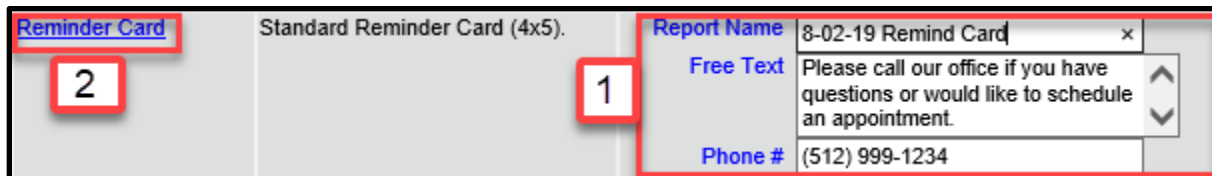

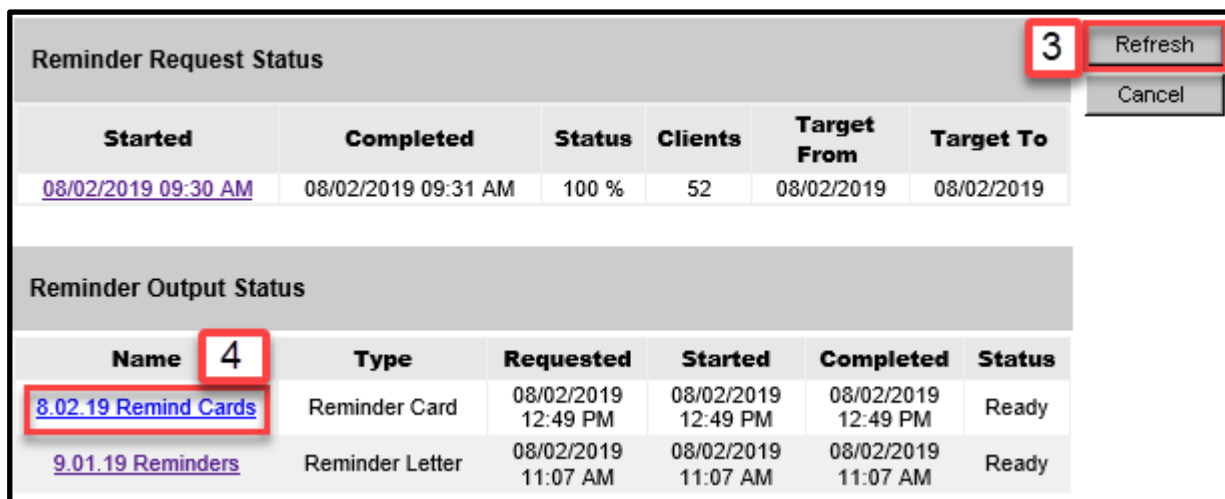

Figure 10: Generate Reminder Card Steps 1-2

- 3. Users are redirected back to the Reminder Request and Output Status screen, and if needed click the Refresh button until the status is "Ready."
- 4. The Reminder Card will be listed at the top of the Output Status section as an active hyperlink available in both English and Spanish. Click on the Reminder Card hyperlink to view or print the letters in a PDF file. See Figure 12: Generate Reminder Card Example.

To generate the Mailing Labels, Client Query Listing, Extract Client Data, and Client Reminder/Recall Spreadsheet, follow the steps below. See *Figure 16: Generate Reminder Output Options Step 1-2*.

**Note:** The reminder output options are generated one at a time.

1. Under the Additional Input column of the table enter a **Report Name** - if a Report Name is not indicated, the report will simply be named "Mailing Labels" or "Client List", or "Client XML", or "Client Reminder/Recall Spreadsheet" on the Reminder Report Status screen with the date and time it was generated. Enter up to 20 characters in each file name field.
2. Click the appropriate Output hyperlink: "Mailing Labels", "Client Query Listing", "Extract Client Data", or "Client Reminder/Recall Spreadsheet".

**Preview Clients:** view a list of clients included in the Reminder Recall Report. This information includes a hyperlink to each client’s demographic record. This is the same screen that display if the Check Reminder List is selected from the *Generate Report* menu option.

**Increment Eligible:** used to reset the last notice date for all clients eligible for this reminder. The last notice date is viewable on the client’s demographic record under the organization information section.

**Increment Immunized:** used to increment the last notice date for all clients immunized by your organization.

**Cancel:** to return to the Reminder Request Status screen.

## Custom Letter

In addition to the standard letter, ImmTrac2 allows users to create and store up to three custom letters to be used for reminders and recalls. Once a custom letter is created it is available for selection on the Reminder Request Output Option screen for the Reminder Report. See *Figure 19: Reminder Request Output Options*.

## Reminder/Recall Custom Letter options:

- **Top Margin.** From the drop-down list provided, choose the number of blank lines at the top of the letter. **These blank spaces will leave room for your office letterhead.** This field will default to 3.
- **Client Address.** Check the box to include the client’s address at the top of the letter.
- **Salutation.** Enter a greeting in the text box to begin the letter. For example, “Dear” or “Greetings.” Use the drop-down arrow to determine if you want to **Include a name at the end of the salutation.** If “Name” is selected, the name of the client will show up after the salutation. If “Responsible Person” is chosen, the letter will read <salutation> Parent/Guardian of <client name>. For example, “Dean Parent/Guardian of Peggy Sue.”
- **Paragraph 1 First Part.** Enter desired text. Enter up to 4,000 characters of text in this field.
- **Paragraph 1 Name Option.** Include a name between the first and second part of this paragraph: Choose the name to appear within the paragraph from the drop-down list. Select either parent/guardian, client name or no name.
- **Paragraph 1 Second Part.** If you chose to enter a name, add the remaining text for the first paragraph in this field.
- **Immunization History Option.** Check the box to include the client’s immunization history in the letter. **If you do not want to include the client’s immunization history in this letter, do not check the box “Include immunization history”.**
- **Paragraph 2.** Enter desired text. Enter up to 4,000 characters of text in this field.
- **Immunizations Recommended Option.** Check this box to include the immunization needed forecast for the client in the letter.
- **Paragraph 3.** Enter desired text. Enter up to 4,000 characters of text in this field.
- **Closing.** Enter a closing word or statement for the letter in this field. You have the option of checking a box to include the name of the provider organization in the closing, and another option of checking a box to include the phone number of the organization in the closing.
