## **Texas Reportable Conditions Reporting Process**

#### **Frequently Asked Questions**

#### **How Can I Tell What Conditions Need to be Reported?**

**The Texas Notifiable Conditions List** identifies the conditions that must be reported to the DSHS and their reporting time frames. The list is available online <a href="here">here</a>. Or scan the QR code at right.

#### **Reporting Time Frames**

3.

- **1. Report Immediately:** Call 1-800-705-8868
- 2. Report within 1 workday: Phone or Fax Report Form to DSHS\*
  - Report within 1 week: Fax or Mail Report Form to DSHS\*

Texas Notifiable Conditions List

#### **Should Notifiable Condition Reports be Sent to the DSHS Laboratory?**

**No.** Reports must be sent to the disease reporting contact of **the patient's county of residence.** Always call 1-800-705-8868 to report "call immediately" conditions.

Fax or mail a completed Infectious Disease Report Form (EPI-1 or EPI-2) to the health department contact listed for that county.

- Notifiable Conditions Reporting contacts by county available online at <a href="http://www.dshs.state.tx.us/idcu/investigation/conditions/contacts/">http://www.dshs.state.tx.us/idcu/investigation/conditions/contacts/</a>.
- EPI Reporting Forms available at <a href="https://www.dshs.texas.gov/notifiable-conditions/reporting-forms">https://www.dshs.texas.gov/notifiable-conditions/reporting-forms</a>.

NOTE: EPI report forms are used for most reportable conditions. Refer to the reporting forms web link above to obtain reporting forms and confirm the process for chickenpox and HIV/STD reporting.

#### What Type of Specimens Must be Submitted to the DSHS Laboratory?

Submit **pure cultures** (or clinical specimens) to the DSHS Laboratory as they become available. (Footnote 3 of the Texas Notifiable Conditions List identifies these specimens).

- All specimens must be submitted with a completed DSHS specimen submission form.
- Providers must have a DSHS Submitter ID Account.
- Report forms or lab results are not acceptable replacements for DSHS submission forms.
- For Haemophilus, only isolates from normally sterile sites are accepted (e.g., blood or CSF).

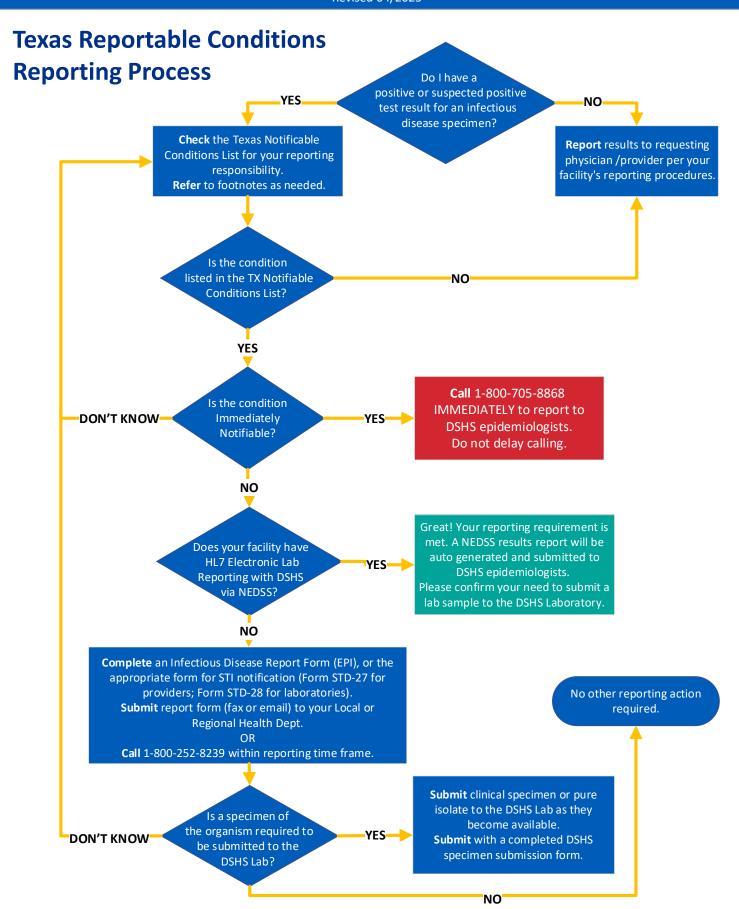

### **Questions About...**

**Electronic Lab Reporting:** Visit <u>Electronic Laboratory Reporting for HL7 Submitters | Texas DSHS</u> or www.dshs.texas.gov/public-health-informatics-data-exchange-unit-phid/electronic-laboratory-reporting-hl7-submitters

Specimen Submissions: (512) 776-7598 or 1-888-963-7111 ext. 7578 (toll free) Submitter Accounts or Submission Forms: (512) 776-7578 or LabInfo@dshs.texas.gov

TEXAS
Health and Human

<sup>\*</sup>May also be submitted to DSHS as an Electronic Lab Report.

# **Required TX Notifiable Specimens for Submission to DSHS Laboratory**

Required 1X Notifiable Specimens for Submission to DSHS Laboratory		
Required Isolate	Form	Reporting and Submission Form Tips
Bacillus anthracis  Bacillus cereus that may contain anthrax	G-27A G-27A	<ul> <li>Call Immediately: 1-800-705-8868</li> <li>Must be shipped as Category A.</li> <li>Select Bacillus anthracis in Section 5 of G-27A.</li> <li>Call Immediately: 1-800-705-8868</li> </ul>
toxin genes from patients with severe disease or death Clostridium botulinum	G-27A	<ul> <li>Select "Bacillus cereus suspected of containing anthrax genes" in Section 5 of G-27A.</li> <li>Call Immediately: 1-800-705-8868</li> </ul>
		<ul> <li>Must be shipped as Category A.</li> <li>Select appropriate boxes in Sections 3 and 4 of G-27A.</li> </ul>
Brucella species	G-27A	<ul> <li>Notify DSHS Within 1 Workday.</li> <li>Must be shipped as Category A.</li> <li>Select Brucella spp. in Section 5 of G-27A.</li> </ul>
Candida auris	G-2E	<ul> <li>Notify DSHS Within 1 Workday.</li> <li>Select "Isolates" in Section 4, Box 1 of G-2E.</li> <li>Select "Candida Identification by MALDI" in Section 4, Box 1.</li> </ul>
Corynebacterium diphtheriae	G-2B	<ul> <li>Call Immediately: 1-800-705-8868</li> <li>Indicate in Section 2 that specimen is associated with an outbreak or for surveillance, per epidemiologist guidance.</li> <li>Select Corynebacterium diphtheriae in Section 4.1 of G-2B.</li> </ul>
Francisella tularensis	G-27A	<ul> <li>Call Immediately: 1-800-705-8868</li> <li>Must be shipped as Category A.</li> <li>Select Francisella tularensis in Section 5 of G-27A.</li> </ul>
Haemophilus influenzae (invasive) from normally sterile sites in children younger than 5 years old	G-2B	<ul> <li>Submit invasive specimens from normally sterile sites in children younger than 5 years only. (e.g., blood or CSF)</li> <li>Indicate in Section 2 that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Haemophilus influenzae in Section 4.1 of G-2B.</li> </ul>
Listeria monocytogenes	G-2B	<ul> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak/for surveillance.</li> <li>Select <i>Listeria</i> in Section 4.1 of G-2B.</li> </ul>
Mycobacterium tuberculosis complex	G-MYCO	<ul> <li>Notify DSHS Within 1 Workday.</li> <li>Must be submitted as Category A.</li> <li>Check the "MTB Genotyping Only/for Compliance" option in Section 5 of G-MYCO.</li> </ul>
Neisseria meningitidis from normally sterile sites or purpuric lesions	G-2B	<ul> <li>Call Immediately: 1-800-705-8868</li> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Neisseria meningitidis in Section 4.1 of G-2B.</li> </ul>
Salmonella species, and specimens positive for Salmonella by culture independent diagnostic testing (CIDT)	G-2B	<ul> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Salmonella in Section 4.1 of G-2B.</li> </ul>
Shiga toxin-producing <i>Escherichia coli</i> (All <i>E. coli</i> O157:H7, and any isolates or specimens demonstrating Shiga toxin activity)	G-2B	<ul> <li>Must be shipped as Category A.</li> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select "Shiga toxin-producing <i>Escherichia coli"</i> in Section 4.1.</li> </ul>
Staphylococcus aureus with a vancomycin MIC greater than 2µg/mL	G-2B	<ul> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Staphylococcus aureus in Section 4.1 of G-2B.</li> </ul>
Streptococcus pneumoniae from normally sterile sites in children younger than 5 years old	G-2B	<ul> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Streptococcus pneumoniae in Section 4.1 of G-2B.</li> </ul>
Vibrio species, and specimens positive for Vibrio by CIDT	G-2B	<ul> <li>Notify DSHS Within 1 Workday.</li> <li>Indicate in Section 2 of G-2B that specimen is associated with an outbreak or is for surveillance.</li> <li>Select Vibrio sp. or Vibrio cholera in Section 4.1 of G-2B.</li> </ul>
Yersinia pestis	G-27A	<ul> <li>Call Immediately: 1-800-705-8868</li> <li>Must be shipped as Category A.</li> <li>Select <i>Yersinia pestis</i> in Section 5 of G-27A.</li> </ul>
